Directors' Report

The Board of Directors (the "Directors") present their Annual Report together with the Audited Financial Statements of VanEck UCITS ETFs plc (the "Company") for the financial year ended 31 December 2025.

Statement of Directors' Responsibilities

The Directors are responsible for preparing the Directors' Report and financial statements, in accordance with applicable law and regulations.

Irish Company law requires the Directors to prepare financial statements for each financial year. Under that law, they have elected to prepare the financial statements in accordance with IFRS Accounting Standards as adopted by the European Union ("IFRS") and applicable law.

Under Irish company law, the Directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the assets, liabilities and financial position of the Company and of its changes in net assets attributable to holders of redeemable participating shares for that financial year. In preparing the financial statements, the Directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgments and estimates that are reasonable and prudent;
- state whether applicable Accounting Standards have been followed, subject to any material departures disclosed and explained in the financial statements;
- assess the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern; and
- use the going concern basis of accounting unless they either intend to liquidate the Company or to cease operations, or have no realistic alternative but to do so.

The Directors confirm that they have complied with the above requirements in preparing the financial statements.

The Directors are also responsible for safeguarding the assets of the Company and hence, for taking reasonable steps for the prevention and detection of fraud and other irregularities.

The Directors are responsible for keeping adequate accounting records which disclose with reasonable accuracy at any time the assets, liabilities, financial position and profit or loss of the Company and enable them to ensure that its financial statements comply with the Companies Act 2014 and the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2019 (the "UCITS Regulations") and the Central Bank (Supervision and Enforcement) Act 2019 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019 (collectively the "Central Bank UCITS Regulations"). They are responsible for such internal controls as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error, and have general responsibility for taking such steps as are reasonably open to them to safeguard the assets of the Company. In this regard, they have entrusted the assets of the Company to a custodian for safe-keeping. They have general responsibility for taking such steps as are reasonably open to them to prevent and detect fraud and other irregularities. The Directors are also responsible for preparing a Directors' Report that complies with the requirements of the Companies Act 2014.

The Directors are responsible for the maintenance and integrity of the corporate and financial information included on the Company's website www.vaneck.com. Legislation in Ireland governing the preparation and dissemination of financial statements may differ from legislation in other jurisdictions.

Under the Central Bank UCITS Regulations, the Directors are required to entrust the assets of the Company to a Depositary for safe-keeping. To achieve this, the Directors have appointed State Street Custodial Services (Ireland) Limited (the "Depositary"). In carrying out this duty, the Directors have delegated custody of the Company's assets to the Depositary. They have general responsibility for taking such steps as are reasonably open to them to prevent and detect fraud and other irregularities. The Directors are also responsible for preparing a Directors' Report that complies with the requirements of the Companies Act 2014.

Directors' Report (continued)

Compliance Statement

The Directors acknowledge that they are responsible for securing the Company's compliance with the relevant obligations as set out in section 225 of the Companies Act 2014. The Directors confirm that:

1. A compliance policy document has been drawn up that sets out policies, that in our opinion are appropriate to the Company, respecting compliance by the Company with its relevant obligations;
2. Appropriate arrangements or structures are in place that are, in our opinion, designed to secure material compliance with the Company's relevant obligations; and
3. During the financial year, the arrangements or structures referred to in (2) have been reviewed.

Audit Committee

Pursuant to section 167 of the Companies Act 2014, the Board of Directors established an audit committee (the "Audit Committee") with effect from December 2016. The Audit Committee comprise of the following Directors: Adrian Waters, Mary Canning, Jon Lukomnik. The chairman of the Audit Committee is Mr. Adrian Waters. The Audit Committee will hold office for a period of one year unless earlier removed by the Board of Directors or by the members of the Company. The secretary of the Company acts as secretary of the Audit Committee. The Manager has delegated the day-to-day investment management for certain sub-funds of the company to VanEck Associates Corporation (the "Investment Manager"). The administration of the company has been delegated to State Street Fund Services (Ireland) Limited (the "Administrator").

Relevant Audit Information

The Directors believe that they have complied with the requirements of Section 330 of the Companies Act 2014, as follows:

- So far as each person who is a Director at the date of approving this report is aware, there is no relevant audit information, being information needed by the auditor in connection with preparing its report, of which the auditor is unaware; and
- Having made enquiries of fellow Directors and the Company's auditor, each Director has taken all the steps that he/she is obliged to take as a Director in order to make himself/herself aware of any relevant audit information and to establish that the auditor is aware of the information.

Adequate Accounting Records

The Directors believe that they have complied with the Companies Act 2014, with regard to accounting records by engaging the services of an Administrator, who employs personnel with appropriate expertise and adequate resources to provide the Company's finance function.

The Company has appointed VanEck Asset Management B.V. (the "Manager") as manager of the Company who has, in turn delegated certain duties to the Investment Manager and the Administrator.

The measures taken by the Directors to secure compliance with the Company's obligations to keep adequate accounting records include the use of appropriate systems and procedures and the employment of competent persons. The accounting records are retained at the office of the Administrator at 78 Sir John Rogerson's Quay, Dublin 2, D02 HD32, Ireland.

Corporate Governance Statement

Introduction and Background

The Directors of VanEck UCITS ETFs plc (the "Company") consider that solid and sustainable corporate governance structures and processes are in place for the Company for the financial year under review.

Directors' Report (continued)

Corporate Governance Statement (continued)

Introduction and Background (continued)

On 19 November 2014, the Directors voluntarily adopted the Corporate Governance Code for Irish domiciled Collective Investment Schemes and Management Companies (the "Code") as issued by the industry body, Irish Funds, with effect from 8 December 2014, the date of authorisation of the Company. The Code reflects existing corporate governance practices imposed on Irish authorised collective investment schemes and is available from the website www.irishfunds.ie. The Board considers that the Company has been in full compliance with the Code during the financial year under review.

Furthermore, the Company is subject to corporate governance rules, regulations and practices imposed by:

- The Constitution of the Company which can be inspected at the registered office of the Company at 33 Sir John Rogerson's Quay, Dublin 2, D02 XK09, Ireland, and may be obtained from the Companies Registration Office in Ireland;
- Companies Act 2014, as amended, which is available the website, www.irishstatutebook.ie;
- The Central Bank of Ireland pursuant to Central Bank UCITS Regulations (which can be inspected at the registered office of the Company) and Standards of Fitness & Probity issued pursuant to section 50 of the Central Bank Reform Act 2010 both of which can be obtained from the website, www.centralbank.ie; and
- Euronext Dublin through its Code of Listing Requirements and Procedures which can be obtained from the website, www.ise.ie.

The Company is not subject to the European Communities (Takeover Bids (Directive 2004/25/EC)) Regulations 2006.

Board Diversity

The Company is subject to a number of legal and regulatory requirements regarding the make-up of its board of directors (the "Board") including the UCITS Regulations, Central Bank UCITS Regulations and the Companies Act 2014. In addition, the Company has adopted the Irish Fund's Corporate Governance Code for Collective Investment Schemes and Management Companies which includes requirements regarding board composition. Currently, the Board comprised of seven individuals, all of whom are non-executive, and three of whom are independent. In addition, the Company is obliged to ensure that each of its directors meet all legal and regulatory requirements including being of sufficiently good repute and sufficiently experienced in relation to the type of business carried out by the Company, that all directors meet the Central Bank's fitness and probity requirements and that the Board of the Company has a good balance of skill and expertise so as to enable it to properly and effectively conduct the business of the Company.

These requirements help to ensure a diverse and balanced range of skills as between the Directors on the Board.

The Company is committed to actively promoting inclusive and diverse boards and to ensuring an open and fair recruitment process. The diversity may be achieved by having boards with a blend of skills, educational and professional backgrounds, as well as being comprised of individuals with different characteristics (including age, gender, marital status and ethnicity). As part of the annual performance evaluation of the effectiveness of the board, the Company will consider the balance of skills, experience, independence, and knowledge of the sub-funds and the diversity representation of the board.

The Board has regard to the various requirements set out above when considering any prospective new appointments to the Board.

Directors' Report (continued)

Corporate Governance Statement (continued)

Compliance

The Board considers that the Company has complied with the relevant provisions contained within the Code throughout this accounting period. This Corporate Governance Statement describes how the Code is applied to the Company.

Internal Control and Risk Management Systems

The Directors are responsible for establishing and maintaining adequate internal control and risk management processes of the Company in relation to the financial reporting process. Such processes are designed to manage rather than eliminate the risk of error or fraud in achieving the Company's financial reporting objectives and can only provide reasonable and not absolute assurance against material misstatement or loss. These include appointing the Administrator to maintain the adequate accounting records of the Company independent of the Investment Manager and the Depository. The Administrator is authorised and regulated by the Central Bank of Ireland (the "Central Bank") and complies with the rules imposed by the Central Bank.

The Directors have put procedures in place to ensure all relevant accounting records are properly maintained and are readily available, including production of annual and half-yearly financial statements. The annual financial statements of the Company are required to be approved by the Directors of the Company and filed with the Central Bank and Euronext Dublin. The statutory financial statements are required to be audited by independent auditors who report annually to the Board on their findings. From time to time, the Directors also examine and evaluate the Administrator's financial accounting and reporting routines and monitor and evaluate the independent auditor's performance, qualifications and independence. The Administrator has operating responsibility in respect of its internal controls in relation to the financial reporting process and the Administrator's report to the Directors.

The Directors receive regular presentations and review reports from the Depository, the Manager, the Investment Manager and the Administrator. The Directors also have an annual process to ensure that appropriate measures are taken to consider and address the shortcomings identified and measures recommended by the independent auditor.

Operation of the Shareholder Meeting, the Key Powers of the Shareholder Meeting, Shareholder Rights and the Exercise of Such Rights

The annual general meeting of the Company is held in Ireland. Notice convening the annual general meeting in each financial year at which the audited financial statements of the Company will be presented (together with the Directors' and Auditor's reports) will be sent to the shareholders at their registered address. The Annual Report and Audited Financial Statements of the Company will be made available to shareholders within four months after the conclusion of each accounting year and at least 21 days before the general meeting of the Company at which they are to be submitted for approval.

The convening and conduct of shareholder meetings are governed by the Articles of Association of the Company and the Companies Act 2014. Although the Directors may convene an extraordinary general meeting of the Company at any time, the Directors are required to convene an annual general meeting of the Company within eighteen months of incorporation and fifteen months of the date of the previous annual general meeting thereafter.

Shareholders representing not less than one-tenth of the paid up share capital of the Company may also request the Directors to convene a shareholder meeting. Not less than twenty one days notice of every annual general meeting and any meeting convened for the passing of a special resolution must be given to shareholders and 14 days notice must be given in the case of any other general meeting unless the auditors of the Company and all the shareholders of the Company entitled to attend and vote agree to shorter notice. Two members present either in person or by proxy constitutes a quorum at a general meeting provided that the quorum for a general meeting convened to consider any alteration to the class rights of shares is two shareholders holding or representing by proxy at least one third of the issued shares of the relevant sub-fund or class.

Directors' Report (continued)

Corporate Governance Statement (continued)

Board composition

The Company has no employees. The Board currently consists of seven non-executive Directors. Details about the Directors are available from the Prospectus. The Board considers this a sufficient size to oversee adequately the operations of the Company. Three Directors (Ms. Mary Canning, Mr. Adrian Waters and Mr. Jon Lukomnik) are independent of the Manager, the Investment Manager and other third party service providers such as the Administrator and Depositary. Two of the independent Directors are Irish resident and thus available to meet the Central Bank at short notice. Mr. Gijsbert Koning is an employee of the Manager, VanEck Asset Management B.V., the other three Directors are employees of the Investment Manager, VanEck Associates Corporation. As demonstrated in the Directors' biographies in the Company's Prospectus, the Board also maintains an appropriate balance of skills, expertise, experience and independence amongst its members. The Directors have a combination of investment knowledge, business and financial skills. The Board considers this a reasonable composition of the Board to ensure a proper governance of the Company. The Directors also have sufficient time to devote to the role of director and associated responsibilities. They disclose in writing on an annual basis to the Board their other time commitments including directorships held outside the Company. The Board is satisfied that the Directors have sufficient time to fully discharge their duties not only for the quarterly Board meetings but also to deal with items at short notice from time to time. The Board informally reviews the overall Board's performance and that of individual Directors annually with a formal documented review taking place every three years.

Responsibilities of the Board

The Board is responsible for the effective and prudent oversight of the Company and is ultimately responsible for ensuring that risk and compliance is properly managed on behalf of the Company. Certain areas of responsibility have been delegated but the key decisions of strategic nature relating to the Company have to be considered by the Board.

Delegation and Service Providers

The Manager of the Company is VanEck Asset Management B.V. (the "Manager"). The Manager is responsible for day-to-day management, administration and distribution of the Company and its sub-funds. The Manager has appointed VanEck Associates Corporation as the Investment Manager of VanEck J.P. Morgan EM Local Currency Bond UCITS ETF, VanEck Emerging Markets High Yield Bond UCITS ETF, VanEck Global Fallen Angel High Yield Bond UCITS ETF and VanEck US Fallen Angel High Yield Bond UCITS ETF sub-funds. All other sub-funds are managed by the Manager. The Investment Manager operates pursuant to the terms of its respective investment management agreement, guidelines determined by the Manager and as detailed in the Company's Prospectus and the supplements relating to the relevant sub-funds. The Investment Manager has direct responsibility for the decisions relating to the day-to-day operation of the relevant sub-funds and is accountable to the Board of the Manager and the Company for the investment performance of the relevant sub-funds.

The Board has established an audit committee and delegated certain functions to the Audit Committee.

Directors and Secretary

The Directors as at 31 December 2025 and throughout the financial year then ended are listed in Directors and Other Information on page 3. Tudor Trust Limited held the office of secretary (the "Secretary").

Directors' and Secretary's Interests in Shares and Contracts

The Directors with the exception of Gijsbert Koning, Secretary and their close family members had no interests in the shares of the Company at 31 December 2025. No Directors (with the exception of Gijsbert Koning) had a material interest in any contract of significance during or at the end of the financial year in relation to the business of the Company.

Mr. Gijsbert Koning held 83,524 shares at the beginning of the financial year, purchasing 150 shares during the financial year and holding 83,674 shares with a value of USD 2,066,347 as at 31 December 2025. Angkor

Directors' Report (continued)

Corporate Governance Statement (continued)

Directors' and Secretary's Interests in Shares and Contracts (continued)

Holding B.V. an entity controlled by Mr. Gijsbert Koning held 2,377 shares with a value of USD 85,722 as at 31 December 2025 (31 December 2024: 4,090 shares with a value of USD 206,905). Close family members of Mr. Gijsbert Koning have USD 78,522 (31 December 2024: USD 66,222) outstanding worth of the shares of the Company as at 31 December 2025. All transactions entered into by Mr. Gijsbert Koning and his close family members and Angkor Holding B.V. were made under normal commercial terms.

Employees

The governance framework of the Company reflects the fact that, as a collective investment scheme, it has no employees and outsources investment management and administration.

Connected Persons Transactions

Regulation 43(1) of the Central Bank UCITS Regulations "Restrictions of transactions with connected persons" states that "A responsible person shall ensure that any transaction between a UCITS and a connected person is conducted a) at arm's length; and b) in the best interest of the shareholders of the UCITS".

As required under Central Bank UCITS Regulation 81(4), the Directors, as responsible persons are satisfied that there are in place arrangements, evidenced by written procedures, to ensure that the obligations that are prescribed by Regulation 43(1) are applied to all transactions with a connected party; and all transactions with connected persons that were entered into during the financial year to which the report relates complied with the obligations that are prescribed by Regulation 43(1).

Principal Activities: Review of the Business and Future Developments

The Company is a public limited company with variable capital intended to be an umbrella sub-fund with segregated liability between sub-funds established pursuant to the Companies Act 2014.

The investment objective of each sub-fund is to seek to provide shareholders with a return linked to a reference index.

The Manager's Report contains a review of the factors which contributed to the performance for the financial year.

Details of Net Asset Value are set out in the sub-fund's Statement of Financial Position and the Net Asset Value per share is set out in Appendix 1.

There was no change in the nature of the Company's business during the financial year and the Directors do not anticipate any change in the structure or investment objectives of the Company.

In February 2026, a geopolitical conflict escalated in the Middle East. The Manager have assessed the potential impact of this event on the sub-funds and has determined that the sub-funds have minimal direct exposure to the region. Accordingly, there has been no material effect on the sub-funds' operations or financial position to date. The Manager will continue to monitor developments and will reflect any material impacts in future financial statements, if applicable.

Principal Risks and Uncertainties

The main risks arising from the Company's financial instruments are market risk (including market price risk, interest rate risk and currency risk), credit risk and liquidity risk which are outlined in Note 4 to these financial statements.

The Company's overall risk management policy focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the sub-fund's financial performance. Investment in the Company carries with it a degree of risk including, but not limited to, the risks referred to in Note 4 of these

Directors' Report (continued)

Principal Risks and Uncertainties (continued)

financial statements. The Company's business activities, together with the factors likely to affect its future development, performance and position are set out in the Manager's Report. The financial position of the Company as at 31 December 2025 is described in the financial statements on pages 60 to 65.

In addition, the Manager's Report sets out the objectives of VanEck Junior Gold Miners UCITS ETF, VanEck Gold Miners UCITS ETF, VanEck Morningstar US ESG Wide Moat UCITS ETF, VanEck Morningstar Global Wide Moat UCITS ETF, VanEck J.P. Morgan EM Local Currency Bond UCITS ETF, VanEck Global Fallen Angel High Yield Bond UCITS ETF, VanEck Emerging Markets High Yield Bond UCITS ETF, VanEck S&P Global Mining UCITS ETF, VanEck Video Gaming and eSports UCITS ETF, VanEck Semiconductor UCITS ETF, VanEck Hydrogen Economy UCITS ETF, VanEck Crypto and Blockchain Innovators UCITS ETF, VanEck Rare Earth and Strategic Metals UCITS ETF, VanEck New China UCITS ETF, VanEck Space Innovators UCITS ETF, VanEck Sustainable Future of Food UCITS ETF, VanEck Genomics and Healthcare Innovators UCITS ETF, VanEck Circular Economy UCITS ETF, VanEck Medical Robotics and Bionic Engineering UCITS ETF, VanEck Uranium and Nuclear Technologies UCITS ETF, VanEck Defense UCITS ETF, VanEck Oil Services UCITS ETF, VanEck US Fallen Angel High Yield Bond UCITS ETF, VanEck Morningstar US SMID Moat UCITS ETF, VanEck Morningstar US Wide Moat UCITS ETF and VanEck Quantum Computing UCITS ETF. The Company has considerable assets under management with minimal to moderate levels of tracking error. As a consequence, the Directors believe that the Company is well placed to manage its business successfully.

Climate risk

The Directors acknowledge that climate change is an emerging risk impacting the global economy and will continue to be of interest to all stakeholders with a focus on how climate change is expected to impact industry including societal response and the regulatory environment in the future. However, having considered such factors relating to climate change, the Directors have determined that there are no direct or immediate impacts of climate change on the business operations of the Company. Given this, there is no basis on which to provide extended information of analysis relating to climate change risks on the business operations of the Company. Furthermore, the Directors conclude that at present there is no material impact to the fair value of financial instruments, assets and liabilities of the Company. The Directors recognise that governmental and societal responses to climate change risks are still developing and the future impact cannot be predicted. Therefore, the future fair value of assets and liabilities may fluctuate as the market responds to climate change policies, physical events and changes in societal behaviours.

Significant Events During the Financial Year

See Note 16 to the financial statements for significant events during the financial year.

Subsequent Events after the Financial Year End

See Note 17 to the financial statements for significant events affecting the Company since the financial year end that require amendment to or disclosure in the financial statements.

The Results and Dividends

The results for the financial year are set out in the Statement of Comprehensive Income. The Directors are permitted to declare dividends on any Class of Shares as appears to the Directors to be justified by the profits of the relevant sub-fund. No dividends were declared for the financial years ended 31 December 2025 or 31 December 2024.

Directors' Report (continued)

Independent Auditors

Grant Thornton was appointed as statutory auditor on 30 May 2025 and will continue in office in accordance with section 383(2) of the Companies Act 2014.

On behalf of the Board of the Directors

Report from the Depositary to the Shareholders

Report of the Depositary to the Shareholders

We have enquired into the conduct of VanEck Asset Management B.V. as the Manager of VanEck UCITS ETFs plc (the “Company”) for the financial year ended 31 December 2025, in our capacity as Depositary to the Company.

This report including the opinion has been prepared for and solely for the shareholders in the Company as a body, in accordance with Regulation 34 (1), (3) and (4) in Part 5 of the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011, as amended, (the “UCITS Regulations”), and for no other purpose. We do not, in giving this opinion, accept or assume responsibility for any other purpose or to any other person to whom this report is shown.

Responsibilities of the Depositary

Our duties and responsibilities are outlined in Regulation 34, (1), (3) and (4) in Part 5 of the UCITS Regulations. One of those duties is to enquire into the conduct of the Company in each annual accounting period and report thereon to the shareholders.

Our report shall state whether, in our opinion, the Company has been managed in that period in accordance with the provisions of the Company’s constitution (the “Constitution”) and the UCITS Regulations. It is the overall responsibility of the Company to comply with these provisions. If the Company has not so complied, we as Depositary must state why this is the case and outline the steps which we have taken to rectify the situation.

Basis of Depositary Opinion

The Depositary conducts such reviews as it, in its reasonable opinion, considers necessary in order to comply with its duties as outlined in Regulation 34, (1), (3) and (4) in Part 5 of the UCITS Regulations and to ensure that, in all material respects, the Company has been managed

- (i) in accordance with the limitations imposed on its investment and borrowing powers by the provisions of the Constitution and the UCITS Regulations; and
- (ii) otherwise in accordance with the Company’s constitutional documentation and the appropriate regulations.

Opinion

In our opinion, the Company has been managed during the year, in all material respects:

- (i) in accordance with the limitations imposed on the investment and borrowing powers of the Company by the Constitution, the UCITS Regulations and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019 (the “Central Bank UCITS Regulations”); and
- (ii) otherwise in accordance with the provisions of the Constitution, the UCITS Regulations and the Central Bank UCITS Regulations.

Manager's Report

MARKET REPORT

Gold Miners

This market background summary covers VanEck Gold Miners UCITS ETF and VanEck Junior Gold Miners UCITS ETF.

- For the period from 1 January 2025 to 31 December 2025, VanEck Gold Miners UCITS ETF returned 155.67% and VanEck Junior Gold Miners UCITS ETF returned 174.2%.
- Gold prices averaged above \$3,500 per ounce throughout 2025, closing the year at about \$4,400 per ounce underpinned by investor focus on the U.S. Federal Reserve's evolving monetary policy and recurring labour market signals.
- Over the course of the year, FOMC communications suggested that inflation was gradually easing, though persistent price pressures, partially attributed to lingering effects of Trump-era policies remained a key concern. These factors led to fluctuating expectations regarding the pace of Fed rate cuts, impacting gold's performance as a non-yielding asset.
- According to World Gold Council data, gold ETFs saw renewed and sustained investor demand throughout 2025, ending the year with seven consecutive months of net inflows led by North American funds. Flows were supported by a weaker U.S. dollar, falling yields, elevated geopolitical risk, and heightened policy uncertainty, reinforcing gold's role as a preferred safe-haven asset.
- Geopolitical tensions continue to enhance gold's appeal as a safe-haven asset, with ongoing conflict in Ukraine, rising tensions between China and Taiwan, and recent escalations involving Tehran. In this uncertain environment, gold is increasingly seen as a strategic hedge within diversified investment portfolios.
- Our long-term outlook for higher gold prices remains intact, with the next key level to watch at \$5,500, supported by persistent geopolitical tensions, potentially stickier inflation, growing efforts by countries to diversify away from the U.S. dollar by increasing gold reserves, and the looming risk of a U.S. or global economic recession.

Morningstar US ESG Wide Moat

This market background summary covers VanEck Morningstar US ESG Wide Moat UCITS ETF.

- For the period from 1 January 2025 to 31 December 2025, VanEck Morningstar US ESG Wide Moat UCITS ETF returned 6.93%.
- VanEck Morningstar US ESG Wide Moat UCITS ETF seeks to replicate as closely as possible, before fees and expenses, the price and yield performance of the US Sustainability Moat Index TM (MSUSSMNU). The index targets U.S. companies with sustainable competitive advantages, i.e., "moats," and attractive valuations in the view of Morningstar's team of more than 100 equity analysts, subject to ESG screening based on Sustainalytics data.
- According to the forward-looking process of Morningstar's Equity Research group, companies with moats have the potential to create above-average returns for longer periods of time. The index's approach to investing in U.S. companies with wide economic moats when they are attractively priced has resulted in long-term outperformance versus the broad U.S. equity market.
- The largest sectors represented in the portfolio are Health Care, Information Technology and Consumer Staples.

Emerging Markets Government Debt

This market background summary covers VanEck J.P. Morgan EM Local Currency Bond UCITS ETF.

Manager's Report (continued)

MARKET REPORT (continued)

Emerging Markets Government Debt (continued)

- For the period from 1 January 2025 to 31 December 2025, VanEck J.P. Morgan EM Local Currency Bond UCITS ETF returned 18.26%.
- Local-currency emerging-market ("EM") bonds continue to offer meaningful diversification benefits relative to US-dollar EM sovereign and corporate debt, reflecting different drivers (local rates and FX) and generally lower correlation with developed-market ("DM") assets. This dynamic remained relevant through 2025, helped by US dollar weakness during parts of the year.
- Commodity-sensitive currencies can benefit when commodity prices and global demand are strong, but this relationship is conditional and became less uniform in 2025 as commodity prices moved lower on average; country-specific fundamentals still matter.
- Many EM central banks tightened earlier in the cycle than some DM peers and—by late 2025—select EM central banks had scope to begin easing as disinflation took hold, although room to cut varies significantly across countries.
- Average credit quality of the local EM benchmark is investment grade and multiple notches higher than the hard currency benchmark, which is on average high yield, reflecting the difference in composition.

Fallen Angels

This market background summary covers VanEck Global Fallen Angel High Yield Bond UCITS ETF.

- For the period from 1 January 2025 to 31 December 2025, VanEck Global Fallen Angel High Yield Bond UCITS ETF returned 10.54%.
- Fallen angel bonds are part of the overall high yield universe but unique in that they were originally issued with investment grade ratings and later downgraded to non-investment grade, or high yield. This results in differentiating characteristics versus the broader high yield bond market—such as, a higher average credit quality—and the crossover from investment grade to high yield markets is where the value proposition of fallen angels originates.
- Yield to Worst of the ETF slightly dropped from the end of 2025 to 6.26% (while as of 31 December 2024 it was 6.33%) reflecting combination of modest spread tightening and central-bank rate dynamics.
- As of 31 December 2025, the ETF had an increased allocation to the energy sector, which could continue benefiting from disruptions following the geopolitical situation.

US Fallen Angels

This market background summary covers VanEck US Fallen Angel High Yield Bond UCITS ETF.

- For the period from 1 January 2025 to 31 December 2025, VanEck US Fallen Angel High Yield Bond UCITS ETF returned 8.93%.
- Fallen angel bonds are part of the overall high yield universe but unique in that they were originally issued with investment grade ratings and later downgraded to non-investment grade, or high yield. This results in differentiating characteristics versus the broader high yield bond market—such as, a higher average credit quality—and the crossover from investment grade to high yield markets is where the value proposition of fallen angels originates.
- Yield to Worst of the ETF decreased YTD to 6.1% (while as of 31 December 2024 it was 6.25%) driven by a mix of modest spread compression and tactical duration management; these dynamics are sensitive to Fed guidance and spread volatility.

Manager's Report (continued)

MARKET REPORT (continued)

Emerging Markets Corporate Debt

This market background summary covers VanEck Emerging Markets High Yield Bond UCITS ETF.

- For the period from 1 January 2025 to 31 December 2025, VanEck Emerging Markets High Yield Bond UCITS ETF returned 8.94%.
- EM USD high yield corporates currently provide an overall average yield of around 7.38%, a yield pickup of 0.8% over US high yield ("HY"), while maintaining similar levels of duration.
- While providing higher yields, EM universe contains a greater portion of bonds rated BB, and fewer rated CCC and below, versus high yield U.S. corporate bonds.
- On average, many EM issuers show comparable or in some cases stronger coverage metrics than US HY peers, but heterogeneity across regions and sectors makes issuer-by-issuer analysis essential.
- EM HY's sector composition, notably exposure to Energy (21.8%) and Basic Materials (14.6%), means it can be sensitive to commodity cycles; while inflation can support commodity prices (and some FX), falling commodity prices in 2025 moderated this tailwind, so the benefit is conditional on the commodity cycle.

Global Mining

This market background summary covers VanEck S&P Global Mining UCITS ETF.

- For the period from 1 January 2025 to 31 December 2025, VanEck S&P Global Mining UCITS ETF returned 90.51%.
- Secular trends have driven rising demand for green metals such as copper, lithium, and rare earth elements, with growth expected to continue. While lithium prices were under pressure earlier in the year due to slower-than-expected demand recovery in China and elevated supply, conditions improved in the second half of 2025, supported by resilient EV demand, supply rationalization and policy support. Copper, in contrast, has maintained strong demand and pricing, supporting profitability in the sector. Looking ahead, technological progress, especially in low-carbon solutions, is likely to fuel the next phase of demand growth.
- The wars in Ukraine and tensions in Middle East have intensified both the push for energy transition and growing national security concerns, particularly around access to strategic metals. Rare earth elements are vital for defense technologies, including radar systems, missile guidance, and jet engines. In response, several governments, especially NATO members, have committed to increasing defense budgets, with a recent agreement to target defense spending at 5% of GDP, reflecting the elevated importance of securing critical resources.
- In the long term, emerging applications such as Cybertrucks (with up to three drive motors), robotics (with unit usage potentially comparable to EVs), and eVTOLs are expected to drive additional demand.
- Even after the recent uptrend, valuations of mining companies remain broadly attractive relative to historical averages and to other sectors of the economy.

Esports and Video Gaming

This market background summary covers VanEck Video Gaming and eSports UCITS ETF.

- For the period from 1 January 2025 to 31 December 2025, VanEck Video Gaming and eSports UCITS ETF returned 27.36%.

Manager's Report (continued)

MARKET REPORT (continued)

Esports and Video Gaming (continued)

- The gaming and eSports industry has rebounded strongly, driven by recovery trends and structural growth opportunities. This renaissance can be seen as investor confidence in the sector's recovery and future growth potential.
- Gaming's recovery is underway, with revenues projected to grow 6% annually to \$257 billion by 2028, underscoring its deep integration into global culture. While challenges such as competitive pressure and dependence on blockbuster titles persist, the industry has adapted through mobile expansion, diversified revenue streams, and robust monetization models that support long-term resilience.
- Emerging technologies like AI are transforming gaming economics, helping reduce development costs, automate testing, and enable new revenue levers such as contextual in-game advertising. Generative AI, in particular, holds promise for cost-efficient content creation, supporting earnings growth while empowering companies to innovate and scale more sustainably.
- 2025 has been a transformative year for gaming and esports, marked by major milestones that signal both commercial momentum and cultural resonance. Nintendo's successful Switch 2 launch reaffirmed the strength of its franchise-led strategy, with record-breaking console sales in Japan and global launch figures that surpassed even the PlayStation 4's debut.

Morningstar Global Wide Moat

This market background summary covers VanEck Morningstar Global Wide Moat UCITS ETF.

- For the period from 1 January 2025 to 31 December 2025, VanEck Morningstar Global Wide Moat UCITS ETF returned 25.24%.
- VanEck Morningstar Global Wide Moat UCITS ETF provides exposure to global firms with Morningstar Economic Moat Ratings that are trading at the lowest current market price/fair value ratios.
- As of 31 December 2025, most of the companies in the index were located in the US (roughly 29% weight, down from 41% at the end of 2024), China (close to 18%) and UK (slightly above 10%). Top 3 sectors of Global Wide Moat companies were Industrials, Consumer Staples and Healthcare.

Semiconductor

This market background summary covers VanEck Semiconductor UCITS ETF.

- For the period from 1 January 2025 to 31 December 2025, VanEck Semiconductor UCITS ETF returned 50.11%.
- The fund experienced periods of drawdowns and subsequent rebounds through the year, reflecting sector sensitivity to regulatory developments, AI demand expectations and investor sentiment shifts.
- Global semiconductor demand continued to surge in 2025, driven predominantly by AI hardware and advanced computing applications, with semiconductor revenue reaching historically high levels. As of 31 December 2025, NVIDIA was the largest company in the world by market capitalization, solidifying its position as the leading semiconductor company by valuation and reinforcing its pivotal role in AI-driven demand.
- The strategic importance of semiconductors for industrial sovereignty remains a defining theme. Both the U.S. CHIPS Act continues to incentivize onshore manufacturing and supply-chain resilience, while the European Chips Act is being actively implemented and reviewed to enhance EU competitiveness and reduce external dependencies.

Manager's Report (continued)

MARKET REPORT (continued)

Semiconductor (continued)

- The rivalry between China and the United States over the supply of semiconductors remained a defining theme throughout 2025. While China continued to promote the development of its domestic semiconductor industry and maintained regulatory scrutiny of U.S. companies on national security grounds, the United States further refined its export control framework during the year.

Hydrogen

This market background summary covers VanEck Hydrogen Economy UCITS ETF.

- For the period from 1 January 2025 to 31 December 2025, VanEck Hydrogen Economy UCITS ETF returned 18.62%.
- Committed capital for clean hydrogen projects has now passed \$110 billion across 510 projects, up by \$35 billion from last year and growing on average over 50% year-over-year since 2020. However, the industry still faces cost, regulatory, and infrastructure challenges.
- The International Energy Agency (IEA) highlights that the cost gap between low-emissions hydrogen and unabated fossil-based hydrogen remains a significant barrier but is expected to narrow toward 2030; targeted policies to create demand and accelerate infrastructure deployment will be crucial to underpin further growth.
- China continues to lead in electrolyser manufacturing, deployment, and cost competitiveness, supporting stronger adoption domestically and potentially exporting technology and components.
- While COP30 did not produce formal binding commitments focused solely on hydrogen, the summit's voluntary pledges, cooperative frameworks, and sustainable fuels initiatives explicitly include hydrogen and contribute to maintaining momentum for its deployment across sectors and markets.

Digital Assets

This market background summary covers VanEck Crypto and Blockchain Innovators UCITS ETF.

- For the period from 1 January 2025 to 31 December 2025, VanEck Crypto and Blockchain Innovators UCITS ETF returned 13.89%.
- VanEck Crypto and Blockchain Innovators UCITS ETF is a pure-play product investing in companies truly involved in the blockchain ecosystem. Digital assets equities can be viewed as a leveraged bet on digital assets, outperforming them during bull markets but underperforming them over market downturns. Over 2025, digital assets equities moderate but positive performance.
- Despite the boost from Trump's election victory and a series of positive policy developments, Bitcoin's rally proved uneven over 2025. Gains stalled in October following earlier advances, before momentum resumed in December, though prices remained well below prior all-time highs by year-end.
- Developments such as the announcement of a U.S. strategic Bitcoin reserve supported sentiment and broadened participation across the crypto equity universe, rather than being concentrated in a small number of names. At the same time, increasing corporate adoption and discussions around conservative approaches to expanding strategic holdings continued to underpin the longer-term investment case for Bitcoin.

Rare Earth

This market background summary covers VanEck Rare Earth and Strategic Metals UCITS ETF.

Manager's Report (continued)

MARKET REPORT (continued)

Rare Earth (continued)

- For the period from 1 January 2025 to 31 December 2025, VanEck Rare Earth and Strategic Metals UCITS ETF returned 89.63%.
- The VanEck Rare Earth and Strategic Metals UCITS ETF (REMX), is closely tied to the MVIS Global Rare Earth/Strategic Metals Index (MVREMXTR), which in the last year allocated 40%-50% of its portfolio to lithium-related companies, while at least 25% of the portfolio is focused on companies involved in the extraction and processing of Rare Earth elements.
- The long-term forecast for rare earths and strategic metals remains positive, because they are crucial for decarbonization efforts, especially in the EV sector and wind-solar energy production. The global energy transition, aiming to meet Paris Agreement goals, implies a significant increase in demand, with the share of clean energies in rare earths total demand potentially rising to more than 40% (Global Critical Minerals Outlook 2025). For instance, EVs and energy storage systems are projected to account for over 90% of lithium demand by 2030 in the Net Zero Emissions Scenario, according to the IEA (the "International Energy Agency").
- Access to and availability of rare earth elements remain a globally significant issue. These 17 metals are essential for technological progress and critical advancements across multiple industries, including computers, batteries, defense systems, and monitors, underscoring their vital importance.
- Geopolitical developments continue to highlight the need for comprehensive mineral strategies. In 2025, the U.S. increased direct investment in domestic critical mineral producers, including MP Materials, to secure strategic rare earth supply for defense and advanced technologies. Despite inherent risks, the sector remains central to long-term economic resilience and technological progress.
- On 31 October, China and the U.S. reached an agreement to postpone restrictions on Chinese rare earth exports for one year, helping to ease market concerns after a period of strong price gains earlier in 2025. Investors should monitor Chinese policies, supply diversification efforts, and demand trends in EVs and renewables to navigate the landscape effectively.

Oil Services

This market background summary covers VanEck Oil Services UCITS ETF.

- For the period from 1 January 2025 to 31 December 2025, VanEck Oil Services UCITS ETF returned 8.24%.
- Oil services companies within the ETF show a positive correlation with oil, historically regarded as an inflation hedge. These companies also wield significant pricing power over downstream players, allowing them to effectively navigate periods of widespread price increases. While inflation is currently declining, global factors could lead to more persistent inflationary pressures than anticipated. Investing in the upstream oil services sector could provide strategic advantages in such a scenario.
- Brent crude prices remained volatile amid geopolitical tensions in 2025 but trended lower as rising global inventories weighed on the market. According to the U.S. Energy Information Administration (EIA), Brent crude prices averaged around \$69 per barrel in 2025 and are forecast to decline further to about \$55 per barrel in 2026, with OPEC+ policy and China's inventory builds expected to limit sharper price falls.
- Geopolitical tensions in the Middle East and the Russia–Ukraine war continue to pose upside risks to oil prices. More recently, U.S. action in Venezuela has added uncertainty, with potential changes to production and export flows introducing additional volatility, despite ample global supply limiting near-term price impacts.

Manager's Report (continued)

MARKET REPORT (continued)

Oil Services (continued)

- The oil and oil services industries are undergoing a dynamic transformation, driven by evolving environmental standards, rapid technological innovation, and shifts in global refining capacity. These trends present exciting opportunities for forward-looking companies to lead the next phase of energy development. Significant investments in both upstream and downstream operations are paving the way for a more efficient, cleaner, and digitally advanced energy sector. From digital drilling platforms to emissions-reducing refining technologies, the sector is becoming more agile and responsive to global demands.

China New

This market background summary covers VanEck New China UCITS ETF.

- For the period from 1 January 2025 to 31 December 2025, VanEck New China UCITS ETF returned 23.49%.
- China's long-term structural transition toward a more consumer- and services-oriented economy remains intact in 2025, supported by demographic trends, a large urban middle class, and rising demand for healthcare and services, even as near-term consumption is constrained by weak confidence and property-sector stress.
- The evolving economic model increasingly favours healthcare, consumer goods, and technology, while heavy industry is being modernised rather than replaced, with policy support focused on advanced manufacturing, clean energy, and strategic technologies to enhance productivity and self-sufficiency.
- VanEck New China UCITS ETF experienced an uptick in performance in 2025, continuing the trend started in the second half of 2024.

Space

This market background summary covers VanEck Space Innovators UCITS ETF.

- For the period from 1 January 2025 to 31 December 2025, VanEck Space Innovators UCITS ETF returned 95.97%.
- The global space economy is forecast to grow from \$630 billion in 2023 to \$1.8 trillion by 2035, driven by innovations in satellite communications, reusable rockets, and AI-powered Earth observation technologies.
- Advances in reusable rocket technology are drastically lowering launch costs, enabling more frequent and affordable satellite deployment, while shrinking barriers to space exploration for commercial players.
- Space technologies are increasingly supporting terrestrial industries, with satellites enabling global Internet of Things networks, autonomous navigation systems, and climate monitoring efforts to combat CO2 emissions.

Future of Food

This market background summary covers VanEck Sustainable Future of Food UCITS ETF.

- For the period from 1 January 2025 to 31 December 2025, VanEck Sustainable Future of Food UCITS ETF returned -3.38%.
- Technological innovation is reshaping the food sector, with advancements in precision agriculture, vertical farming, and alternative proteins addressing critical challenges such as resource efficiency,

Manager's Report (continued)

MARKET REPORT (continued)

Future of Food (continued)

climate resilience, and feeding a growing global population sustainably. These technologies are expected to drive long-term growth and investment opportunities.

- Consumer demand for transparency and sustainability is driving a shift toward plant-based foods, organic options, and eco-friendly packaging. This trend reflects growing awareness of environmental and health impacts, creating significant growth potential for companies leading in these areas.
- Climate change and environmental constraints are increasing the urgency for sustainable food systems. With the agri-food sector responsible for nearly 30% of global greenhouse gas emissions, innovations in carbon-efficient farming and waste reduction are likely to gain further momentum.
- Geopolitical and supply chain pressures have underscored the need for localized and resilient food production methods. Technologies such as urban farming and advanced logistics are enabling new models to meet regional food security needs.
- Shifts in dietary preferences toward alternative proteins are gaining traction, supported by younger, sustainability-focused generations. Companies in the plant-based, cultured meat, and fermentation-based protein sectors stand to benefit significantly from this shift.

Genomics and Healthcare Innovators

This market background summary covers VanEck Genomics and Healthcare Innovators UCITS ETF.

- For the period from 1 January 2025 to 31 December 2025, VanEck Genomics and Healthcare Innovators UCITS ETF returned 17.68%.
- VanEck's Genomics ETF invests in the innovative companies harnessing scientific advances to develop breakthrough treatments and give patients more control over how they access care.
- The healthcare market in America alone consumes 18% of GDP, equivalent to \$4.9 trillion a year. In other wealthy countries, the share is lower, around 10%, but it is increasing as populations age. Just as science is developing new gene therapies, so too the pandemic has made people comfortable with digitally mediated care.

Circular Economy

This market background summary covers VanEck Circular Economy UCITS ETF.

- For the period from 1 January 2025 to 31 December 2025, VanEck Circular Economy UCITS ETF returned 13.36%.
- The VanEck Circular Economy UCITS ETF invests in companies involved in a new economic model that is expanding rapidly. Circular economy is a model of production and consumption which involves sharing, leasing, reusing, repairing, refurbishing and recycling existing materials and products in order to extend their lifecycle as long as possible. These companies are at the forefront of the recycling and reuse-related solutions, opposed to the traditional take-make-waste economy.
- This new economic model not only entails environmental benefits but also tangible economic advantages. As an example, it is estimated that recycled aluminium and copper require 95% and 85% less energy respectively, compared to primary material production.
- As the world gradually transitions towards a carbon-free economy, waste management, recycling and reuse solutions are set to be on the rise. We expect the companies actively involved in this thematic to benefit from this development.

Manager's Report (continued)

MARKET REPORT (continued)

Medical Robotics and Bionic Engineering

This market background summary covers VanEck Medical Robotics and Bionic Engineering UCITS ETF.

- For the period from 1 January 2025 to 31 December 2025, the VanEck Medical Robotics and Bionic Engineering UCITS ETF returned 1.36%.
- As the global population ages, so does the demand for biologically inspired systems that improve the quality of later life. VanEck's Medical Robotics and Bionic Engineering UCITS ETF tracks the performance of the portfolio of innovative companies that operate in medical technology – spanning medical robotics, bioprinting, advanced implants prosthesis, and organ and tissue preservation.
- The VanEck Medical Robotics and Bionic Engineering UCITS ETF capitalizes on the burgeoning AI and robotics market, which has seen significant growth. In healthcare, AI and robotics are revolutionizing patient care and medical procedures. AI algorithms analyse vast amounts of medical data to identify patterns and predict outcomes, enabling personalized treatments and early disease diagnosis. Robotics enhance precision in surgical procedures and patient rehabilitation.
- Adoption of medical robotics and bionic technologies is accelerating as healthcare systems face rising cost pressures and workforce shortages, supporting demand for solutions that improve clinical outcomes, enhance efficiency, and expand care beyond hospitals into rehabilitation, home care, and long-term care settings.

Uranium and Nuclear Technology

This market background summary covers VanEck Uranium and Nuclear Technologies UCITS ETF.

- For the period from 1 January 2025 to 31 December 2025, VanEck Uranium and Nuclear Technologies UCITS ETF returned 68.91%.
- As the global demand for electricity continues to rise, the need for clean and reliable sources of energy becomes increasingly important. Nuclear energy, with its low carbon emissions and high efficiency, is a vital part of the sustainable energy mix.
- Uranium Spot Prices reversed in Q4 2025 towards the long-term price level of ~86.50 \$/lb. The long-term price levels stayed intact throughout the spot turmoil, indicating that thesis for nuclear demand is still intact – major miners & utilities tend to sign delivery contracts 2-3 years in advance.
- US Administration signed 4 executive orders designed to support the uranium / nuclear industries:
 - “Deploying Advanced Nuclear Reactor Technologies for National Security” dedicated to promoting nuclear energy for AI data centres and nuclear technology exports
 - “Ordering the Reform of the Nuclear Regulatory Commission” aimed at removing excessive regulatory hurdles and speeding up nuclear plant construction approvals
 - “Reforming Nuclear Reactor Testing at the Department of Energy” aimed at supporting development of modern nuclear reactor designs
 - “Reinvigorating the Nuclear Industrial Base” specifying measures for funding nuclear energy projects and domestic nuclear fuel production/processing
- In the wake of AI boom, low carbon footprint and stability of Nuclear Energy attract large IT players looking to limit their environmental impact, while keeping a consistent energy supply.
- Amazon signed a deal with Talen Energy which includes up to 1,920 MW of nuclear power through 2042, at full capacity by 2032.

Manager's Report (continued)

MARKET REPORT (continued)

Uranium and Nuclear Technology (continued)

- Google signed an agreement with startup Kairos Power to purchase energy from Small Modular Reactors (SMRs) starting in 2030.
- While China and, to a lesser extent, India continue to lead global nuclear plant construction, developed markets, particularly in Europe, have provided an additional tailwind to the industry by broadly extending the operating lifetimes of existing reactors.

Defense

This market background summary covers VanEck Defense UCITS ETF.

- For the period from 1 January 2025 to 31 December 2025, VanEck Defense UCITS ETF returned 68.81%.
- All NATO members were expected to meet the previous 2% of GDP target in 2025, compared to 23 of 32 in 2024 and 11 in 2023—demonstrating an accelerated global commitment to military preparedness.
- A new target was announced in June 2025, calling for defense spending to reach 3.5% of GDP by 2035, along with an additional 1.5% in other defense-related expenditures.
- Public sentiment toward investing in defense has evolved, reflecting increasing awareness of geopolitical risks and the role of defense technologies in addressing global security challenges. This changing perception may influence investor sentiment and contribute to growing interest in defense-focused investments like the VanEck Defense UCITS ETF.
- Investments in advanced defense technologies continue to rise, with sectors such as cybersecurity and unmanned systems seeing substantial growth. SIPRI reports indicate significant procurement and R&D investments aimed at enhancing military capabilities, particularly in cybersecurity solutions and autonomous platforms.
- The VanEck Defense UCITS ETF provides targeted exposure to the global defense industry with the passive investment strategy taking into account the modern aspects of warfare such as cybersecurity, artificial intelligence, and satellite technologies. The strategy recognizes the contentious nature of the sector by excluding companies involved in controversial weapons and in (imminent) violation of OECD Guidelines/UN Global Compact Principles. The pure-play approach of the strategy (company inclusion requirement of >50% revenue from defense related activities) has proven to capture the stellar performance of the sector as reflected in the returns of the ETF.

Morningstar US Wide Moat

This market background summary covers VanEck Morningstar US Wide Moat UCITS ETF.

- For the period from 1 January 2025 to 31 December 2025, VanEck Morningstar US Wide Moat UCITS ETF returned 12.95%.
- VanEck Morningstar US Wide Moat UCITS ETF provides exposure to US firms with Morningstar Economic Moat Ratings that are trading at the lowest current market price/fair value ratios.
- “Moats” are expected to last for 20 years or longer and are based on switching costs, intangible assets, network effect, cost advantage, and efficient scale.
- More than 80% of the fund comes from 4 sectors, namely Information Technology (25%), Industrials (24%), Healthcare (19%) and Consumer Staples (17%).

Manager's Report (continued)

MARKET REPORT (continued)

Morningstar US SMID Moat

This market background summary covers VanEck Morningstar US SMID Moat UCITS ETF.

- For the period from 1 January 2025 to 31 December 2025, VanEck Morningstar US SMID Moat UCITS ETF returned 6.29%.
- VanEck Morningstar US SMID Moat UCITS ETF provides exposure to US Small and Mid-cap firms with Morningstar Economic Moat Ratings that are trading at the lowest current market price/fair value ratios.
- SMID cap stocks have historically provided greater return potential relative to large caps. This outperformance was more likely on the longer period of time, while shorter periods of time might not show the same characteristics.
- Most of the companies in the fund come from Industrials, Healthcare and Information Technology Sectors.

Quantum Computing

This market background summary covers VanEck Quantum Computing UCITS ETF.

- From its launch on 21 May 2025 to 31 December 2025, VanEck Quantum Computing UCITS ETF returned 28.68%.
- Early and diversified access to quantum computing through Europe's first ETF dedicated on Quantum Computing, offering exposure to both pure-play innovators and established tech leaders driving R&D and commercialization.
- Positioned for long-term potential, the ETF targets a breakthrough technology still in early stages, with uncertain timelines but high transformative promise and strong patent ownership as a foundation for future value.
- Quantum Nearing Inflection Point: Quantum computing is approaching a critical inflection point and may begin solving real-world problems within a few years, reflecting growing optimism.
- EU Advances Quantum Sovereignty: The EU has already committed over €11 billion to quantum R&D, aiming to build coordinated infrastructure and strengthen technological sovereignty. A forthcoming "Quantum Act" in 2026 will support defense integration, funding frameworks, and talent development across member states.
- IBM has announced building the largest quantum computer ever, codenamed Starling, with a target of 200 logical qubits (equivalent to ~10,000 physical qubits) by 2029. The system is projected to perform 20,000× more quantum operations than current systems and aims to be the first fully fault-tolerant quantum computer, unlocking practical applications in fields like optimization, materials discovery, and drug development.

VanEck Quantum Computing UCITS ETF*	28.68%	29.13%	-0.45%

The sub-fund returns are based on the calculated ending net asset value ("NAV") for the financial year under review. The sub-fund returns are net of management fees.

* VanEck Quantum Computing UCITS ETF's inception date is 21 May 2025. Sub-fund's performance and the index's performance do not cover the entire reporting period.

Important information on performance

The performance data quoted represents past performance. All sub-fund and Index performances are calculated in USD.

Past performance is not a guarantee of future results. Performance information for the sub-fund is net of expenses and/or fees. These returns do not reflect the deduction of taxes that a shareholder would pay on the sale of sub-fund shares.

Manager's Report (continued)

MARKET REPORT (continued)

Important information on performance (continued)

Investment return and value of the shares of the sub-fund will fluctuate so that an investor's shares, when sold, may be worth more or less than their original cost. Performance may be lower or higher than performance data quoted.

The "Net Asset Value" (NAV) of a VanEck UCITS ETFs Plc sub-fund is determined at the close of each business day and represents the dollar value of one share of the sub-fund; it is calculated by taking the total assets of the sub-fund, subtracting total liabilities, and dividing by the total number of shares outstanding. The NAV is not necessarily the same as the ETF's intraday trading value.

Index returns assume the reinvestment of all income and do not reflect any management fees or brokerage expenses associated with Sub-Fund returns. Investors cannot invest directly in the Index. Returns for actual Sub-Fund investors may differ from what is shown because of differences in timing, the amount invested and fees and expenses.

Tracking Error

The realised tracking error is the annualised standard deviation of the difference in daily returns between a Fund and its index. Tracking error shows the consistency of the returns relative to the index over the defined period of time.

Anticipated tracking error is based on the annualised standard deviation of the difference in daily returns between a Sub-Fund and its index under normal market conditions.

Cash management, efficient portfolio management techniques including securities lending along with transaction costs from rebalancing and currency hedging, can impact both tracking error and the return differential between the sub-fund and its benchmark index. Importantly, these impacts can be either positive or negative depending on the underlying circumstances.

In addition to the above, the Sub-Funds may also have a tracking error due to withholding tax charged to the Sub-Funds on any income received from its investments. The level of tracking error arising due to withholding taxes depends on various factors such as any reclaims filed by the Sub-Funds with various tax authorities, any benefits obtained by the Sub-Funds under a tax treaty or any securities lending activities carried out by the Sub-Funds.

VanEck UCITS ETFs plc

Manager's Report (continued)

MARKET REPORT (continued)

Tracking Error (continued)

The table below shows the anticipated annual tracking error of the Sub-Funds against the realised tracking error of the Sub-Funds. Realised tracking error is an annualized figure calculated using data from the preceding 12 months observation period.

Sub-Fund	Anticipated Tracking Error 1 year	Realised Tracking Error 1 year
VanEck Junior Gold Miners UCITS ETF	Up to 0.40%	0.23%
VanEck Gold Miners UCITS ETF	Up to 0.20%	0.08%
VanEck Morningstar US ESG Wide Moat UCITS ETF	Up to 0.20%	0.03%
VanEck Morningstar Global Wide Moat UCITS ETF	Up to 0.20%	0.07%
VanEck J.P. Morgan EM Local Currency Bond UCITS ETF	Up to 2.50%	0.22%
VanEck Global Fallen Angel High Yield Bond UCITS ETF	Up to 1.50%	0.18%
VanEck Emerging Markets High Yield Bond UCITS ETF	Up to 1.50%	0.21%
VanEck S&P Global Mining UCITS ETF	Up to 0.60%	0.10%
VanEck Video Gaming and eSports UCITS ETF	Up to 0.20%	0.09%
VanEck Semiconductor UCITS ETF	Up to 0.20%	0.03%
VanEck Hydrogen Economy UCITS ETF	Up to 0.50%	0.17%
VanEck Crypto and Blockchain Innovators UCITS ETF	Up to 1.50%	0.18%
VanEck Rare Earth and Strategic Metals UCITS ETF	Up to 0.80%	0.25%
VanEck New China UCITS ETF	Up to 1.50%	0.56%
VanEck Space Innovators UCITS ETF	Up to 0.20%	0.10%
VanEck Sustainable Future of Food UCITS ETF	Up to 0.20%	0.06%
VanEck Genomics and Healthcare Innovators UCITS ETF	Up to 0.20%	0.06%
VanEck Circular Economy UCITS ETF	Up to 0.20%	0.11%
VanEck Medical Robotics and Bionic Engineering UCITS ETF	Up to 0.20%	0.07%
VanEck Uranium and Nuclear Technologies UCITS ETF	Up to 0.20%	0.10%
VanEck Defense UCITS ETF	Up to 0.20%	0.29%
VanEck Oil Services UCITS ETF	Up to 0.20%	0.13%
VanEck US Fallen Angel High Yield Bond UCITS ETF	Up to 1.30%	0.15%
VanEck Morningstar US SMID Moat UCITS ETF	Up to 0.20%	0.05%
VanEck Morningstar US Wide Moat UCITS ETF	Up to 0.20%	0.03%
VanEck Quantum Computing UCITS ETF*	Up to 0.20%	0.10%

* VanEck Quantum Computing UCITS ETF's inception date is 21 May 2025. Sub-fund's performance and index's performance do not cover the entire reporting period.

Only VanEck Defense UCITS ETF (DFNS) exceeded Tracking error Expectations due to the following explanation:

-DFNS: Tracking error was driven by a listing mismatch: the sub-fund held the Tel Aviv listing while the index uses the U.S. listing. At April 2025 month-end, the Israeli market was closed while the U.S. remained open, creating a 12 bps pricing gap and pushing tracking error above 20 bps. The holding was switched to the U.S. listing on 4 September 2025, removing this source of mismatch.

Independent auditor's report to the members of VanEck UCITS ETFs plc

Report on the audit of the financial statements

Opinion

We have audited the financial statements of VanEck UCITS ETFs plc (the "Company"), which comprise the Statement of Financial Position and Portfolio Listings as at 31 December 2025 and the Statement of Comprehensive Income, the Statement of Changes in Net Assets Attributable to Holders of Redeemable Participating Shares and the Statement of Cash Flows for the financial year then ended, and the related notes to the financial statements, including the material accounting policy information.

The financial reporting framework that has been applied in the preparation of the financial statements is Irish law and IFRS Accounting Standards as adopted by the European Union ("IFRS") ("the relevant accounting framework").

Opinion under International Standards on Auditing (Ireland) ("ISAs (Ireland)")

In our opinion, the Company's financial statements:

- give a true and fair view of the assets, liabilities and financial position of the Company as at 31 December 2025 and of its profit or loss and cash flows for the financial year then ended;
- have been properly prepared in accordance with the relevant accounting framework; and
- have been properly prepared in accordance with the requirements of the Companies Act 2014, the European Communities (Undertaking for Collective Investment in Transferable Securities) Regulations 2011 and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019.

Opinion under generally accepted auditing standards in the United States of America ("US GAAS")

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Company as of 31 December 2025, and the results of its operations and its cash flows for the financial year then ended in accordance with IFRS, including reconciliation of material differences with US Generally Accepted Accounting Standards ("US GAAP").

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (Ireland) ("ISAs (Ireland)") and applicable law, and in accordance with US GAAS. Our responsibilities under those standards are further described in the 'Auditor's responsibilities for the audit of the financial statements' section of our report. We are independent of the Company in accordance with the ethical requirements that are relevant to our audit of the financial statements in Ireland, including the Ethical Standard for Auditors (Ireland) issued by the Irish Auditing and Accounting Supervisory Authority (IAASA), together with the American Institute of Certified Public Accountants ("AICPA") Code of Professional Conduct, and the ethical pronouncements established by Chartered Accountants Ireland, applied as determined to be appropriate in the circumstances for the Company. We have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Conclusions relating to going concern

In auditing the financial statements, we have concluded that the director's use of the going concern basis of accounting in the preparation of the financial statements is appropriate. In our evaluation of the directors' assessment of the Company's ability to continue as a going concern basis of accounting, we:

- Obtained an understanding of directors' going concern assessment process and engaged with directors to understand and challenge the key assumptions and key indicators considered by directors in their going concern assessment. This included reviewing each of the sub-funds' post year end performance and business activities including post year end subscriptions and redemptions and movements in Net Asset Value ("NAV") in order to support the appropriateness of the Company's going concern assessment;
- Evaluated the Company's cash balances and bank statements at financial year end and up to, and including, the date of authorisation to see if there were any indications of any going concern events, and evaluated large or unusual cash movements which could raise concerns regarding the Company's ability to continue as a going concern,
- Performed enquiries and discussions with management and reviewed the board minutes and written communication available up to and including the date of authorisation of the financial statements to understand the future plans of the Company and to identify potential contradictory information; and
- Reviewed the Company's going concern disclosures included in the annual report to assess that the disclosures were appropriate and in conformity with the relevant accounting framework.

Based on the work we performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the company's ability to continue as a going concern for the foreseeable future.

Our responsibilities and the responsibilities of the directors with respect to going concern are described in the relevant sections of this report.

Independent auditor's report to the members of VanEck UCITS ETFs plc

Key audit matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial statements of the current financial year and include the most significant assessed risks of material misstatement (whether or not due to fraud) we identified, including those which had the greatest effect on: the overall audit strategy, the allocation of resources in the audit, and the directing of efforts of the engagement team. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and therefore we do not provide a separate opinion on these matters.

Overall audit strategy

We designed our audit by determining materiality and assessing the risks of material misstatement in the financial statements. In particular, we considered areas where the directors made subjective judgements, for example, in respect of significant accounting estimates that involved making assumptions and considering future events that are inherently uncertain and the quantitative significance to the financial statements. We also addressed the risk of management override of internal controls, including evaluating whether there was any evidence of potential bias that could result in a risk of material misstatement due to fraud.

Based on our considerations as set out below, our areas of focus included existence and valuation of financial assets at fair value through profit or loss for Level 1 and Level 2 securities.

How we tailored the audit scope

The Company with a company registered number of 548554 was incorporated on 26 August 2014 under the laws of Ireland and is domiciled in Ireland. The Company is a public limited company with variable capital and is structured as an umbrella fund with segregated liability between sub-funds established pursuant to the Companies Act 2014. The sole objective for which the Company is established is the collective investment in transferable securities and/or other liquid financial assets as pursuant to the UCITS Regulations and Central Bank UCITS Regulations. The Company was authorised by the Central Bank of Ireland on 8 December 2014 with its registered office at 33 Sir John Rogerson's Quay, Dublin 2, Ireland.

As at 31 December 2025, there were twenty-six (26) active sub-funds which are listed on Euronext Dublin, London Stock Exchange, Borsa Italiana, XETRA, SIX Swiss Exchange and Euronext Paris.

The directors control the affairs of the Company, and they are responsible for the overall investment policy, which is determined by them. The Company engages VanEck Asset Management B.V. (or the "Manager") which is responsible for day-to-day management, administration and distribution of the Company and its sub-funds, but it has delegated investment management of certain sub-funds of the Company and administration responsibilities to VanEck Associates Corporation (the "Investment Manager") and State Street Fund Services (Ireland) Limited (the "Administrator").

The Manager has appointed VanEck Associates Corporation as the Investment Manager. The Investment Manager has direct responsibility for the decisions relating to the day-to-day operation of the relevant sub-funds and is accountable to the Board of the Manager and the Company for the investment performance of the relevant sub-funds.

The Manager has also delegated certain responsibilities to State Street Fund Services (Ireland) Limited as the Administrator. The financial statements, which remain the responsibility of the directors, are prepared on their behalf by the Administrator. The Company has appointed State Street Custodial Services (Ireland) Limited (the "Depository") to act as depository of the Company's assets.

We tailored the scope of our audit taking into account the types of investments held by the Company, the involvement of third-party service providers, the accounting processes and controls, and the industry in which the Company operates. We look at each sub-fund at an individual level.

In establishing the overall approach to our audit, we assessed the risk of material misstatement at a sub-fund level, taking into account the nature, likelihood and potential magnitude of any misstatement. As part of our risk assessment, we considered the Company's interaction with the Administrator, and we assessed the control environment in place at the Administrator.

Materiality and audit approach

The scope of our audit is influenced by our application of materiality. We set certain quantitative thresholds for materiality. These, together with qualitative considerations, such as our understanding of the Company and its environment, the history of misstatements, the complexity of the Company and the reliability of the control environment, helped us to determine the scope of our audit and the nature, timing and extent of our audit procedures and to evaluate the effect of misstatements, both individually and on the financial statements as a whole.

Based on our professional judgement, we determined materiality for each of the Company's sub-funds as follows: 1% of the NAV as at 31 December 2025. We have applied this benchmark because the main objective of the Company is to provide investors with a total return at a sub-fund level.

We have set performance materiality for the Company at 60% of materiality, having considered our predecessor auditor's review of the risk of misstatements, business risks and fraud risks associated with the Company and its control environment. This is to reduce to an appropriately low level the probability that the aggregate of uncorrected and undetected misstatements in the financial statements exceeds materiality for the financial statements as a whole.

We agreed with the audit committee that we would report to them misstatements identified during our audit above 5% of each sub-fund's materiality, as well as misstatements below that amount that, in our view, warranted reporting for qualitative reasons.

Independent auditor's report to the members of VanEck UCITS ETFs plc

Key audit matters (continued)

Significant matters identified

The risks of material misstatement that had the greatest effect on our audit, including the allocation of our resources and effort, are set out below as significant matters together with an explanation of how we tailored our audit to address these specific areas in order to provide an opinion on the financial statements as a whole. This is not a complete list of all risks identified by our audit.

Significant matter	Description of significant matter and audit response
<p>Existence and valuation of financial assets at fair value through profit or loss - Level 1 and 2 securities</p> <p>The Company has an investment portfolio consisting of investments in debt and equity securities carried at fair value through profit or loss. As at 31 December 2025, the carrying values of Level 1 and 2 securities comprise 98% and 1% (2024: 97% and 3%) of the Company's total assets, respectively.</p> <p>Further details to these financial assets can be found in Note 4 of the financial statements.</p>	<p>There is a risk that the financial assets held by the Company do not exist or that the balance included in the Statement of Financial Position as at 31 December 2025 is not valued in line with IFRS Accounting Standards as adopted by the European Union.</p> <p>Significant auditor's attention was deemed appropriate because these represent the principal element of the financial statements. While the nature of these instruments do not require significant level of judgement because they comprise mainly of liquid, quoted securities, due to their significance in the context of the financial statements as a whole, the existence and valuation of these financial assets at fair value through profit or loss were identified as the matters which had the greatest effect on our overall audit strategy and allocation of resources in planning and completing our audit. As a result, we considered these as key audit matters.</p> <p>The following audit work has been performed to address the risk:</p> <ul style="list-style-type: none"> We obtained an understanding of the valuation and reconciliation process, including the related systems and controls, through our review of the Administrator's SOC 1 Type 2 report; We obtained direct independent confirmations of the existence of the financial assets at fair value through profit or loss from the Company's Depository and agreed the amounts held to the accounting records as at 31 December 2025. Reconciling items noted were tested to underlying supporting documentation; We tested the valuation of securities to third party vendor sources for positions held in debt and equity securities; and We assessed and challenged the fair value hierarchy classification. <p>We completed our planned audit procedures, with no material exceptions noted.</p>

Other matter

The financial statements of VanEck UCITS ETFs plc for the financial year ended 31 December 2024, were audited by KPMG who expressed an unmodified opinion on those statements on 30 April 2025.

The directors are responsible for the other information. Other information comprises information included in the annual report, other than the financial statements and the auditor's report thereon, including the Directors' Report, Report from the Depository to the Shareholders, Manager's Report, Statement of Portfolio Changes (Unaudited), Appendix 1: Other Information (Unaudited) and Appendix 2: UCITS V (Unaudited) and Appendix 3: Sustainable Finance Disclosures Regulation and Taxonomy Regulation Disclosures (Unaudited). Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in our report, we do not express any form of assurance conclusion thereon.

Our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the course of the audit, or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether there is a material misstatement in the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Opinion on the matters prescribed by the Companies Act 2014

We have obtained all the information and explanations which to the best of our knowledge and belief, we considered necessary for the purposes of our audit.

In our opinion, the accounting records of the Company were sufficient to permit the financial statements to be readily and properly audited.

The Statement of Financial Position and the Statement of Comprehensive Income are in agreement with the accounting records and returns.

Independent auditor's report to the members of VanEck UCITS ETFs plc

Opinion on the matters prescribed by the Companies Act 2014 (continued)

In our opinion, based on the work undertaken in the course of our audit:

- the information given in the Directors' Report for the financial year is consistent with the financial statements.
- the Directors' Report has been prepared in accordance with applicable legal requirements, excluding the requirements on sustainability reporting in Part 28.

Based on our knowledge and understanding of the Company and its environment obtained in the course of the audit, we have not identified any material misstatements in the Directors' Report.

Matters on which we are required to report by exception

The Companies Act 2014 requires us to report to you if, in our opinion, the requirements of sections 305 to 312 of the Companies Act 2014, which relate to disclosure of directors' remuneration and transactions with directors, have not been complied with by the Company. We have nothing to report in this regard.

We are also required to report to you if, in our opinion, the Company has not provided the non-financial information required by Regulation 5(2) to 5(7) of the European Union (Disclosure of Non-Financial and Diversity Information by certain large undertakings and groups) Regulations 2017 for the financial year ended 31 December 2025. We have nothing to report in this regard.

Corporate governance statement

In our opinion, based on the work undertaken in the course of our audit of the financial statements, the description of the main features of the internal control and risk management systems in relation to the financial reporting process, specified for our consideration and included in the Corporate Governance Statement, is consistent with the financial statements and has been prepared in accordance with section 1373(2)(c) of the Companies Act 2014.

Based on our knowledge and understanding of the Company and its environment obtained in the course of our audit of the financial statements, we have not identified material misstatements in the description of the main features of the internal control and risk management systems in relation to the financial reporting process included in the Corporate Governance Statement.

In our opinion, based on the work undertaken during the course of our audit of the financial statements, the information required by section 1373(2)(a), (b), (e) and (f) is contained in the Corporate Governance Statement.

In our opinion, based on the work undertaken in the course of our audit, the information in relation to the diversity report required by S.I. No. 360/2017 – European Union (Disclosure of Non-Financial and Diversity Information by certain large undertakings and groups) Regulations 2017, is contained in the directors' Corporate Governance Statement as set out on pages 5-9. We have nothing to report having performed our review.

Responsibilities of the directors and those charged with governance for the financial statements

Responsibilities of directors and those charged with governance for the financial statements under ISAs (Ireland)

As explained more fully in the Statement of Directors' Responsibilities in the Directors' Report, the directors are responsible for the preparation of the financial statements which give a true and fair view in accordance with the applicable financial reporting framework, and for such internal control as they determine necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance include non-executive directors and/or the audit committee as well as the board of directors and executive management. Those charged with governance are responsible for overseeing the Company's financial reporting process, and for the preparation of financial statements that give a true and fair view.

Responsibilities of those charged with governance for the financial statements under US GAAS

The directors are responsible for the preparation and fair presentation of the financial statements in accordance with IFRS, including reconciliation of material differences with US GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Company's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Independent auditor's report to the members of VanEck UCITS ETFs plc

Auditor's responsibilities for the audit of the financial statements

Auditor's responsibilities for the audit of the financial statements under ISAs (Ireland)

The objectives of an auditor are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with ISAs (Ireland) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A further description of our responsibilities for the audit of the financial statements is located on the Irish Auditing and Accounting Supervisory Authority's website at: <https://iaasa.ie/publications/description-of-the-auditors-responsibilities-for-the-audit-of-the-financial-statements/>. This description forms part of our auditor's report.

Explanation as to what extent the audit was considered capable of detecting irregularities, including fraud

Irregularities, including fraud, are instances of non-compliance with laws and regulations. We design procedures in line with our responsibilities, outlined above, to detect material misstatements in respect of irregularities, including fraud. Owing to the inherent limitations of an audit, there is an unavoidable risk that material misstatement in the financial statements may not be detected, even though the audit is properly planned and performed in accordance with the ISAs (Ireland). The extent to which our procedures are capable of detecting irregularities, including fraud is detailed below.

The Company is subject to laws and regulations that directly affect the financial statements, including companies and financial reporting legislation such as IFRS, Companies Act 2014, the European Communities (Undertaking for Collective Investment in Transferable Securities) Regulations 2011 and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) (Amendment) Regulations 2019. We assessed the extent of compliance with these laws and regulations as part of our procedures on the related financial statement items, including assessing the financial statement disclosures and agreeing them to supporting documentation when necessary.

The Company is subject to other laws and regulations, for example, Corporate Governance Code for Collective Investment Schemes and Management Companies, Corporate Governance Code and Sustainable Financial Disclosure Regulation, Regulation (EU) 2020/852 of the European Parliament and of the Council of 18 June 2020 on the establishment of a framework to facilitate sustainable investment, Listing Rules of Euronext Dublin, London Stock Exchange, Borsa Italiana, XETRA, SIX Swiss Exchange and Euronext Paris, Section 739B of the Taxes Consolidation Act, 1997 and General Data Protection Regulation, where the consequences of non-compliance could have a material impact on amounts or disclosures in the financial statements, such as through the imposition of fines or litigation.

The primary responsibility for the prevention and detection of irregularities, including fraud, rests with those charged with governance and management. There is an inherent risk that an audit may not detect all material misstatements in the financial statements, despite properly planning and performing our audit in accordance with auditing standards. In addition, as with any audit, there remains a higher risk of non-detection of irregularities, as these may involve collusion, forgery, intentional misrepresentations and omissions, or the override of internal controls. We are not responsible for preventing non-compliance and cannot be expected to detect non-compliance with all laws and regulations.

In response to these principal risks, our audit procedures included, but were not limited:

- Application of professional scepticism throughout the audit.
- Consideration by the audit engagement partner of the experience and expertise of the engagement team to ensure that the team had appropriate competence and capabilities to identify or recognise non-compliance with the laws and regulations.
- Gaining an understanding of the Company's current activities, the scope of authorisation and the effectiveness of its control environment to mitigate risks related to fraud.
- Discussion amongst the engagement team in relation to the identified laws and regulations and regarding the risk of fraud and remaining alert to any indications of non-compliance or opportunities for fraudulent manipulation of financial statements throughout the audit.
- Evaluating management's incentives and opportunities for fraudulent manipulation of the financial statements (including the risk of override of controls).
- Enquiries of management and board of directors on the policies and procedures in place regarding compliance with laws and regulations, including consideration of known or suspected instances of non-compliance and whether they have knowledge of any actual, suspected, or alleged fraud.
- Inspection of the Company's regulatory and legal correspondence and review of minutes of board meetings during the financial year to corroborate enquiries made.
- Identifying and testing journal entries to address the risk of inappropriate journals and management override of controls.
- Designing audit procedures to incorporate unpredictability around the nature, timing, or extent of our testing.
- Challenging assumptions and judgements made by management in their significant accounting estimates.
- Review of the financial statement disclosures in line with underlying supporting documentation and inquiries of management.

Independent auditor's report to the members of VanEck UCITS ETFs plc

Auditor's responsibilities for the audit of the financial statements (continued)

Auditor's responsibilities for the audit of the financial statements under US GAAS

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with US GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with US GAAS, we:

- Exercise professional judgment and maintain professional scepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Company's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

The purpose of our audit work and to whom we owe our responsibilities

This report is made solely to the Company's members, as a body, in accordance with section 391 of the Companies Act 2014. Our audit work has been undertaken so that we might state to the Company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Company and the Company's members as a body, for our audit work, for this report, or for the opinions we have formed.

Report on other legal and regulatory requirements

We were appointed by the board of directors on 30 May 2025 to audit the financial statements for the financial year ended 31 December 2025. This is the first year we have been engaged to audit the financial statements of the Company.

We have not provided non-audit services prohibited by the IAASA's Ethical Standard and AICPA Code of Professional Conduct and have remained independent of the Company in conducting the audit.

The audit opinion is consistent with the additional report to the board of directors.

Notes to the Financial Statements for the financial year ended 31 December 2025

1. Organisation

The reporting entity VanEck UCITS ETFs plc (the “Company”) with a Company registered number of 548554 was incorporated on 26 August 2014 under the laws of Ireland and is domiciled in Ireland. The Company is a public limited company with variable capital and is structured as an umbrella fund with segregated liability between sub-funds established pursuant to the Companies Act 2014. The sole objective for which the Company is established is the collective investment in transferable securities and/or other liquid financial assets as pursuant to the UCITS Regulations and Central Bank UCITS Regulations. The Company was authorised by the Central Bank of Ireland on 8 December 2014 with its registered office at 33 Sir John Rogerson’s Quay, Dublin 2, D02 XK09, Ireland.

As at 31 December 2025, the Company consisted of twenty six active sub-funds, collectively the “sub-funds”, and individually the “sub-fund”. As at 31 December 2025, each sub-fund had one share class in issue – USD A Share class (31 December 2024: one share class in issue – USD A Share class).

VanEck Junior Gold Miners UCITS ETF

The investment objective of the sub-fund is to track, before fees and expenses, the price and yield performance of the MVIS Global Junior Gold Miners Index.

VanEck Gold Miners UCITS ETF

The investment objective of the sub-fund is to track, before fees and expenses, the price and yield performance of the MarketVector™ Global Gold Miners Index.

VanEck Morningstar US ESG Wide Moat UCITS ETF

The investment objective of the sub-fund is to track, before fees and expenses, the price and yield performance of the Morningstar® US Sustainability Moat Focus IndexSM.

VanEck Morningstar Global Wide Moat UCITS ETF

The investment objective of the sub-fund is to track, before fees and expenses, the price and yield performance of the Morningstar® Global Wide Moat Focus IndexSM.

VanEck J.P. Morgan EM Local Currency Bond UCITS ETF

The investment objective of the sub-fund is to replicate, before fees and expenses, the price and yield performance of the J.P. Morgan Government Bond Index-Emerging Markets Global Core Index.

VanEck Global Fallen Angel High Yield Bond UCITS ETF

The investment objective of the sub-fund is to replicate, before fees and expenses, the price and yield performance of the ICE Global Fallen Angel High Yield 10% Constrained Index.

VanEck Emerging Markets High Yield Bond UCITS ETF

The investment objective of the sub-fund is to replicate, before fees and expenses, the price and yield performance of the ICE BofA Diversified High Yield US Emerging Markets Corporate Plus Index.

VanEck S&P Global Mining UCITS ETF

The investment objective of the sub-fund is to replicate, before fees and expenses, the price and yield performance of the S&P Global Mining Reduced Coal Index.

VanEck Video Gaming and eSports UCITS ETF

The investment objective of the sub-fund is to replicate as closely as possible, before fees and expenses, the price and yield performance of the MarketVector™ Global Video Gaming and eSports ESG Index.

VanEck Semiconductor UCITS ETF

The investment objective of the sub-fund is to replicate, before fees and expenses, the price and yield performance of the MVIS® US Listed Semiconductor 10% Capped ESG Index.

Notes to the Financial Statements for the financial year ended 31 December 2025 (continued)

1. Organisation (continued)

VanEck Hydrogen Economy UCITS ETF

The investment objective of the sub-fund is to replicate, before fees and expenses, the price and yield performance of the MVIS[®] Global Hydrogen Economy ESG Index.

VanEck Crypto and Blockchain Innovators UCITS ETF

The investment objective of the sub-fund is to replicate, before fees and expenses, the price and yield performance of the MVIS[®] Global Digital Assets Equity Index.

VanEck Rare Earth and Strategic Metals UCITS ETF

The investment objective of the sub-fund is to replicate, before fees and expenses, the price and yield performance of the MVIS[®] Global Rare Earth/Strategic Metals Index.

VanEck New China UCITS ETF

The investment objective of the sub-fund is to replicate, before fees and expenses, the price and yield performance of the MarketGrader New China ESG Index.

VanEck Space Innovators UCITS ETF

The investment objective of the sub-fund is to replicate the price and the yield performance, before fees and expenses, of the MVIS[®] Global Space Industry ESG Index that provides exposure to the performance of companies involved in the global space exploration, equipment and communications industries.

VanEck Sustainable Future of Food UCITS ETF

The investment objective of the sub-fund is to replicate the price and the yield performance of the MVIS[®] Global Future of Food ESG Index, before fees and expenses, that supports sustainable food production and development and provides exposure to the performance of companies involved in food and agricultural technology, organic foods, or food companies that display high standards in food waste, food safety or environmental impact.

VanEck Genomics and Healthcare Innovators UCITS ETF

The investment objective of the sub-fund is to replicate the price and the performance, before fees and expenses, of the MVIS[®] Global Future Healthcare ESG Index that provides exposure to the performance of a representative portfolio of companies involved in the genomic healthcare and electronic healthcare industries.

VanEck Circular Economy UCITS ETF

The investment objective of the sub-fund is to replicate the price and the performance, before fees and expenses, of the MVIS[®] Global Circular Economy ESG Index that provides exposure to companies involved in the "Circular Economy", which is commonly viewed as including companies involved in the following sectors: water purification and treatment products or services, waste-to-energy and biofuels, general waste management services that include recycling services and metal recycling services, as well as companies deriving revenues from products that are made of - or services related to - recycled, repurposed, or reused materials.

VanEck Medical Robotics and Bionic Engineering UCITS ETF

The investment objective of the sub-fund is to replicate the price and the performance, before fees and expenses, of the MVIS[®] Global Bionic Healthcare ESG Index that provides exposure to companies involved in the bionic implants industry including medical, dental, or vision-related implants, bioprinting, prosthesis, or preservation of organs and tissue.

VanEck Uranium and Nuclear Technologies UCITS ETF

The investment objective of the sub-fund is to replicate the price and the performance, before fees and expenses, of the MarketVector[™] Global Uranium and Nuclear Energy Infrastructure Index that provides exposure to companies involved in Uranium mining and distribution or in projects related to the construction, engineering and maintenance of nuclear power facilities and nuclear reactors, equipment and technology or

services to the nuclear power industry development and commercialization of nuclear fusion technology or molten salt nuclear reactor research as well as exchange-listed funds that track the spot price of uranium or invest in physical uranium.

VanEck Defense UCITS ETF

The investment objective of the sub-fund is to replicate the price and the performance, before fees and expenses, of the MarketVector™ Global Defense Industry Index that provides exposure to entities involved in serving national defense industries.

VanEck Oil Services UCITS ETF

The investment objective of the sub-fund is to replicate the price and the performance, before fees and expenses, of the MarketVector™ US Listed Oil Services 10% Capped Index that provides exposure to the performance of companies involved in oil services to the upstream oil sector being activities which relate to oil equipment, oil services and oil drilling.

VanEck US Fallen Angel High Yield Bond UCITS ETF

The investment objective of the sub-fund is to replicate the price and performance, before fees and expenses, of ICE US Fallen Angel High Yield 10% Constrained Index that comprises the USD-denominated fixed income securities that were originally issued at investment grade rating but have since been downgraded to high yield.

VanEck Morningstar US SMID Moat UCITS ETF

The investment objective of the sub-fund is to replicate the price and performance, before fees and expenses, of Morningstar® US Small-Mid Cap Moat Focus Index™ that provides exposure to small- and mid-cap stocks with durable competitive advantages and attractive valuations, based on quantitative and qualitative factors.

VanEck Morningstar US Wide Moat UCITS ETF

The investment objective of the sub-fund is to replicate the price and performance, before fees and expenses, of Morningstar® Wide Moat Focus Index™ that provides exposure to companies which are rated as wide moat companies (being a company which it is believed will have sustainability in its competitive advantage(s)) and have the lowest current market price/ fair value price determined in an independent research process.

VanEck Quantum Computing UCITS ETF

The investment objective of the sub-fund is to replicate the price and the performance, before fees and expenses, of MarketVector™ Global Quantum Leaders Index that provides exposure to companies involved in the development of quantum computing technology or are leaders in ownership of quantum computing related patents.

As at 31 December 2025, the sub-funds of the Company are listed on Euronext Dublin, London Stock Exchange, Borsa Italiana, XETRA, Six Swiss Exchange and some on Euronext Paris.

2. Material Accounting Policies

The Company has consistently applied the following accounting policies to all periods presented in these financial statements, except if mentioned otherwise. Set out below are the material accounting policies.

a) Basis of Preparation

The Company's annual financial statements have been prepared in accordance with IFRS Accounting Standards as adopted by the European Union ("IFRS"), the UCITS Regulations, the Companies Act 2014 and the Central Bank UCITS Regulations.

The financial statements have been prepared on a going concern basis which assumes that the Company will continue in operational existence for the foreseeable future. The financial statements have been prepared under the historical cost convention, as modified by the revaluation of financial assets and financial liabilities at fair value through profit or loss.

Notes to the Financial Statements for the financial year ended 31 December 2025 (continued)

2. Material Accounting Policies (continued)

a) Basis of Preparation (continued)

Comparative figures relating to capital gains tax have been reclassified to conform with the current year presentation. In the prior year, these amounts were included within the Net gain/(loss) on financial assets and liabilities at fair value through profit or loss line in the Statement of Comprehensive Income and Other payable in the Statement of Financial Position. Due to their immaterial nature, these amounts were not previously separately identified.

Critical accounting estimates, assumptions and judgements

The preparation of financial statements in conformity with IFRS requires the use of estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Although these estimates are based on management's best knowledge of the amount, event or actions, actual results ultimately may differ from those estimates. The Board of Directors make estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, seldom equal the related actual results. There are no estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities.

Judgements

The Board of Directors have concluded that there are no significant judgements within the Financial Statements.

Information about significant areas of estimations and critical judgements in applying accounting policies recognised in the financial statements are described in Note 2b, Note 2(c)(i) and Note 4.

International Financial Reporting Standards

New standards, amendments and interpretations issued and effective for the financial year beginning 1 January 2025

A number of new standards and amendments to standards are effective for the financial year beginning 1 January 2025 that are not expected to have a material impact on the Company's financial position, performance or disclosures in its financial statements.

- Lack of Exchangeability (Amendments to IAS 21).

New standards, amendments and interpretations issued but not effective for the financial year beginning 1 January 2025 and not early adopted

A number of new standards and amendments to standards are effective for annual periods beginning after 1 January 2025 and earlier application is permitted, however, the Company has not early adopted the new or amended standards in preparing these financial statements.

The following new and amended standards and interpretations are not expected to have a material impact on the Company's financial statements:

- Amendments to the Classification and Measurement of Financial Instruments (Amendments to IFRS 9 and IFRS 7) effective on 1 January 2026.
- Annual Improvements to IFRS Accounting Standards - Volume 11 effective on 1 January 2026.
- Contracts Referencing Nature-dependent Electricity (Amendments to IFRS 9 and IFRS 7) effective on 1 January 2026.
- IFRS 18 - Presentation and Disclosure in Financial Statements effective on 1 January 2027.
- IFRS 19 - Subsidiaries without Public Accountability: Disclosures effective on 1 January 2027.

IFRS 18 "Presentation and Disclosure in Financial Statements" was issued in April 2024 and applies to an annual reporting period beginning on or after 1 January 2027. IFRS 18 replaces IAS 1 "Presentation of

Notes to the Financial Statements for the financial year ended 31 December 2025 (continued)

2. Material Accounting Policies (continued)

a) Basis of Preparation (continued)

International Financial Reporting Standards (continued)

Financial Statements". IFRS 18 aims to improve financial reporting by requiring additional defined subtotals in the statement of profit or loss, requiring disclosures about management-defined performance measures and adding new principles for grouping (aggregation and disaggregation) of information. The Company is still in the process of assessing the impact of the new accounting standard, particularly with respect to the structure of the Company's Statement of Comprehensive Income, the Statement of Cash Flows and the additional disclosures required for management-defined performance. The Company is also assessing the impact on how information is grouped in the financial statements, including for items currently labelled as "other".

b) Financial instruments

i) Classification, recognition, measurement and derecognition

Classification

The Company classifies its investments based on both the Company's business model for managing those financial assets and the contractual cash flow characteristics of the financial assets.

IFRS 9 sets out the requirements for recognition and measurement of all financial assets and financial liabilities including derivative instruments.

The Company recognises financial assets and financial liabilities on the date it becomes a party to the contractual provisions of the instrument, and all significant rights and access to the benefits from the assets, and the exposure to the risks inherent in those benefits, are transferred to the Company.

Financial assets and financial liabilities at fair value through profit or loss

The Company primarily invests in equities and bonds as at the financial year end based on the business model of the Company.

The Company's sub-funds are open-ended investment vehicles and materially all of the financial assets and liabilities of its sub-funds are required to be managed on a fair value through profit or loss basis with frequent sales taking place. This applies to both initial and subsequent recognition.

Financial assets and financial liabilities at amortised cost

The Company includes in this category cash and cash equivalents, dividends receivable, interest receivable from financial assets at fair value through profit or loss, securities sold receivable, total fee payable, capital shares payable, securities purchased payable and capital gain tax payable.

Recognition

A regular way purchase of financial assets and liabilities is recognised using trade date accounting. From this date, any gains and losses, arising from changes in fair value of the financial assets and financial liabilities, are recorded.

Measurement

Financial assets and financial liabilities at fair value through profit or loss are initially recognised at fair value, with transaction costs recognised immediately in Net gain/(loss) on financial assets and liabilities at fair value through profit or loss in the Statement of Comprehensive Income. Financial assets and financial liabilities at amortised cost are recognised on the date on which they originated and initially measured at fair value plus transaction costs that are directly attributable to their acquisition or issue.

Subsequent to initial recognition, all financial assets and financial liabilities at fair value through profit or loss are measured at fair value. Subsequent changes in the fair value of the financial assets at fair value through profit or loss are recognised in the Statement of Comprehensive Income as part of Net gain/(loss) on financial assets and liabilities at fair value through profit or loss.

Financial assets and financial liabilities at amortised cost are measured using the effective interest method.

Notes to the Financial Statements for the financial year ended 31 December 2025 (continued)

2. Material Accounting Policies (continued)

b) Financial instruments (continued)

i) Classification, recognition, measurement and derecognition (continued)

Expected Credit Loss

IFRS 9's impairment requirements use forward-looking information to recognise expected credit losses – the 'expected credit loss (ECL) model'. Instruments within the scope of the requirements included financial assets measured at amortised cost.

The Company considers a broader range of information when assessing credit risk and measuring expected credit losses, including past events, current conditions, reasonable and supportable forecasts that affect the expected collectability of the future cash flows of the instrument.

In applying this forward-looking approach, a distinction is made between:

- Financial instruments that have not deteriorated significantly in credit quality since initial recognition or that have low credit risk ("Stage 1"); and
- Financial instruments that have deteriorated significantly in credit quality since initial recognition and whose credit risk is not low ("Stage 2").
- "Stage 3" would cover financial assets that have objective evidence of impairment at the reporting date.

12-month expected credit losses' are recognised for the first category (i.e. Stage 1) while 'lifetime expected credit losses' are recognised for the second category (i.e. Stage 2).

The sub-funds' cash and cash equivalents, dividends receivables, interest receivable from financial assets at fair value through profit or loss and securities sold receivables are subject to the ECL model. Based on the high credit quality of the counterparties and the short-term nature of the balances, management has assessed the probability of default is close to zero. As a result, no loss allowance has been recognised based on a 12-month expected credit losses as any impairment would be wholly insignificant to the sub-funds.

Derecognition

Financial assets are de-recognised when the rights to receive cash flows from the investments have expired or the sub-fund has transferred substantially all risks and rewards of ownership. Financial liabilities are derecognised when the contractual obligations are discharged, cancelled or expired.

ii) IFRS 13, Fair Value Measurement

IFRS 13 'Fair Value Measurement' requires disclosure relating to the fair value hierarchy in which fair value measurements are categorised for assets and liabilities in the Statement of Financial Position.

The disclosures are based on a three-level fair value hierarchy for the inputs used in valuation techniques to measure fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The fair value of financial instruments is based on their quoted market prices, in an active market, at the financial year end date without any deduction for estimated future selling costs. The quoted market price used for financial assets at fair value through profit or loss held by the sub-funds is the last traded price for equity securities and evaluated mean price for fixed income securities.

A financial instrument is regarded as quoted in an active market if the quoted prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing service, or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm's length basis.

If a quoted market price in an active market is not available on a recognised stock exchange or from a broker/dealer for non-exchange traded financial instruments, the fair value of the instrument is estimated using valuation techniques, including use of recent arm's length market transactions, reference to the current

Notes to the Financial Statements for the financial year ended 31 December 2025 (continued)

2. Material Accounting Policies (continued)

b) Financial instruments (continued)

ii) IFRS 13, Fair Value Measurement (continued)

fair value of another instrument that is substantially the same, discounted cash flow techniques, option pricing models or any other valuation technique that provides a reliable estimate of prices obtained in actual market transactions.

Where discounted cash flow techniques are used, estimated future cash flows are based on management's best estimates and the discount rate used is a market rate at the financial year end date applicable for an instrument with similar terms and conditions. Where other pricing models are used, inputs are based on market data at the financial year end date.

c) Foreign currency translation

i) Functional and presentation currency

The financial statements are presented in US Dollars (USD) (the "presentation currency"). If indicators of the primary economic environment are mixed, then the management uses its judgement to determine the functional currency that most faithfully represents the economic effect of the underlying transactions, events and conditions. Items included in the sub-funds' financial statements are measured and presented using the currency of the primary economic environment in which it operates. Subscriptions and redemptions are received and paid in the share class currency which is in USD and the expenses are denominated and paid in USD. Accordingly, the Manager determines that the functional currency and presentation currency of the sub-funds is USD.

ii) Transactions and balances

Monetary assets and liabilities denominated in currencies other than the functional currency are translated into the functional currency at the closing rate of exchange at each financial year end date. Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at financial year end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in the Statement of Comprehensive Income.

Translation differences on financial instruments, held at fair value through profit and loss are reported as part of the fair value gain and loss.

Reported net realised and unrealised gains and losses arising from foreign currency transactions are reflected in the Statement of Comprehensive Income.

d) Payables for securities purchased/receivables for securities sold

Payables for securities purchased and receivables for securities sold represent purchases and sales that have been contracted for but not yet delivered by the end of the financial year. These accounts are measured at amortised cost and presented in the Statement of Financial Position as part of other assets and other liabilities.

e) Bank interest income and interest expense

Bank interest income is recognised in the Statement of Comprehensive Income as it accrues, using the original effective interest rate of the instrument calculated at the acquisition or origination date. Interest expense is recognised on an accruals basis in line with the contractual terms. Interest is accrued on a daily basis.

Bank interest income and expense are recognised in the Statement of Comprehensive Income.

f) Redeemable participating shares and subscriber shares

Redeemable participating shares are redeemable at the shareholder's option and are classified as financial liabilities. Any distributions on these shares are recognised in the Statement of Changes in Net Assets Attributable to Holders of Redeemable Participating Shares.

Notes to the Financial Statements for the financial year ended 31 December 2025 (continued)

2. Material Accounting Policies (continued)

f) Redeemable participating shares and subscriber shares (continued)

The subscriber shares are non-participating shares in the capital of the Company which are issued solely for the purpose of the incorporation of the Company and to enable it to seek authorisation under the regulations from the Central Bank of Ireland. The subscriber shares will be issued at an issue price of €1.00 per share with rights as set out in the Articles of Incorporation.

g) Fees and charges

A Total fee is expensed as incurred and is charged to the Statement of Comprehensive Income on an accrual basis. Refer to Note 10 for more detail.

h) Gains and losses on investments

Realised gains or losses on disposal of investments during the financial year and unrealised gains and losses on valuation of investments are recognised within the Net gain/(loss) on financial assets and liabilities at fair value through profit or loss in the Statement of Comprehensive Income.

i) Cash flows

The Company has prepared a Statement of Cash Flows using the direct method, whereby major classes of cash receipts and payments related to operating activities are disclosed.

j) Interest income and interest receivable from financial assets held at fair value through profit or loss

Interest income from financial assets held at fair value through profit or loss is recognised on an effective interest basis and is included in the Statement of Comprehensive Income. Income not yet received is included in Interest receivable from financial assets at fair value through profit or loss in the Statement of Financial Position.

k) Dividend policy

It is not proposed that the Directors will declare a dividend in respect of the sub-funds. Full details of any change to a sub-fund's dividend policy will be provided in an updated Supplement and all Shareholders will be notified in advance.

l) Dividend income and dividend receivable

Dividends are credited to the Statement of Comprehensive Income on the dates on which the relevant securities are listed as "ex dividend". Income is shown gross of any non-recoverable withholding tax, which is disclosed separately in the Statement of Comprehensive Income, and net of any tax credits. Dividend receivable is recognised net of withholding tax payable in the Statement of Financial Position and represents the contractual amounts due to the Company at the financial year end.

m) Withholding tax

Dividend and interest income received by the Company may be subject to withholding tax imposed in the country of origin, which is shown separately in the Statement of Comprehensive Income.

n) Capital Gains Tax

Realised and unrealised gains on disposals of assets of the Company may be subject to capital gains tax imposed by an asset's country of origin. Tax on such realised and unrealised gains is shown separately in the Statement of Comprehensive Income.

o) Cash and Cash equivalents

Cash comprises cash on hand and demand deposits. Cash equivalents, if any, are short term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to insignificant changes in value.

Notes to the Financial Statements for the financial year ended 31 December 2025 (continued)

3. Segmental reporting

VanEck UCITS ETF Plc is the reporting entity and each sub-fund is a segment. All the entity-wide disclosures are covered in the Company's financial statements on pages 60 to 107, the Company being the sum of each segment.

There were no transactions between reportable segments during the financial year.

A business segment is a group of assets and operations engaged in providing products or services that are subject to risks and returns that are different from those of other business segments. It is the opinion of the Directors that each sub-fund can be treated as a segment as the return on each sub-fund is linked to a different group of assets and operations. Furthermore, financial information reviewed by the Board of Directors is split out by sub-fund and decisions are made on the basis of this information. In addition, the Company has no single major customer from which greater than 10% of revenue is generated.

Geographical areas

The Company does not separately monitor revenues from different geographical areas. However, by their nature, the sub-funds are tracking indices which represent specific markets in specific regions. Each sub-fund's revenue may be considered as being attributed to the region stated in its investment objective.

The chief operating decision maker, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as the Directors.

4. Financial Risk Management

a) Investment strategy

VanEck Associates Corporation acts as Investment Manager for certain sub-funds as stated in the Prospectus and the Investment Management Agreement between the Manager and the Investment Manager.

The detailed investment objectives and policies of each sub-fund are set out in the Prospectus and relevant Supplements. In order to achieve the investment objective, the Company, on behalf of the sub-funds seeks to track the performance of the reference index or replicate the reference index or invests in securities similar in nature to the components of the reference index. The Manager has due regard to the best interests of the sub-funds and to prevailing market conditions will determine which investment policy to follow at any given time and shall invest all or substantially all of the net proceeds of any issue of shares.

In pursuing its investment objective, the Company is exposed to a variety of financial risks: market risk (including market price risk, interest rate risk and currency risk), credit risk and liquidity risk that could result in a reduction in the Company's net assets. The Company's overall risk management policy focuses on the unpredictability of financial markets and seeks to minimize potential adverse effects on the sub-fund's financial performance.

The nature and extent of the financial instruments held at the reporting date and the risk management policies employed by the Company are discussed below.

b) Fair Value Hierarchy

The fair value hierarchy has the following levels:

- Level 1 - Quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices).
- Level 3 - Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs).

Notes to the Financial Statements for the financial year ended 31 December 2025 (continued)

4. Financial Risk Management (continued)

b) Fair Value Hierarchy (continued)

The fair values of the investments for the below sub-funds are based on quoted prices in active markets, the sub-funds' financial assets measured at fair value are considered Level 1 for the years ended 31 December 2025 and 31 December 2024:

VanEck Junior Gold Miners UCITS ETF
VanEck Gold Miners UCITS ETF
VanEck Morningstar US ESG Wide Moat UCITS ETF
VanEck Morningstar Global Wide Moat UCITS ETF
VanEck S&P Global Mining UCITS ETF
VanEck Video Gaming and eSports UCITS ETF
VanEck Semiconductor UCITS ETF
VanEck Hydrogen Economy UCITS ETF
VanEck Crypto and Blockchain Innovators UCITS ETF
VanEck Rare Earth and Strategic Metals UCITS ETF
VanEck New China UCITS ETF
VanEck Space Innovators UCITS ETF
VanEck Sustainable Future of Food UCITS ETF
VanEck Genomics and Healthcare Innovators UCITS ETF
VanEck Circular Economy UCITS ETF
VanEck Medical Robotics and Bionic Engineering UCITS ETF
VanEck Uranium and Nuclear Technologies UCITS ETF
VanEck Defense UCITS ETF
VanEck Oil Services UCITS ETF
VanEck Morningstar US SMID Moat UCITS ETF
VanEck Morningstar US Wide Moat UCITS ETF
VanEck Quantum Computing UCITS ETF

with the exceptions, if any, that are detailed in the table on the next page.

The fair values of the investments for the below sub-funds are based on inputs other than quoted prices, the sub-funds' financial assets are considered Level 2 for the years ended 31 December 2025 and 31 December 2024:

VanEck J.P. Morgan EM Local Currency Bond UCITS ETF
VanEck Global Fallen Angel High Yield Bond UCITS ETF
VanEck Emerging Markets High Yield Bond UCITS ETF
VanEck US Fallen Angel High Yield Bond UCITS ETF

with the exceptions, if any, that are detailed in the table on the next page.

Transfers between levels of the fair value hierarchy are deemed to have occurred at the end of the financial year. Provincia de Mendoza Argentina '144A' FRN 19/03/2029 was classified as Level 2 as at 31 December 2024. Due to price being static for more than 30 days, the security was classified as Level 3 as at 31 December 2025.

VanEck UCITS ETFs plc

Notes to the Financial Statements for the financial year ended 31 December 2025 (continued)

4. Financial Risk Management (continued)

b) Fair Value Hierarchy (continued)

The table below lists all the exceptions to the fair value levels that are considered default for each sub-fund's investments as detailed in previous page, including:

- Level 3 valuation for the current and prior financial years
- Changes to the levels between current and prior financial years

Security Name	Fair Value as at 31 December 2025		Fair Value as at 31 December 2024	
	Level	USD	Level	USD
VanEck Junior Gold Miners UCITS ETF				
Firefinch Ltd.	3	220,924	3	312,897
Victoria Gold Corp.	3	-	3	-

Xebec Adsorption, Inc.*	-	-	3	-
VanEck Rare Earth and Strategic Metals UCITS ETF				
AVZ Minerals Ltd.	3	1,061,770	3	247,108
VanEck Genomics and Healthcare Innovators UCITS ETF				
Scilex Holding Co.**	-	-	2	624

* Xebec Adsorption, Inc. were entirely sold during the financial year ended 31 December 2025.

** Scilex Holding Co. were entirely sold during the financial year ended 31 December 2025.

Investments classified within Level 3 have significant unobservable inputs, as they trade infrequently. Level 3 investments include equity securities and fixed income securities. As observable prices are not available for these securities, the Company has used valuation techniques to derive the fair value. The amounts of Level 3 investments consists of securities with stale prices.

The total market value of Level 3 investments are deemed immaterial for the purposes of presenting a Level 3 reconciliation and is also deemed immaterial for a sensitivity analysis to be included.

For more information on financial assets at fair value through profit or loss, refer to Note 2(b).

Assets and liabilities not carried at fair value but for which fair value is disclosed

The Company's assets and liabilities (by class) not measured at fair value at 31 December 2025 and 31 December 2024 but for which fair value is disclosed within the fair value hierarchy are considered Level 2, except for cash and cash equivalents, which are considered Level 1.

The assets and liabilities that are not carried at fair value are carried at amortised cost and their carrying values are a reasonable approximation of fair value.

**Notes to the Financial Statements for the financial year ended 31 December 2025
(continued)**

4. Financial Risk Management (continued)

c) Market risk

Market risk is the risk that the fair value of financial assets or liabilities will fluctuate because of changes in amongst other things: equity prices, foreign exchange rates and interest rates. These fluctuations have the potential for both loss and gains and includes market price risk, foreign currency risk and interest rate risk.

i) Market price risk

Market price risk is the risk that the fair value of a financial instrument or its future cash flows will fluctuate because of changes in market prices. The sub-funds are susceptible to market price risk arising from uncertainties about future prices of the instruments. The maximum risk resulting from financial instruments is determined by the fair value of the financial instruments.

The Manager seeks to moderate market price risk within the sub-funds by adhering to the investment restrictions outlined in the Central Bank UCITS Regulations. These investment restrictions ensure that the sub-funds are appropriately diversified and not overly concentrated within particular investments. The Company calculates its Global Exposure using the commitment approach.

At 31 December 2025 and 31 December 2024 the overall market exposure is as follows:

	Fair Value 2025 USD	% of equity at Fair Value 2025
VanEck Junior Gold Miners UCITS ETF Investments at fair value through profit or loss	1,291,902,689	100.04

For sub-fund launches, terminations and name changes, please refer to Note 16.

The estimated sensitivities are for illustrative purposes only and are not intended to be predictive. Actual fluctuations in response to market price changes may differ.

ii) Interest rate risk

Interest rate risk is the risk due to fluctuation in the prevailing levels of market interest rates, which would cause the fair value of the assets and liabilities to fluctuate accordingly. The Company did not employ leverage and did not borrow for liquidity purposes and therefore the sub-funds were not exposed to significant interest rate risk during the financial years ended 31 December 2025 or 31 December 2024 with the exception of all of the sub-funds' small cash holdings and VanEck J.P. Morgan EM Local Currency Bond UCITS ETF, VanEck Global Fallen Angel High Yield Bond UCITS ETF, VanEck Emerging Markets High Yield Bond UCITS ETF and VanEck US Fallen Angel High Yield Bond UCITS ETF as the majority of these sub-funds' assets and liabilities are interest bearing.

VanEck UCITS ETFs plc

iii) Currency risk

Currency risk is the risk that the value of a sub-fund's net assets will fluctuate due to changes in foreign currency rates.

The Company can hold assets denominated in currencies other than USD, the functional currency. It can therefore be exposed to currency risk, as the value of the securities denominated in other currencies will fluctuate due to changes in the exchange rates.

As at 31 December 2025, VanEck Morningstar US ESG Wide Moat UCITS ETF, VanEck US Fallen Angel High Yield Bond UCITS ETF, VanEck Morningstar US SMID Moat UCITS ETF, VanEck Morningstar US Wide Moat UCITS ETF, VanEck Semiconductor UCITS ETF and VanEck Oil Services UCITS ETF did not have material currency risk exposure.

As at 31 December 2024, VanEck Morningstar US ESG Wide Moat UCITS ETF, VanEck Smart Home Active UCITS ETF, VanEck US Fallen Angel High Yield Bond UCITS ETF, VanEck Morningstar US SMID Moat UCITS ETF and VanEck Morningstar US Wide Moat UCITS ETF did not have material currency risk exposure.

Currency risk is not managed actively in its separate form. Significant currency risk arises from the portfolio of investments denominated in foreign currencies and this affects the carrying value of the securities, hence is considered as part of price risk.

d) Credit risk

Credit risk is the risk that a counterparty or issuer will be unable to meet a commitment it has entered into with the sub-funds.

State Street Custodial Services (Ireland) Limited (the "Depositary") has been appointed as Depositary to the Company. Depending on the requirements of the jurisdictions in which the investments of the sub-funds are issued, the Depositary may use the services of one or more sub-custodians. Bankruptcy or insolvency of the Depositary may cause the Company's rights with respect to securities held to be delayed or limited. The Depositary held an AA- credit rating from the rating agency Standard and Poor's as at 31 December 2025 (31 December 2024: AA-). The Depositary is responsible for the safe-keeping of the assets of the Company. The Depositary may, however, appoint any person or persons to be the sub-custodian of such assets but any liability of the Depositary shall not be affected by the fact that it has entrusted some or all of the assets in its safekeeping to any third party. To mitigate the Company's exposure to the Depositary, the Company employs specific procedures to ensure that the Depositary is a reputable institution and that the counterparty credit risk is acceptable to the Company. The Company only transacts with Custodians with high credit.

In order to reduce its net counterparty risk exposure, the Company may, in relation to any of its sub-funds, avail itself of all mitigation techniques such as netting and financial collateral techniques, which are or may become authorised by the Regulations. In particular, the Company may reduce the overall counterparty risk of each sub-fund's OTC derivative by causing the counterparty to deliver collateral (which will comply with the requirements of the Central Bank) to the Depositary (or as otherwise permitted by the Central Bank). Such collateral will be enforceable by the Company at all times and will be marked to market on a daily basis. The

**Notes to the Financial Statements for the financial year ended 31 December 2025
(continued)**

4. Financial Risk Management (continued)

d) Credit risk (continued)

amount of collateral to be delivered will be at least equal to the value by which the overall exposure limit as determined pursuant to the Regulations has been exceeded. The Company did not trade in any OTC derivatives during the financial years ended 31 December 2025 or 31 December 2024. All counterparties are approved before the Managers may deal with them.

In addition to the above, the Manager manages the credit risk on a daily basis and provides the Directors with an update each quarter. Any credit risk issues are discussed quarterly with Directors and monitored thereafter.

For these reasons, the Manager considers that the risk that counterparties would fail to discharge their obligations to the sub-funds is low.

The sub-funds' main credit risk concentrations arise from cash balances held at the Depositary and fixed income securities held in VanEck J.P. Morgan EM Local Currency Bond UCITS ETF, VanEck Global Fallen Angel High Yield Bond UCITS ETF, VanEck Emerging Markets High Yield Bond UCITS ETF and VanEck US Fallen Angel High Yield Bond UCITS ETF. The sub-funds' maximum exposure to credit risk at the statement of financial position date is the carrying amount of cash balances and fixed income securities disclosed in the Statement of Financial Position and as detailed in the relevant sub-fund's Portfolio listings. All transactions involving equities and fixed income securities are settled upon delivery using approved brokers and the Manager monitors the credit position of the sub-funds on a daily basis. Therefore, the risk of default and credit risk concentration on the sub-funds are considered minimal.

As at 31 December 2025 and 31 December 2024 the break-down of the bond related credit ratings for these sub-funds was as follows. The tables reflect the "best" rating between Moody's, Standard & Poor's (S&P) and Fitch, showing ratings based on S&P's lettering.

Investment in securities is presented by rating category as a percentage of Net Asset Value Attributable to Holders of Redeemable Participating Shares.

Concentration Risk

As at 31 December 2025, VanEck J.P. Morgan EM Local Currency Bond UCITS ETF did not hold over 20% (31 December 2024: 20%) of its investments in any particular country but it did hold 98.10% (31 December 2024: 98.61%) of its investments in bonds, VanEck Global Fallen Angel High Yield Bond UCITS ETF held over 20% (31 December 2024: 20%) of its investments in following country: 31.43% (31 December 2024: 30.13%) in United States and held 96.04% (31 December 2024: 98.46%) of its investments in bonds, VanEck Emerging Markets High Yield Bond UCITS ETF did not hold 20% (31 December 2024: 20%) of its investments in any particular country but it did hold 97.07% (31 December 2024: 97.84%) of its investments in bonds and VanEck US Fallen Angel High Yield Bond UCITS ETF held over 20% (31 December 2024: 20%) of its investments in following country: 74.54% (31 December 2024: 74.98%) in United States and held 98.55% (31 December 2024: 98.66%) of its investments in bonds.

A detailed breakdown of the countries and industries invested in by the sub-funds is contained in the Portfolio Listings on pages 173 to 252.

e) Liquidity risk

Liquidity risk is the risk that an entity will encounter difficulty in meeting obligations associated with financial liabilities.

Notes to the Financial Statements for the financial year ended 31 December 2025 (continued)

4. Financial Risk Management (continued)

e) Liquidity risk (continued)

The Company is exposed to daily cash redemptions of redeemable participating shares.

The Manager monitors the Company's liquidity position on a daily basis. The Manager reviews the current and future forecasted liquidity position of the Company on a daily basis and ensures that any cash required to meet the settlement of redemption requests is generated as appropriate.

The Company is entitled to limit the number of shares redeemed on any dealing day to shares representing not more than 10% of the Net Asset Value of the sub-fund on that dealing day. In this event, the limitation will apply pro rata, so that all shareholders wishing to redeem their shareholding in the sub-fund on the relevant dealing day will realize the same proportion of their redemption request. Shares not redeemed but which would otherwise have been redeemed, will be carried forward for repurchase on the next dealing day and will be dealt with in priority (on a pro rata basis as detailed above) to redemption requests received subsequently. If requests for redemptions are so carried forward, the Administrator will inform the shareholders affected.

The Company has the ability to borrow in the short-term to ensure settlement. The Company's Prospectus allows for borrowing up to 10% of the Company's net assets at any time and the Depositary may have charged the assets of the Company as security for any such borrowing, provided that such borrowing is only for temporary purposes.

All of the sub-funds' liabilities fall due in less than 3 months.

5. Share Capital

The Authorised Share Capital of the Company is 2 subscriber shares of €1 each and 1,000,000,000 participating shares of no par value. There are no rights of pre-emption attached to the shares.

In accordance with the objectives listed in the Directors' Report and in the risk management policies in Note 4, the Company strives to invest the subscriptions of redeemable shares in appropriate investments, while maintaining sufficient liquidity to meet shareholder redemptions.

The Company complies with the minimum capital requirements by ensuring that each registered shareholder holds a minimum of 50,000 shares.

Shareholders are entitled to attend and vote at general meetings of the Company. Every shareholder holding shares that are present in person or by proxy shall have one vote and on a poll, every shareholder present in person or by proxy shall have one vote for every share of which they are the holder.

The Directors are authorised to allot relevant securities up to an amount equal to the authorised share capital of the Company. No shares were allotted during the financial years ended 31 December 2025 and 31 December 2024.

The Directors reserve the right to reject, in whole or in part, any application for shares. In particular, if the Directors determine that it would be detrimental to the existing shareholders to accept a cash application for Shares of any sub-fund which represents more than 10% of the Net Asset Value of such sub-fund, the Directors may decide that all or part of the application for shares in excess of 10% be deferred until the next Dealing Day. If the Directors decide to defer all or part of the application in excess of 10% the applicant shall be informed prior to the deferral taking place.

Capital Management

The redeemable participating shares issued by each sub-fund provide a shareholder with the right to request redemption for cash at a value proportionate to the investor's share in the net assets at each redemption date. The Company's objectives in managing the redeemable shares are to ensure to maximise returns to all investors, and to manage liquidity risk arising from redemptions. The Company's management of liquidity risk arising from redeemable participating shares is disclosed in Note 4(e).

VanEck UCITS ETFs plc

Notes to the Financial Statements for the financial year ended 31 December 2025 (continued)

5. Share Capital (continued)

The share issued and share redeemed in USD are included within the Statement of Cash Flows. During the financial years ended 31 December 2025, the number of redeemable shares issued and fully paid was as follows:

7. Cash and Cash Equivalents

The cash balances as at 31 December 2025 and 31 December 2024 were held with the Depository. The credit rating of State Street Custodial Services (Ireland) Limited was AA- at 31 December 2025 (31 December 2024: AA-).

8. Efficient Portfolio Management

The Company may, on behalf of each sub-fund and subject to the conditions and within the limits laid down by the Central Bank of Ireland, employ techniques and instruments relating to transferable securities for efficient portfolio management purposes.

Transactions for the purposes of efficient portfolio management may be undertaken with a view to achieving a reduction in risk, a reduction in costs or an increase in capital or income returns to a sub-fund and may not be speculative in nature.

The sub-funds may invest in financial derivative instruments ("FDI") for efficient portfolio management or hedging purposes. The sub-funds may use futures, swaps and currency forwards for the purpose of reducing

Notes to the Financial Statements for the financial year ended 31 December 2025 (continued)

8. Efficient Portfolio Management (continued)

risk associated with currency exposures within the sub-fund. These techniques and instruments may include investments into hedging transactions on currencies to protect against a decline in the value of investments denominated in currencies other than USD, and against any increase in the cost of investments denominated in currencies other than USD. The sub-funds employ the commitment approach to assess the global exposure and to ensure that the sub-fund's use of derivative instruments is in accordance with the requirements of the Central Bank of Ireland.

Forward foreign currency contracts can be used to hedge out unwanted currency exposures and to limit the sub-funds exposure to anticipated changes in exchange rates. There are no forward foreign currency contracts held at the financial years ended 31 December 2025 and 31 December 2024.

The sub-funds may enter into stock lending, repurchase and/or reverse repurchase agreements for the purposes of efficient portfolio management in accordance with the provisions of the Central Bank UCITS Regulations. The sub-funds did not enter into such agreements during the financial years ended 31 December 2025 or 31 December 2024.

9. Taxation

Under current law and practice the Company qualifies as an investment undertaking as defined in Section 739B of the Taxes Consolidation Act, 1997, as amended. On this basis, it is generally not chargeable to Irish tax on its income or gains.

However, Irish tax can arise on the happening of a "chargeable event" in the Company. A chargeable event includes any payments of distributions to shareholders, any encashment, repurchase, redemption, cancellation or transfer of shares and any deemed disposal of shares as described below for Irish tax purposes arising as a result of holding shares in the Company for a period of eight years or more. Where a chargeable event occurs, the Company is required to account for the Irish tax thereon.

No Irish tax will arise on the Company in respect of chargeable events where:

- a) certain exempted Irish resident investors who have provided the Company with the necessary signed statutory declarations; or
- b) any transactions in relation to shares held in a recognised clearing system as designated by order of the Revenue Commissioners of Ireland; or
- c) an exchange of shares representing one sub-fund for another sub-fund of the Company; or
- d) an exchange of shares arising on a qualifying amalgamation or reconstruction of the Company with another company; or
- e) certain exchanges of shares between spouses and former spouses.

In the absence of an appropriate declaration, the Company will be liable to Irish tax on the occurrence of a chargeable event. There were no chargeable events during the financial period under review. Dividends, interest and capital gains (if any) received on investments made by the Company may be subject to withholding taxes imposed by the country of origin and such taxes may not be recoverable by the Company or its shareholders.

10. Expenses

Total Fee

The Total Fee, a percentage of the Net Asset Value of the relevant class of shares, is payable by the Company out of the sub-funds' assets to the Manager.

VanEck UCITS ETFs plc

Other non-audit	-	-
Total	USD 206,107	USD 334,808

Transaction costs

Transaction costs are incremental costs that are directly attributable to the acquisition, issue or disposal of a financial asset or financial liability. An incremental cost is one that would not have been incurred if the entity had not acquired, issued or disposed of the financial instrument. When a financial asset or financial liability is recognised initially, an entity shall measure it at its fair value through profit or loss plus, transaction costs that are directly attributable to the acquisition or issue of the financial asset or financial liability.

Transaction costs on purchases and sales of equities are included in Net gain/(loss) on financial assets and liabilities at fair value through profit or loss in the Statement of Comprehensive Income and transaction costs on custody transactions are included in Total fee in the Statement of Comprehensive Income for each sub-fund.

11. Related Parties

Mr. Adam Phillips, Mr. Jonathan R. Simon, Mr. Gregory Krenzer and Mr. Gijsbert Koning are related to VanEck Associates Corporation and also serve as directors or officers of affiliates of VanEck Associates Corporation. Mr. Jon Lukomnik, Mr. Adrian Waters and Ms. Mary Canning are independent Directors of the Company. Mr. Adam Phillips and Mr. Jonathan R. Simon are also members of the Supervisory Board of VanEck Asset Management B.V.. Mr. Jon Lukomnik is also an independent Director of the VanEck US mutual funds. Mr. Gijsbert Koning is a director of VanEck Asset Management B.V.. Mr. Adrian Waters, Ms. Mary Canning and Mr. Jon Lukomnik are each entitled to receive a directors' fee of €30,000 (31 December 2024: €30,000) per annum as payment for their services to the Company. For the financial year ended 31 December 2025, the Directors' fees amounting to USD 105,512 were paid by the Manager out of the Total fee charged to the Company (31 December 2024: USD 99,892).

As outlined on page 3 of this report, VanEck Associates Corporation acts as Investment Manager to certain sub-funds of the Company pursuant to an investment management agreement between the Manager and the Investment Manager. VanEck Asset Management B.V. (the "Manager") acts as Manager and Distributor. The Manager is a 99% owned subsidiary of VanEck Associates Corporation. The Manager receives the net amount of Total fees less operating costs and expenses payable by the sub-funds as disclosed in Note 10.

Notes to the Financial Statements for the financial year ended 31 December 2025 (continued)

11. Related Parties (continued)

The Total fee is disclosed in the Statement of Comprehensive Income and amounts owed at the financial year end are disclosed in the Statement of Financial Position.

VanEck Switzerland AG and VanEck (Europe) GmbH are related parties, by virtue of the fact that they have a distribution agreement with the Manager and have the same ultimate parent group, VanEck Associates Corporation, which held 10 (31 December 2024: 695,000) outstanding shares in the Company.

Market Vector Indexes GmbH, the index provider of VanEck Junior Gold Miners UCITS ETF, VanEck Semiconductor UCITS ETF, VanEck Hydrogen Economy UCITS ETF, VanEck Crypto and Blockchain Innovators UCITS ETF, VanEck Rare Earth and Strategic Metals UCITS ETF, VanEck Space Innovators UCITS ETF, VanEck Sustainable Future of Food UCITS ETF, VanEck Genomics and Healthcare Innovators UCITS ETF, VanEck Circular Economy UCITS ETF, VanEck Medical Robotics and Bionic Engineering UCITS ETF, VanEck Uranium and Nuclear Technologies UCITS ETF, VanEck Defense UCITS ETF, VanEck Oil Services UCITS ETF and VanEck Quantum Computing UCITS ETF sub-funds is a wholly owned subsidiary of VanEck Associates Corporation. The index licensing fees related to these indexes are borne by the Manager. Market Vector Indexes GmbH was paid a fee of USD 4,061,706 for the financial year ended 31 December 2025 (31 December 2024: USD 696,631).

Mr. Gijsbert Koning held 83,524 shares of the Company at the beginning of the financial year, purchasing 150 shares during the financial year and holding 83,674 shares with a value of USD 2,066,347 as at 31 December 2025. Angkor Holding B.V. an entity controlled by Mr. Gijsbert Koning held 2,377 shares with a value of USD 85,722 as at 31 December 2025 (31 December 2024: 4,090 shares with a value of USD 206,905). Family members of Mr. Gijsbert Koning have USD 78,522 (31 December 2024: USD 66,222) outstanding worth of shares of the Company as at 31 December 2025. All transactions entered into by Mr. Gijsbert Koning and his close family members and Angkor Holding B.V. were made under normal commercial terms.

Two (31 December 2024: Two) record holders of shares own 72.23% (31 December 2024: 71.55%) of the Company on behalf of Nominee accounts.

12. Contingent Liabilities and Commitments

There were no significant liabilities or commitments as at financial year ended 31 December 2025 and financial year ended 31 December 2024.

The Investment Manager did not enter into any directed brokerage services on behalf of the sub-funds during the year ended 31 December 2025 and year ended 31 December 2024.

13. Segregation of Liability

Under the provisions of the Companies Act 2014, the Directors maintain for each sub-fund a separate portfolio of assets. As between shareholders, each portfolio of assets is invested for the exclusive benefit of the relevant sub-fund. The shareholders are only entitled to the assets and profits of that sub-fund in which they participate. The Company is considered one single legal entity. With regard to third parties, in particular towards the Company's creditors, the Company is responsible for all liabilities incurred by a sub-fund exclusively based on the assets of this relevant sub-fund. Among the shareholders, the liabilities of each sub-fund shall only be incurred to the sub-fund.

While the provisions of the Companies Act provide for segregated liability between sub-funds, these provisions have yet to be tested in foreign courts, in particular, in satisfying local creditors' claims.

Accordingly, it is not free from doubt that the assets of a sub-fund of the Company may not be exposed to the liabilities of other sub-funds of the Company.

Notes to the Financial Statements for the financial year ended 31 December 2025 (continued)

14. Offsetting and Amounts Subject to Master Netting Arrangements and Similar Agreements

Financial assets and liabilities are offset and the net amount reported in the Statement of Financial Position when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously.

The legally enforceable right must be based on future events and must not be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the company or the counterparty.

The Company was not subject to master netting arrangements with its derivative counterparties as the Company did not trade in any OTC derivatives during the financial years ended 31 December 2025 or 31 December 2024.

15. US GAAP Reconciliation

SEC Custody Rule

VanEck Associates Corporation (the "Investment Manager") is a registered advisor with the United States Securities and Exchange Commission (the "SEC"). Rule 206(4)-2 of the US Investment Advisers Act of 1940, as amended (the "Custody Rule") imposes requirements on SEC registered investment advisors that are deemed to have custody of client sub-funds or securities.

The Investment Manager has elected to use the audit exemption provision to satisfy that obligation of the Custody Rule and therefore, is required to prepare financial statements for the investment entities they manage in accordance with US generally accepted accounting principles ("US GAAP") or in accordance with accounting standards other than US GAAP if they contain information substantially similar to statements prepared in accordance with US GAAP, with any material differences reconciled. These financial statements must be audited according to requirements of US generally accepted auditing standards ("US GAAS"). These financial statements are prepared in accordance with International Financial Reporting Standards and additional US GAAP information has been provided to meet the requirements of the Custody Rule to reconcile material differences.

Taxation

The Financial Accounting Standards Board ("FASB") issued accounting guidance "Accounting for Uncertainty in Income Taxes" (ASC 740) related to income taxes which provides direction for how uncertain tax positions should be recognised, measured, presented and disclosed. Under this guidance, the recognition of a benefit from a tax position requires that the Board of Directors determine whether such tax position is "more likely than not" to be sustained upon examination, including resolution of any related appeals or litigation processes, based on the technical merits of the positions. If this threshold is met, the tax benefit is then measured and recognised at the largest amount that is greater than 50 percent likely of being realised upon settlement. It is the Company's policy to recognise interest and penalties related to unrecognised taxes in other expenses. The Company has undertaken an analysis of its tax exposures, and it has determined that there is no potential liability arising. In addition, the Company has determined that its only other tax exposure is to withholding tax on dividends. For the financial year ended 31 December 2025 and the year ended 31 December 2024, no other interest or penalties have been accrued or incurred. The Investment Manager's conclusions regarding the accounting standard may be subject to review and adjustment at a later date based on factors including, but not limited to, further implementation guidance from the FASB, and ongoing analyses of tax laws, regulations and interpretations thereof. The Company files tax returns as prescribed by the tax laws of the jurisdictions in which it operates. In the normal course of business, the Company is subject to examination by federal, state, local and foreign jurisdictions, where applicable.

VanEck UCITS ETFs plc

Notes to the Financial Statements for the financial year ended 31 December 2025 (continued)

15. US GAAP Reconciliation (continued)

Reconciliation to US GAAP – Company Statement of Financial Position

	USD
Net assets under IFRS	22,651,297,838
(a) Redemptions Payable	-
(b) Subscription Receivable	-
Net assets under US GAAP	<u>22,651,297,838</u>

(a) In accordance with US GAAP, redemption requests received prior to year end for the 1 January dealing date are recognised as liabilities at year end. As at 31 December 2025, no redemption requests were made and accordingly, no such liabilities were recognised.

(b) Under US GAAP, only subscriptions received in advance qualify as subscriptions receivable. As at 31 December 2025, there were no subscriptions received in advance were recognised.

A Global Depositary Receipt (GDR) is very similar to an American depositary receipt or an ADR. It is a type of bank certificate that represents shares in a foreign company, such that a foreign branch of an international bank then holds the shares. The shares themselves trade as domestic shares, but globally, various bank branches offer the shares for sale.

An American Depositary Receipt (ADR) is a stock that trades in the United States but represents a specified number of shares in a foreign corporation. ADRs are bought and sold on American markets just like regular stocks, and are issued/sponsored in the U.S. by a bank or brokerage.

* In accordance with the Central Bank UCITS Regulations, the annual report documents material changes that have occurred in the disposition of the assets of the Company during the financial year. A material change is defined as aggregate purchases of a security exceeding 1 per cent of the total value of the purchases for the financial year and/or aggregate disposals greater than 1 per cent of the total value of sales for the financial year. If there are fewer than 20 purchases/sales that meet the material changes definition, the Company shall disclose those purchases/sales so at least 20 purchases/sales are disclosed.

Statement of Portfolio Changes (Unaudited) - VanEck Morningstar Global Wide Moat UCITS ETF

An American Depositary Receipt (ADR) is a stock that trades in the United States but represents a specified number of shares in a foreign corporation. ADRs are bought and sold on American markets just like regular stocks, and are issued/sponsored in the U.S. by a bank or brokerage.

* In accordance with the Central Bank UCITS Regulations, the annual report documents material changes that have occurred in the disposition of the assets of the Company during the financial year. A material change is defined as aggregate purchases of a security exceeding 1 per cent of the total value of the purchases for the financial year and/or aggregate disposals greater than 1 per cent of the total value of sales for the financial year. If there are fewer than 20 purchases/sales that meet the material changes definition, the Company shall disclose those purchases/sales so at least 20 purchases/sales are disclosed.

An American Depositary Receipt (ADR) is a stock that trades in the United States but represents a specified number of shares in a foreign corporation. ADRs are bought and sold on American markets just like regular stocks, and are issued/sponsored in the U.S. by a bank or brokerage.

* In accordance with the Central Bank UCITS Regulations, the annual report documents material changes that have occurred in the disposition of the assets of the Company during the financial year. A material change is defined as aggregate purchases of a security exceeding 1 per cent of the total value of the purchases for the financial year and/or aggregate disposals greater than 1 per cent of the total value of sales for the financial year. If there are fewer than 20 purchases/sales that meet the material changes definition, the Company shall disclose those purchases/sales so at least 20 purchases/sales are disclosed.

* In accordance with the Central Bank UCITS Regulations, the annual report documents material changes that have occurred in the disposition of the assets of the Company during the financial year. A material change is defined as aggregate purchases of a security exceeding 1 per cent of the total value of the purchases for the financial year and/or aggregate disposals greater than 1 per cent of the total value of sales for the financial year. If there are fewer than 20 purchases/sales that meet the material changes definition, the Company shall disclose those purchases/sales so at least 20 purchases/sales are disclosed.

Swiss Investors

The Prospectus, the statutes, the Key Investor Information Document, the annual and semi-annual report as well as a list containing all purchases and sales which have been made during the reporting year can be obtained free of charge at the Swiss Representative.

Appendix 2: UCITS V (Unaudited)

Remuneration Policy

VanEck Asset Management B.V.

UCITS shall include in their remuneration policies information on how these policies are consistent with the integration of sustainability risks, and shall publish that information on their websites effective from 10 March 2021.

As a UCITS Management Company VanEck Asset Management B.V. (the “Manager”) must implement a remuneration policy that is consistent with a promote sound and effective risk management in accordance with the UCITS Directive and the remuneration guidelines published by the European Securities and Markets Authority (ESMA) as well as other relevant laws and binding guidance in the Netherlands (together the “UCITS Remuneration Code”), which restrict the structure and form of remuneration to certain categories of staff (the “Identified Staff”).

The remuneration policy aims to:

- Align the business strategy, values and interests of the Company.
- Discourage excessive risk taking.
- Enable the Company to align the interests of shareholders and the sub-funds managed with the interests of the Identified Staff managing the sub-funds.

The Board is satisfied that the Manager's remuneration policies and practices for the Directors whose activities may have a material impact on the risk profiles of the Manager, are consistent with and promote sound and effective risk management and do not encourage risk-taking which is inconsistent with the risk profiles of the sub-funds. The Board is satisfied that Manager's remuneration policy is designed to be consistent with the UCITS Remuneration Code.

Delegated Functions

Where risk management or portfolio management is delegated, the delegate need only put arrangements in place with respect to those staff of the delegate who have a material impact on the risk profiles of the relevant sub-funds, and in respect of remuneration that is connected with the delegated activities.

Portfolio management for certain sub-funds has been delegated by the Manager to VanEck Associates Corporation, a US based SEC registered investment adviser (“The Investment Manager”).

The Manager will, where applicable, seek to ensure that the Investment Manager is contractually obliged in accordance with the terms of the investment management agreements to observe the UCITS Remuneration Code when making payments to their identified staff for the performance of portfolio management activities on behalf of the company.

Circumstances where the board should be consulted include the following:

- any material issues arise in relation to the Investment Manager's remuneration policies and practices between the regular annual reports which could impact on the Company; and/or
- when the Investment Manager indicates to the Manager that its policies no longer comply with the UCITS Remuneration Code.

Where a material issue arises in relation to the Company's remuneration policies and practices, the Designated Director may consider either tabling the matter for discussion at a Board meeting of the Company, or where time sensitive, convening an ad-hoc Board meeting to discuss.

Appendix 2: UCITS V (Unaudited) (continued)

NAME	TITLE	RESPONSIBILITIES	REMUNERATION RECEIVED
Jonathan Simon	Chairman	Designated Director for Remuneration	No
Gregory Krenzer	Director		No
Gijsbert Koning	Director		No
Adam Phillips	Director		No
Jon Lukomnik	Independent Director		€30,000 per annum
Mary Canning	Independent Director		€30,000 per annum
Adrian Waters	Independent Director		€30,000 per annum

Remuneration Disclosure

Based on the Company's Remuneration Policy its delegates are obliged to disclose certain elements of the remuneration of their employees. These elements are disclosed in the below table.

For the period from 1 January 2025 to 31 December 2025, the table below sets out the portion of total remuneration paid or payable to the Identified Staff of the Company's delegates, split into Fixed Remuneration and Variable Remuneration which are relevant to the Company based upon a pro-rata allocation of total remuneration paid to the Identified Staff of the delegates as reported to the Company by the delegates by reference to the portion of the assets managed by the delegates for the Company when compared to their total assets under management.

Average number of Identified Staff of the delegates

14 employees

Fixed Remuneration
USD 767,707

Variable Remuneration
USD 1,635,189

Following the review of the Remuneration Policy undertaken in 2022 and its implementation, no irregularities were identified and no material changes were made to the Remuneration Policy.

Appendix 3: Sustainable Finance Disclosures Regulation and Taxonomy Regulation Disclosures (Unaudited)

The European Union's ("EU") Regulation on the Establishment of a Framework to Facilitate Sustainable Investment (Regulation EU/2020/852) (the "Taxonomy Regulation") requires VanEck UCITS ETFs plc to provide additional disclosure with respect to each of the Funds in order to enhance transparency and to provide for objective comparison of financial products regarding the proportion of such financial products' investments that contribute to environmentally sustainable economic activities, noting that the scope of environmentally sustainable economic activities, as prescribed in the Taxonomy Regulation, is narrower than the scope of sustainable investments under the Regulation (EU) 219/2088 on sustainability-related disclosures in the financial services sector ("SFDR"). Please see the Relevant Supplement for the disclosures for each Fund required by the Taxonomy Regulation.

SFDR Art. 6 Sub-Funds:

With respect to the following Funds, the investments underlying each of these Funds do not take into account the EU criteria for environmentally sustainable economic activities for VanEck UCITS ETFs plc Annual Report and Audited Financial Statements for the financial year ended 31 December 2025:

1. VanEck Gold Miners UCITS ETF
2. VanEck Junior Gold Miners UCITS ETF
3. VanEck J.P. Morgan EM Local Currency Bond UCITS ETF
4. VanEck Emerging Markets High Yield Bond UCITS ETF
5. VanEck Global Fallen Angel High Yield Bond UCITS ETF
6. VanEck S&P Global Mining UCITS ETF
7. VanEck Morningstar Global Wide Moat UCITS ETF
8. VanEck Crypto and Blockchain Innovators UCITS ETF
9. VanEck Rare Earth and Strategic Metals UCITS ETF
10. VanEck Uranium and Nuclear Technologies UCITS ETF
11. VanEck Oil Services UCITS ETF
12. VanEck Defense UCITS ETF
13. VanEck US Fallen Angel High Yield Bond UCITS ETF
14. VanEck Morningstar US SMID Moat UCITS ETF
15. VanEck Morningstar US Wide Moat UCITS ETF
16. VanEck Quantum Computing UCITS ETF

Environmental and/or social characteristics of the Sub-Funds:

Pursuant to Art. 50 of the Commission Delegated Regulation (EU) 2022/1288 ("RTS"), the information on the environmental and/or social characteristics of the following Funds, categorized as SFDR Art. 8 or Art. 9, is available respectively in the Annex 1 – 10 of this Annual Report.

1. VanEck Morningstar US ESG Wide Moat UCITS ETF (Article 8)
2. VanEck Video Gaming and eSports UCITS ETF (Article 8)
3. VanEck Semiconductors UCITS ETF (Article 8)
4. VanEck Hydrogen Economy UCITS ETF (Article 9)
5. VanEck New China UCITS ETF (Article 8)
6. VanEck Space Innovators UCITS ETF (Article 8)
7. VanEck Sustainable Future of Food UCITS ETF (Article 9)
8. VanEck Genomics and Healthcare Innovators UCITS ETF (Article 9)
9. VanEck Circular Economy UCITS ETF (Article 9)
10. VanEck Medical Robotics and Bionic Engineering UCITS ETF (Article 9)

Annex 1

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: VanEck Morningstar US ESG Wide Moat UCITS ETF

Legal entity identifier: 549300JHVM3IG26SW860

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?	
<input checked="" type="radio"/> <input type="radio"/> Yes	<input checked="" type="radio"/> <input type="radio"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective : ___% <ul style="list-style-type: none"><input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy<input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	<input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments <ul style="list-style-type: none"><input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy<input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy<input type="checkbox"/> with a social objective
<input type="checkbox"/> It made sustainable investments with a social objective : ___%	<input checked="" type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The following environmental and social characteristics applied to the Product's investments during the reporting period:

1. The Product has promoted the reduction of the most negative impacts on society and the environment through:
 - ⊕ Reducing the exposure to ESG and carbon risks by excluding companies with high or severe levels of ESG and Carbon risks. The performance of this characteristic has been measured with the sustainability indicators on total greenhouse gas emissions and greenhouse gas intensity.
 - ⊕ Limiting exposure to controversies and controversial business activities by means of revenue-based screening and exclusion of companies involved in severe UNGC violations and other controversies.
 - ⊕ The performance of the Product's environmental and social characteristics has been measured with the sustainability indicators included in the next question.
2. The Glass Lewis ESG tilted voting policy was applied, whereby votes were cast on sustainability matters.
3. A third-party engagement specialist - Glass Lewis Europe Limited – has been engaged for the passive equity funds managed by VanEck Asset Management B.V. The engagement provider determines the engagement approach in accordance with its engagement policy and based on its engagements' priorities.

A reference benchmark, Morningstar US Sustainability Moat Focus Index, has been designated for the purpose of attaining the environmental and social characteristics promoted by the financial product.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

● **How did the sustainability indicators perform?**

The sustainability Indicators performed as below:

Indicator	Score
Total GHG Emissions (Scope 1+2+3) per Mio EUR Enterprise Value	153.21
GHG Intensity (t CO2e/\$M Revenue)	496.15
Carbon Footprint (Scope 1+2+3) Mio EUR Enterprise Value	153.21

● **... and compared to previous periods?**

Indicator	2025	2024	2023	2022
Total GHG Emissions (Scope 1+2+3) per Mio EUR Enterprise Value	153.21	141.91	257.28	176.62
GHG Intensity (t CO2e/\$M Revenue)	496.15	1455.41	982.6	1590.82
Carbon Footprint (Scope 1+2+3) Mio EUR Enterprise Value	153.21	141.91	257.28	176.62

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

This question and the corresponding questions below were not applicable as the Product did not intend to make sustainable investments during the reporting period.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

Not applicable.

— How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable.

— Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable.

How did this financial product consider principal adverse impacts on sustainability factors?

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

The Product considered the principal adverse impacts by means of screening and excluding companies with a low performance on the below subjects in the following manner:

1. Greenhouse Gas (GHG Emissions):
 - Part of Global Standards screen "Energy Use and Greenhouse Gas Emissions", which comprises the Controversy Score used in the selection process. Companies with critical (5 out of 5) controversies score within the last 3 years are excluded from the selection process.
 - Exclusion of companies with High and Severe Carbon Risk scores based on Sustainalytics metrics
 - Excludes companies with Involvement (>0% Revenue) in Thermal Coal extraction or power generation
2. Biodiversity
 - Part of Global Standards screen "Land Use and Biodiversity", which comprises the Controversy Score used in the selection process. Companies with critical (5 out of 5) controversies score within the last 3 years are excluded from the selection process.
3. Water
 - Part of Global Standards screen "Discharges and Releases (Water)", which comprises the Controversy Score used in the selection process. Companies with critical (5 out of 5) controversies score within the last 3 years are excluded from the selection process.
4. Waste
 - Part of Global Standards screen "Degradation & Contamination (Land)", which comprises the Controversy Score used in the selection process. Companies with critical (5 out of 5) controversies score within the last 3 years are excluded from the selection process.
5. Social and employee, respect for human rights, anti-corruption and anti-bribery matters
 - Global Standards screening includes ratings for controversial practices that have adverse impacts on society and the environment in line with established expectations for Responsible Business Conduct as set forth in the core normative framework consisting of the Principles of the UN Global Compact, the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles for Business and Human Rights, all of which are embedded in the Sustainable Development Goals.
 - Part of the Social and Governance components of the Global Standards screening, which comprises the Controversy Score used in the selection process. Companies with critical (5 out of 5) controversies score within the last 3 years are excluded from the selection process.
 - Controversial weapons screenings are performed whereby companies with any exposure are excluded from the index.

Additionally, principal adverse impacts were considered as part of the ESG tilted voting policy whereby votes were casted regarding the environment, energy efficiency, the use of renewable energy sources, enhancing the rights of workers, violation of international human rights standards, gender pay inequity and board diversity.

What were the top investments of this financial product?

As of 31/12/2025:

Security name	Weight (%)	Sector	Currency	Country
ESTEE LAUDER COS INC/THE	3.03	Consumer Staples	USD	US
MERCK & CO INC	2.84	Health Care	USD	US
DANAHER CORP	2.59	Health Care	USD	US
GE HEALTHCARE TECHNOLOGIES INC	2.57	Health Care	USD	US
BRISTOL-MYERS SQUIBB CO	2.56	Health Care	USD	US
TERADYNE INC	2.5	Information Technology	USD	US
PEPSICO INC	2.48	Consumer Staples	USD	US
NIKE INC	2.46	Consumer Discretionary	USD	US
TRANSUNION	2.45	Industrials	USD	US
AIR PRODUCTS AND CHEMICALS INC	2.41	Materials	USD	US
MASCO CORP	2.41	Industrials	USD	US
WALT DISNEY CO/THE	2.41	Communication Services	USD	US
SALESFORCE.COM INC	2.38	Information Technology	USD	US
NXP SEMICONDUCTORS NV	2.33	Information Technology	USD	NL
ZIMMER BIOMET HOLDINGS INC	2.33	Health Care	USD	US

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: 2025.

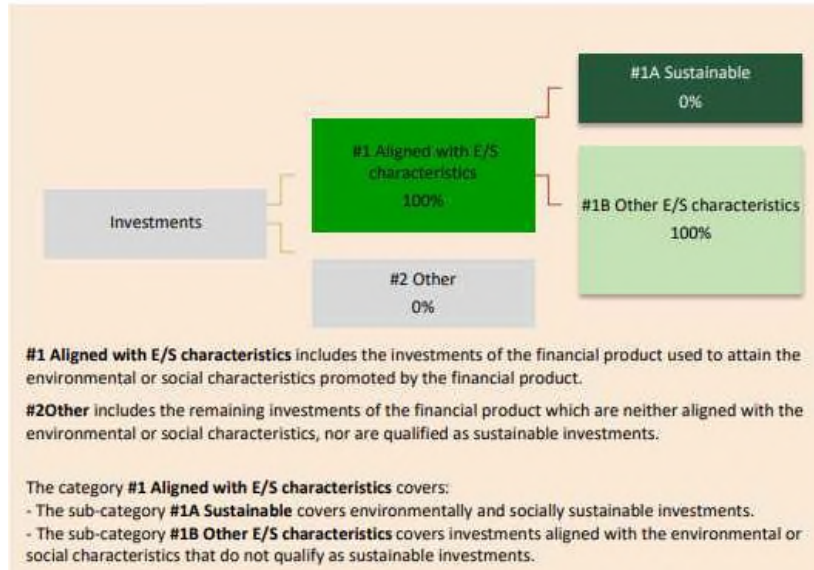

What was the proportion of sustainability-related investments?

The Product has invested in direct financial instruments of which 100% was aligned with the environmental and social characteristics that it promotes on the basis that all of the Index holdings are screened against its exclusion strategy.

What was the asset allocation?

The Product has invested in direct financial instruments of which 100% was aligned with the promoted environmental and social characteristics.

In which economic sectors were the investments made?

As of 31/12/2025:

Sector	Weight (%)
Consumer Staples	17.86
Health Care	23.88
Information Technology	22.05
Consumer Discretionary	7.47
Industrials	12.24
Materials	3.41
Communication Services	5.71
Financials	6.31
Real Estate	0.99
other/Cash	0.09

The weights may not sum up to 100% due to rounding.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

0%. The Product did not intend to make sustainable investments with an environmental objective aligned with the EU Taxonomy during the reporting period. During the reporting period a limited

Asset allocation describes the share of investments in specific assets.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules. **Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

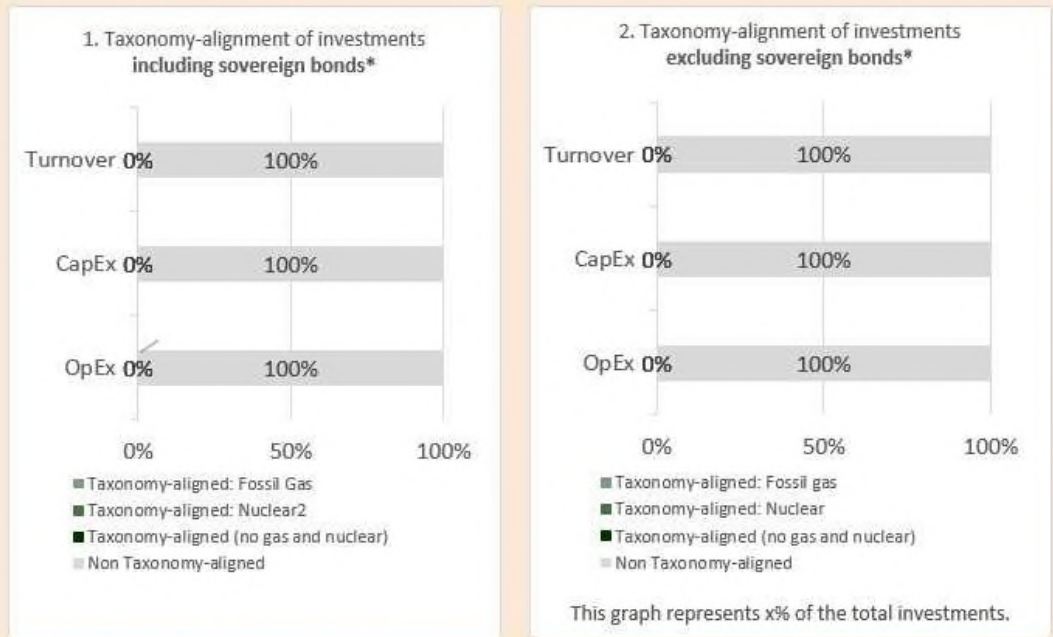

amount of companies has reported on Taxonomy-alignment.

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?**

- Yes
 In fossil gas in nuclear energy
 No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

● **What was the share of investments made in transitional and enabling activities?**

The minimum share of investments in transitional and enabling activities was 0%.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

0%. The Product did not intend to make sustainable investments with an environmental objective aligned with the EU Taxonomy during the reporting period. During the reporting period a limited amount of companies has reported on Taxonomy-alignment.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable. The Product did not intend to make sustainable investments with an environmental objective not aligned with the EU Taxonomy.

What was the share of socially sustainable investments?

Not applicable. The Product did not intend to make socially sustainable investments.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

Not applicable, all investments were aligned with the environmental and social characteristics.

¹Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

As a passive investments strategy, during the reporting period the Product has tracked the Morningstar US Sustainable Moat Focus Index. The index has incorporated the relevant ESG screenings in the selection process, and thereby ensures the compliance with the environmental and/or social characteristics. Moreover, Glass Lewis ESG voting guidelines were applied to this Product, whereby casted votes regard the environment, energy efficiency, the use of renewable energy sources, enhancing the rights of workers, violation of international human rights standards, gender pay inequity and board diversity.

Furthermore, the European ESG Committee has performed a review and reported on the alignment of of the environmental and social characteristics of the Product.

No breaches of the index have occurred.

In addition:

- The Glass Lewis ESG voting guidelines applied to this Product. Glass Lewis manages proxy voting, policy implementation, recordkeeping and reporting of voting activities.
- Glass Lewis Europe Limited has been appointed as engagement specialist for the passive equity funds managed by VanEck Asset Management B.V. The engagement provider determines the engagement approach in accordance with its engagement policy and based on its engagements’ priorities.

How did this financial product perform compared to the reference benchmark?

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

How does the reference benchmark differ from a broad market index?

The index differs from a generic US broad market index in following ways:

- Moat investment approach: the index only selected companies with longterm competitive advantages (“Moats”) (switching costs, intangible assets, network effect, cost advantage, efficient scale) according to Morningstar research;
- Investing in relatively attractively valued companies: undervalued companies according to estimated “Fair Value” by Morningstar research;
- Equal weighting: the constituents of the index are equal-weighted as opposed to market-capitalization weighting;
- Staggered rebalancing: the index consists of two annually rebalanced sub-portfolios;
- Target ESG score: index selection targets a Morningstar Sustainability Rating of 4 out of 5 globes, equivalent to the best 32.5% in its peer group, whereby the worst ESG performers will be replaced;
- ESG Screening: companies with very severe norms violations, the ones that have greater than 0% revenue exposure to controversial weapons, or that exceed certain thresholds of revenue exposure to various sectors including but not limited to civilian firearms, tobacco, and energy extractives are not eligible for inclusion.

How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

The Product aims to invest 100% in line with its reference benchmark and will for that reason normally have very similar performance on sustainability indicators as the reference benchmark: Morningstar US Sustainability Moat Focus Index. The European ESG Committee has analysed and confirmed the alignment of the reference benchmark with the environmental and social characteristics it intends to promote.

How did this financial product perform compared with the reference benchmark?

Indicator	Product: VanEck Morningstar US Sustainable Wide Moat UCITS ETF	Reference benchmark: Morningstar US Sustainability Moat Focus Index
tCO2 Total GHG Emissions (Scope 1+2+3) per Mio EUR EV	153.21	153.36
GHG Intensity - CO2e/\$M Revenue.	496.15	496.62
Carbon Footprint (Scope 1+2+3) Mio EUR Enterprise Value	153.21	153.36

● **How did this financial product perform compared with the broad market index?**

Indicator	Product: VanEck Morningstar US Sustainable Wide Moat UCITS ETF	Broad market index: Solactive GBS United States Large & Mid Cap Index
tCO2 Total GHG Emissions (Scope 1+2+3) per Mio EUR EV	153.21	288.11
GHG Intensity - CO2e/\$M Revenue.	496.15	861.35
Carbon Footprint (Scope 1+2+3) Mio EUR Enterprise Value	153.21	288.11

Annex 2

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: VanEck Video Gaming and eSports UCITS ETF

Legal entity identifier: 6354004UKGUQNCOZOU60

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?	
<input checked="" type="radio"/> <input type="radio"/> Yes	<input checked="" type="radio"/> <input type="radio"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective : ___% <ul style="list-style-type: none"><input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy<input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	<input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments <ul style="list-style-type: none"><input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy<input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy<input type="checkbox"/> with a social objective
<input type="checkbox"/> It made sustainable investments with a social objective : ___%	<input checked="" type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The following environmental and social characteristics applied to the Product's investments:

1. Reducing exposure to very severe controversies relating to international standards on responsible business, human rights and labour rights, via exclusions based on the Norm-based research
2. Minimizing the exposure to controversial business activities relating to tobacco, controversial weapons, energy extractives, civilian firearms and military, based on the ESG provider research on revenues
3. Limiting the exposure to carbon risk by excluding companies deriving significant (>5%) revenues from certain sectors and energy extractives, such as thermal coal.
4. The Glass Lewis ESG policy guidelines was applied, whereby votes were cast on sustainability matters.
5. A third-party engagement specialist - Glass Lewis Europe Limited – has been engaged for the passive equity funds managed by VanEck Asset Management B.V. The engagement provider determines the engagement approach in accordance with its engagement policy and based on its engagements' priorities.

The performance of the Product's environmental and social characteristics has been measured with the sustainability indicators included in the next question.

A reference benchmark, MarketVector Global Video Gaming & eSports Screened Index, has been designated for the purpose of attaining the environmental and social characteristics promoted by the financial product.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

● **How did the sustainability indicators perform?**

The sustainability Indicators performed as below:

Indicator	Score
The percentage of portfolio involved in violation of the UN Global Compact, the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles for Business and Human Rights. The target is 0% at rebalancing.	0.00%
The percentage of portfolio involved in the fossil fuels industry	0.00%
The percentage of portfolio involved in non-renewable energy production	0.00%

■ **...and compared to previous periods?**

Indicator	2025	2024	2023	2022
The percentage of portfolio involved in violation of the UN Global Compact, the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles for Business and Human Rights. The target is 0% at rebalancing.	0.00%	0.00%	0.00%	0.00%
The percentage of portfolio involved in the fossil fuels industry	0.00%	0.00%	0.00%	0.00%
he percentage of portfolio involved in nonrenewable energy production	0.00%	0.00%	0.00%	0.00%

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

This question and the related questions below were not applicable as the Product did not intend to make sustainable investments during the reporting period.

■ **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

Not applicable.

— How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable.

— Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable.

How did this financial product consider principal adverse impacts on sustainability factors?

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

The Product considered the following principal adverse impacts on sustainability:

1. Greenhouse Gas (GHG Emissions):
 - Part of Norm-based research on environmental protection "Failure to mitigate climate change impacts", which comprises the Controversy Score used in the selection process. Companies with very severe controversies score were excluded from the selection process.
 - Fossil Fuel/Coal exclusions - Total Maximum Percentage of Revenues is 5%: This factor provides the maximum percentage of recent-year revenues for issuer's total involvement in coal/fossil fuel, including any exposure in Production, Exploration, Distribution, and Services.
2. Biodiversity
 - Part of Norm-based research on environmental protection "Failure to prevent depletion of biodiversity" and "Failure to prevent deforestation / illegal logging", which comprises the Controversy Score used in the selection process. Companies with very severe controversies score were excluded from the selection process.
3. Water
 - Part of Norm-based research on environmental protection "Failure to prevent depletion of biodiversity", "Failure to prevent water pollution" and "Failure to prevent oil spill", which comprises the Controversy Score used in the selection process. Companies with very severe controversies score were excluded from the selection process.
4. Waste
 - Part of Norm-based research on environmental protection "Poor waste management", "Poor nuclear safety", "Failure to prevent pollution" and "Failure to mitigate the production / distribution of hazardous substances", which comprises the Controversy Score used in the selection process. Companies with very severe controversies score were excluded from the selection process.
5. Social and employee, respect for human rights, anti-corruption and anti-bribery matters
 - ISS norms based screening covers controversial practices that have adverse impacts on society and the environment in line with established expectations for Responsible Business Conduct as set forth in the core normative framework consisting of the Principles of the UN Global Compact, the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles for Business and Human Rights, all of which are embedded in the Sustainable Development Goals.
 - Part of Norm-based research on Human Rights, including "Failure to conduct human rights due diligence" and "Failure to provide equal pay for work of equal value", which comprises the Controversy Score used in the selection process. Companies with very severe controversies score were excluded from the selection process.
 - Controversial weapons screenings are performed whereby companies with a RED exposure score in anti-personnel mines, biological and chemical weapons, cluster munitions, depleted uranium, incendiary weapons, white phosphorus and nuclear weapons are excluded from the index.

Companies for which there is no data available on one or more screening components do not constitute a violation of environmental or social objectives on that specific screening component. As of December 2023 rebalancing, no companies which were not covered by the ESG data provider, were included in the Index.

Additionally, principal adverse impacts are considered as part of the Glass Lewis ESG tilted voting policy, whereby votes are casted regard the environment, energy efficiency, the use of renewable energy sources, enhancing the rights of workers, violation of international human rights standards, gender pay inequity and board diversity.

What were the top investments of this financial product?

As of 31/12/2025:

Security name	Weight (%)	Sector	Currency	Country

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: 2025.

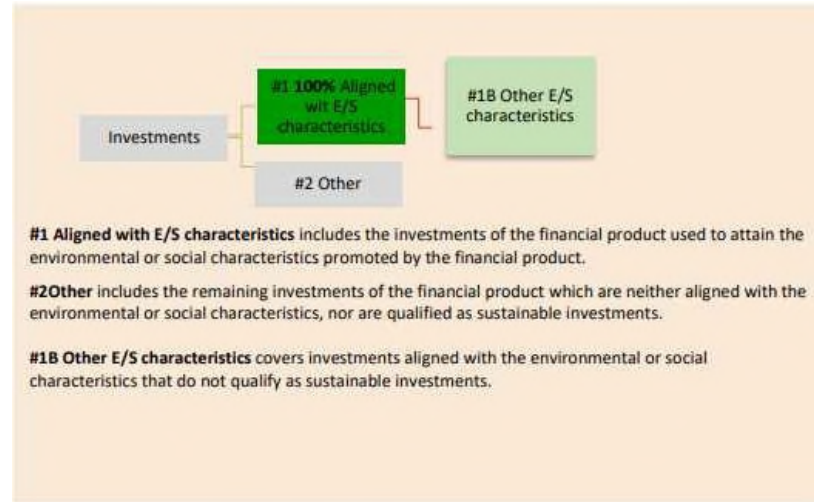

What was the proportion of sustainability-related investments?

The Product has invested in direct financial instruments of which 100% was aligned with the environmental and social characteristics that it promotes on the basis that all of the Index holdings are screened against its exclusion strategy.

What was the asset allocation?

The Product invests in direct financial instruments of which 100% was aligned with the environmental and social characteristics.

In which economic sectors were the investments made?

As of 31/12/2025 the assets were allocated to the following sectors:

Sector	Weight (%)
Communication Services	66.25
Consumer Discretionary	20
Information Technology	6.09
Other/Cash	0.16

The weights may not sum up to 100% due to rounding.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

0%. The Product did not intend to make sustainable investments with an environmental objective aligned with the EU Taxonomy during the reporting period. During the reporting period a limited amount of companies has reported on Taxonomy-alignment.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

- Yes
- In fossil gas in nuclear energy
- No

Asset allocation describes the share of investments in specific assets.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules. **Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

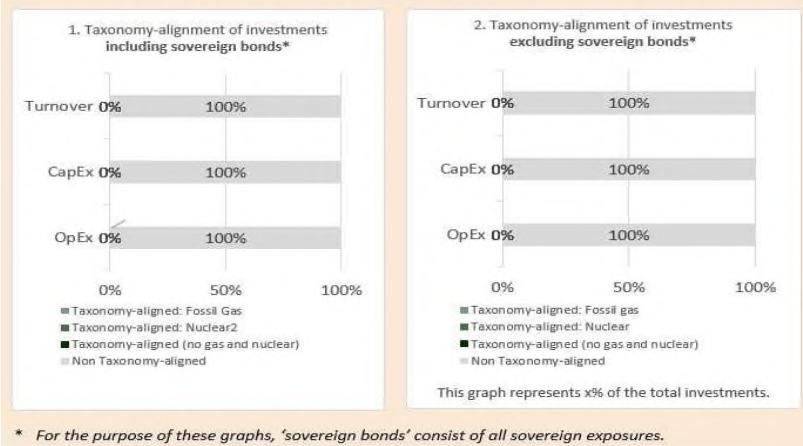

Taxonomy-aligned activities are expressed as a share of:

- turnover** reflecting the share of revenue from green activities of investee companies.
- capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- operational expenditure** (OpEx) reflecting green operational activities of investee companies.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

● **What was the share of investments made in transitional and enabling activities?**

The minimum share of investments in transitional and enabling activities is 0%.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

0%. The Product did not intend to make sustainable investments with an environmental objective aligned with the EU Taxonomy during the reporting period. During the reporting period a limited amount of companies has reported on Taxonomy-alignment.

● **What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

Not applicable. The Product did not intend to make sustainable investments with an environmental objective not aligned with the EU Taxonomy.

● **What was the share of socially sustainable investments?**

Not applicable. The Product did not intend to make socially sustainable investments.

● **What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?**

Not applicable, all investments were aligned with the environmental and social characteristics.

¹Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

Companies have been screened for compliance with the Index rules and the Index is rebalanced on a quarterly basis by the Index Provider. The Product replicates the Index based on the Index rules.

No breaches of the index have occurred.

Furthermore, the European ESG Committee has performed a review and reported on the alignment of the environmental and social characteristics of the Product.

In addition:

- The Glass Lewis ESG voting guidelines applied to this Product. Glass Lewis manages proxy voting, policy implementation, recordkeeping and reporting of voting activities.

- Glass Lewis Europe Limited has been appointed as engagement specialist for the passive equity funds managed by VanEck Asset Management B.V. The engagement provider determines the engagement approach in accordance with its engagement policy and based on its engagements' priorities.

How did this financial product perform compared to the reference benchmark?

As a passive investments strategy, the Product has replicated the reference sustainable benchmark in order to be aligned with the sustainable investment objective

● **How does the reference benchmark differ from a broad market index?**

The index differs from a generic broad market index in following ways:

- Thematic investment approach: companies that generate at least 50% (25% for current components) of their revenues from video gaming & eSports.

- ESG screenings: Companies with very severe norms violations, the ones that have greater than 0% revenue exposure to controversial weapons, or that exceed certain thresholds of revenue exposure to various sectors including but not limited to civilian firearms, tobacco, and energy extractives are not eligible for inclusion.

● **How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**

The Product aimed at investing 100% in line with its reference benchmark and will for that reason normally have very similar performance on sustainability indicators as the reference benchmark: MarketVector Global Video Gaming & eSports Screened Index. The European ESG Committee has analysed and confirmed the alignment of the reference benchmark with its promoted environmental or social characteristics.

● **How did this financial product perform compared with the reference benchmark?**

Indicator	Product: VanEck Video Gaming and eSports UCITS ETF	Reference benchmark: MarketVector Global Video Gaming & eSports Screened Index;
-----------	--	---

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

The percentage of portfolio involved in violation of the UN Global Compact, the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles for Business and Human Rights. The target is 0% at rebalancing.	0.00%	0.00%
The percentage of portfolio involved in the fossil fuels industry	0.00%	0.00%
The percentage of portfolio involved in non-renewable energy product	0.00%	0.00%

● **How did this financial product perform compared with the broad market index?**

Indicator	Product: VanEck Video Gaming and eSports UCITS ETF	Broad market index: Solactive GBS Global Markets Large & Mid Cap Index
The percentage of portfolio involved in violation of the UN Global Compact, the OECD Guideline for Multinational Enterprises and the UN Guiding Principles for Business and Human Rights	0.00%	0.22%
The percentage of portfolio involved in the fossil fuels industry	0.00%	9.88%
The percentage of portfolio involved in non-renewable energy production	0.00%	2.35%

Annex 3

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: VanEck Semiconductor UCITS ETF

Legal entity identifier: 2549005YADH8Q7K3ON79

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?	
<input checked="" type="radio"/> <input type="radio"/> Yes	<input type="radio"/> <input checked="" type="radio"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective : ___% <ul style="list-style-type: none"><input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy<input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	<input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments <ul style="list-style-type: none"><input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy<input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy<input type="checkbox"/> with a social objective
<input type="checkbox"/> It made sustainable investments with a social objective : ___%	<input checked="" type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The following environmental and social characteristics applied to the Product's investments:

1. The Product promoted the reduction of the most negative impacts on society and the environment through:
 - ⊖ Reducing exposure to very severe controversies relating to international standards on responsible business, human rights and labour rights. Minimizing exposure to controversial business activities relating to tobacco, controversial weapons, energy extractives, civilian firearms and military.
 - ⊖ Limiting exposure to carbon risk by excluding companies deriving significant (>5%) revenues from energy extractives, such as thermal coal.
2. The Glass Lewis ESG policy guidelines was applied, whereby votes were cast on sustainability matters.
3. A third-party engagement specialist - Glass Lewis Europe Limited – has been engaged for the passive equity funds managed by VanEck Asset Management B.V. The engagement provider determines the engagement approach in accordance with its engagement policy and based on its engagements' priorities.

A reference benchmark has been designated for the purpose of attaining the environmental and social characteristics promoted by the financial product.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

● **How did the sustainability indicators perform?**

The Product measured the following sustainability indicator:

Indicator	Score
The percentage of portfolio involved in violations of UN Global Compact, the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles for Business and Human Rights.	0.00%
The percentage of portfolio involved in the fossil fuels industry	0.00%
The percentage of portfolio involved in non-renewable energy production	0.00%

■ **... and compared to previous periods?**

Indicator	2025	2024	2023	2022
The percentage of portfolio involved in violations of UN Global Compact, the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles for Business and Human Rights	0.00%	0.00%	0.00%	0.00%
The percentage of portfolio involved in the fossil fuels industry	0.00%	0.00%	0.00%	0.00%
The percentage of portfolio involved in non-renewable energy production	0.00%	0.00%	0.00%	0.00%

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

This question and the corresponding questions below were not applicable as the Sub-fund did not intend to make sustainable investments during the reporting period.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

Not applicable.

— How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable.

— Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable.

How did this financial product consider principal adverse impacts on sustainability factors?

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

The Product considered the principal adverse impacts by means of screening and excluding companies with a low performance on the below subjects in the following manner:

1. Greenhouse Gas (GHG Emissions):

- Part of Norm-based research on environmental protection "Failure to mitigate climate change impacts", which comprises the Controversy Score used in the selection process. Companies with very severe controversies score were excluded from the selection process.

- Fossil Fuel/Coal exclusions - Total Maximum Percentage of Revenues is 5%: This factor provides the maximum percentage of recent-year revenues for issuer's total involvement in coal/fossil fuel, including any exposure in Production, Exploration, Distribution, and Services.

2. Biodiversity

- Part of Norm-based research on environmental protection "Failure to prevent depletion of biodiversity" and "Failure to prevent deforestation / illegal logging", which comprises the Controversy Score used in the selection process. Companies with very severe controversies score were excluded from the selection process.

3. Water

- Part of Norm-based research on environmental protection "Failure to prevent depletion of biodiversity", "Failure to prevent water pollution" and "Failure to prevent oil spill", which comprises the Controversy Score used in the selection process. Companies with very severe controversies score were excluded from the selection process.

4. Waste

- Part of Norm-based research on environmental protection "Poor waste management", "Poor nuclear safety", "Failure to prevent pollution" and "Failure to mitigate the production / distribution of hazardous substances", which comprises the Controversy Score used in the selection process. Companies with very severe controversies score were excluded from the selection process.

5. Social and employee, respect for human rights, anti-corruption and anti-bribery matters

- ISS norms based screening covers controversial practices that have adverse impacts on society and the environment in line with established expectations for Responsible Business Conduct as set forth in the core normative framework consisting of the Principles of the UN Global Compact, the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles for Business and Human Rights, all of which are embedded in the Sustainable Development Goals.

- Part of Norm-based research on Human Rights, including "Failure to conduct human rights due diligence" and "Failure to provide equal pay for work of equal value", which comprises the Controversy Score used in the selection process. Companies with very severe controversies score were excluded from the selection process.

Controversial weapons screenings are performed whereby companies with a RED exposure score in anti-personnel mines, biological and chemical weapons, cluster munitions, depleted uranium, incendiary weapons, white phosphorus and nuclear weapons are excluded from the index.

Companies for which there is no data available on one or more screening components do not constitute a violation of environmental or social objectives on that specific screening component. As of December 2024 rebalancing, no companies which were not covered by the ESG data provider, were included in the Index.

Additionally, principal adverse impacts were considered as part of the ESG tilted voting policy whereby votes were casted regarding the environment, energy efficiency, the use of renewable energy sources, enhancing the rights of workers, violation of international human rights standards, gender pay inequity and board diversity.

What were the top investments of this financial product?

As of 31/12/2025:

Security name	Weight (%)	Sector	Currency	Country
NVIDIA CORP	10.56	Information Technology	USD	US
TAIWAN SEMICONDUCTOR MANUFACTURING CO L	10.2	Information Technology	USD	TW
ASML HOLDING NV	9.95	Information Technology	USD	NL
ADVANCED MICRO DEVICES INC	9.39	Information Technology	USD	US
BROADCOM INC	8.72	Information Technology	USD	US
MICRON TECHNOLOGY INC	7.59	Information Technology	USD	US
LAM RESEARCH CORP	5.65	Information Technology	USD	US
APPLIED MATERIALS INC	5.44	Information Technology	USD	US
QUALCOMM INC	4.81	Information Technology	USD	US
INTEL CORP	4.45	Information Technology	USD	US
TEXAS INSTRUMENTS INC	4.19	Information Technology	USD	US
KLA CORP	3.83	Information Technology	USD	US
ANALOG DEVICES INC	3.53	Information Technology	USD	US
SYNOPSYS INC	2.43	Information Technology	USD	US
CADENCE DESIGN SYSTEMS INC	2.21	Information Technology	USD	US

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: 2025.

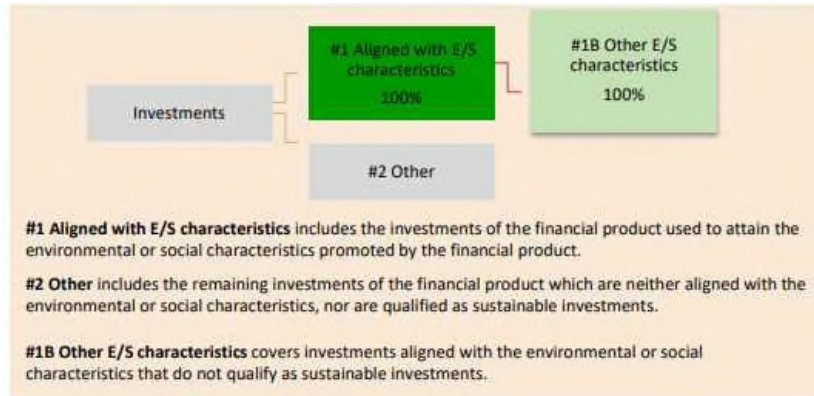

What was the proportion of sustainability-related investments?

The Product has invested in direct financial instruments of which 100% was aligned with the the environmental and social characteristics that it promotes on the basis that all of the Index holdings are screened against its exclusion strategy.

What was the asset allocation?

The Product has invested in direct financial instruments of which 100% was aligned with the promoted environmental and social characteristics.

In which economic sectors were the investments made?

As of 31/12/2025 the assets were allocated to the following sectors:

Sector	Weight (%)
Information Technology	99.97
Other/Cash	0.03

The weights may not sum up to 100% due to rounding.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

0%. The Product did not intend to make sustainable investments with an environmental objective aligned with the EU Taxonomy during the reporting period. During the reporting period a limited amount of companies has reported on Taxonomy-alignment.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

- Yes
- In fossil gas in nuclear energy
- No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

Asset allocation describes the share of investments in specific assets.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules. **Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- turnover** reflecting the share of revenue from green activities of investee companies.
- capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- operational expenditure** (OpEx) reflecting green operational activities of investee companies.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

● **What was the share of investments made in transitional and enabling activities?**

The minimum share of investments in transitional and enabling activities was 0%.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

0%. The Product did not intend to make sustainable investments with an environmental objective aligned with the EU Taxonomy during the reporting period. During the reporting period a limited amount of companies has reported on Taxonomy-alignment.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable. The Product did not intend to make sustainable investments with an environmental objective not aligned with the EU Taxonomy.

What was the share of socially sustainable investments?

Not applicable. The Product did not intend to make socially sustainable investments.

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

Not applicable, all investments were aligned with the environmental and social characteristics.

¹Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

As a passive investments strategy, the Product is tracking the MarketVector US Listed Semiconductor 10% Capped Screened Index, which incorporates relevant ESG screenings in the selection process, and thereby ensures the compliance with the Environmental/Social characteristics.

The European ESG Committee has analysed and confirmed and reported on the the environmental and social characteristics of the Product.

No breaches of the index have occurred.

In addition:

- The Glass Lewis ESG voting guidelines applied to this Product. Glass Lewis manages proxy voting, policy implementation, recordkeeping and reporting of voting activities.
- Glass Lewis Europe Limited has been appointed as engagement specialist for the passive equity funds managed by VanEck Asset Management B.V. The engagement provider determines the engagement approach in accordance with its engagement policy and based on its engagements' priorities.

How did this financial product perform compared to the reference benchmark?

● ***How does the reference benchmark differ from a broad market index?***

The Index differs from a generic broad market index in following ways:

- Thematic investment approach: companies that generate at least 50% of their revenues from semiconductors and are engaged primarily in the production of semiconductors and semiconductor equipment;
- ESG screenings: companies with very severe norms violations, the ones that have greater than 0% revenue exposure to controversial weapons, or that exceed certain thresholds of revenue exposure to various sectors including but not limited to civilian firearms, tobacco, and energy extractives are not eligible for inclusion.

● ***How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?***

The Product invested 100% in line with its reference benchmark and will for that reason normally have very similar performance on sustainability indicators as the reference benchmark. The European ESG Committee has analysed and confirmed the alignment of the reference benchmark with the environmental and social characteristics it intends to promote.

● ***How did this financial product perform compared with the reference benchmark?***

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Indicator	Product: VanEck Semiconductors UCITS ETF	Reference benchmark: MarketVector US Listed Semiconductor 10% Capped Screened Index
The percentage of portfolio involved in violations of UN Global Compact, the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles	0.00%	0.00%
The percentage of portfolio involved in the fossil fuels industry	0.00%	0.00%
The percentage of portfolio involved in non-renewable energy production	0.00%	0.00%

● **How did this financial product perform compared with the broad market index?**

Indicator	Product: VanEck Semiconductors UCITS ETF	Broad market index: Solactive GBS Global Markets Large & Mid Cap Index
The percentage of portfolio involved in violations of UN Global Compact, the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles	0.00%	0.22%
The percentage of portfolio involved in the fossil fuels industry	0.00%	9.88%
The percentage of portfolio involved in non-renewable energy production	0.00%	2.35%

Annex 4

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Periodic disclosure for the financial products referred to in Article 9, paragraphs 1 to 4a, of Regulation (EU) 2019/2088 and Article 5, first paragraph, of Regulation (EU) 2020/852

Product name: VanEck Hydrogen Economy UCITS ETF

Legal entity identifier: 254900DO5110DY0JC821

Sustainable investment objective

Did this financial product have a sustainable investment objective?	
<input checked="" type="radio"/> <input checked="" type="radio"/> <input checked="" type="checkbox"/> Yes	<input type="radio"/> <input type="radio"/> <input type="checkbox"/> No
<input checked="" type="checkbox"/> It made sustainable investments with an environmental objective: 100% <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy 	<input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective
<input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

To what extent was the sustainable investment objective of this financial product met?

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

The sustainable investment objective of the Product during the reference period was to support enhancing and developing sustainable forms of energy generation and storage, because the Product invests in companies that generate part of their revenues from hydrogen projects or projects that have the potential to generate at least part of their revenues from the hydrogen industry when developed.

Companies were included that have significant (>50%) revenue exposure to hydrogen, fuel cells or technologies that were directly connected to the hydrogen economy. In case it was not possible to do so without severely compromising Product's liquidity, tradability and representativeness, the Product also considered companies with at least part of their revenues from fuel cells or industrial gases projects or projects that have the potential to generate at least part of their revenues from the fuel cell industry or the industrial gases industry. Such companies could potentially enable Hydrogen Economy by either providing crucial supplies or creating infrastructural solutions that could be repurposed for hydrogen-related usage.

A percentage of the portfolio was involved in the fossil fuel industry. This is due to the early development stages of the global hydrogen segment. The strategy targets companies with significant proportion of their revenues from hydrogen projects or projects that have the potential to generate significant revenues from the hydrogen industry when developed. The Product also considers companies that participate in fuel cells or industrial gases projects. Thanks to their scale, such companies can provide R&D funding and expertise crucial to the development of hydrogen economy, as well as potentially repurpose their facilities for hydrogen generation and distribution. Some of those companies would inevitably be involved in the fossil fuels industry.

The Product's total contribution to these sub-themes has been calculated by measuring the net weighted percentages of companies' revenues derived from the themes mentioned above.

The Glass Lewis ESG policy guidelines was applied, whereby votes were cast on sustainability matters.

A third-party engagement specialist - Glass Lewis Europe Limited – has been engaged for the passive equity funds managed by VanEck Asset Management B.V. The engagement provider determines the engagement approach in accordance with its engagement policy and based on its engagements' priorities.

A reference benchmark, MVIS® Global Hydrogen Economy ESG Index, has been designated for the purpose of attaining the sustainable investment objective. To measure the attainment of the Product's sustainable investment objective, the sustainability indicators included in the next question were calculated for the Product.

● **How did the sustainability indicators perform?**

The sustainability Indicators performed as below:

Indicator	Score
The weighted percentage of investee companies' revenues derived from hydrogen/fuel cell projects or industrial gases.	47.81% (Revenues percentages are provided in ranges as following: 0-25%, 25-50% and 50+%. The lower bound of the range is taken to calculate the weighted average revenue percentage.)
The percentage of portfolio involved in violations of UN Global Compact, the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles for Business and Human Rights. The target is 0% at rebalancing.	0.00%
The percentage of portfolio involved in the fossil fuels industry	16.92%
The percentage of portfolio involved in non-renewable energy production	0.00%

● **... and compared to previous periods?**

Indicator	2025	2024	2023	2022
The weighted percentage of investee companies' revenues derived from hydrogen/fuel cell projects or industrial gases.	47.81%	47.87%	42.37%	42.37%
The percentage of portfolio involved in violations of UN Global Compact, the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles for Business and Human Rights. The target is 0% at rebalancing.	0.00%	0.00%	0.00%	0.00%
The percentage of portfolio involved in the fossil fuels industry	16.92%	16.35%	7.28%	8.6%
The percentage of portfolio involved in non-renewable energy production	0.00%	0.00%	0.00%	0.00%

● **How did the sustainable investments not cause significant harm to any sustainable investment objective?**

The Product has not invested in companies which cause significant harm to any other environmental or social sustainable investment objective by applied screenings.

The screenings consist of various components:

1. Controversial sector involvement, whereby companies were screened for involvement in:
 - ⊖ Controversial weapons: a 0% revenue threshold is applied.
 - ⊖ Tobacco, thermal coal, fossil fuels, oil sands, nuclear energy, civilian firearms, military and gambling: a 5% revenue threshold is applied.
2. Norm-Based Research, whereby companies were screened for violations of international standards concerning various norms such as human rights, labor rights, environmental risk and bribery.

Companies for which there is no data available on one or more screening components do not constitute a violation of environmental or social objectives on that specific screening component. As of December 2024 rebalancing, no companies which were not covered by the ESG data provider, were included in the Index.

— — — ***How were the indicators for adverse impacts on sustainability factors taken into account?***

Indicators for adverse impacts on sustainability factors were taken into account based on the Product's thematic investment policy focusing on sustainable forms of energy generation, adverse impacts on sustainability factors such as GHG emissions, carbon footprint, GHG intensity are limited and therefore implicitly taken into account.

In addition, the Product considered the following indicators for principal adverse impacts:

Greenhouse Gas (GHG Emissions):

- — — — — As part of Norm-based research companies are assessed relating to environmental protection based on the screening on "Failure to mitigate climate change impacts"
 - — — — Fossil Fuel/Coal - Total Maximum Percentage of Revenues is 5%: This factor provides the maximum percentage of recent-year revenues for the issuer's total involvement in coal/fossil fuel, including any exposure in Production, Exploration, Distribution, and Services.
 - — — — Companies that are eligible for the index inclusion under sub-theme F, must display a positive environmental impact by having at least one score larger than zero, and the other score at least zero, related to the Contribution and Achievement of Sustainable Agriculture and Forestry or Agriculture Climate Change Contribution.
- — — — Biodiversity
 - — — — Part of Norm-based research on environmental protection "Failure to prevent depletion of biodiversity" and "Failure to prevent deforestation / illegal logging"
- — — — Water
 - — — — Part of Norm-based research on environmental protection "Failure to prevent depletion of biodiversity", "Failure to prevent water pollution" and "Failure to prevent oil spill"
- — — — Waste
 - — — — Part of Norm-based research on environmental protection "Poor waste management", "Poor nuclear safety", "Failure to prevent pollution" and "Failure to mitigate the production / distribution of hazardous substances"
- — — — Social and employee, respect for human rights, anti-corruption and anti-bribery matters
 - — — — Norm-based screening covers controversial practices that have adverse impacts on society and the environment in line with established expectations for Responsible Business Conduct as set forth in the core normative framework consisting of the Principles of the UN Global Compact, the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles for Business and Human Rights, all of which are embedded in the Sustainable Development Goals.
 - — — — Part of Norm-based research on Human Rights, including "Failure to conduct human rights due diligence" and "Failure to provide equal pay for work of equal value"
 - — — — Controversial weapons screenings are performed whereby companies with a RED exposure score in anti-personnel mines, biological and chemical weapons, cluster munitions, depleted uranium, incendiary weapons, white phosphorus and nuclear weapons are excluded from the index.

All companies included in the Index since the Product launch, were covered by the ESG data provider.

— — — **Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:**

Yes, norm-based research was conducted, whereby companies are screened for violations of international standards concerning various norms such as human rights, labor rights, environmental risk and bribery. Norm-based Research framework consists of research on the level of adherence of a company to the Principles of the UN Global Compact, the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles for Business and Human Rights and is embedded in the Sustainable Development Goals.

Violations of these standards were measured by reference to the Case Severity Indicator. The Case Severity Indicator is a measure of the reported risk or impact on society or the environment and takes into account the degree of corporate involvement. The values which refer to severity are indicated in the Normbased Research Methodology as 'Very Severe', 'Severe', 'Moderate' and 'Potential'. The 'Very Severe' value identified instances where the company is reportedly causing/contributing to critical adverse impact and is excluded from the Index.

Furthermore, the overall Norm-based research Score ("NBSOverallScore") assigns a 1-10 rating score to an issuer based on the issuer's link with any violations of international standards. The Index Provider excluded from the investable universe the companies which were assessed with a score of 9 or 10.

How did this financial product consider principal adverse impacts on sustainability factors?

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

This financial product considered principal adverse impacts on sustainability factors as exposure to certain environmental adverse impacts was minimized due to the thematic investment policy of the Product, whereby specific emphasis was placed on companies which contribute to the development of hydrogen-based energy generation. In addition, by means of Norm-based research and Controversial sector involvement screenings, the Product took the principal adverse impacts on sustainability factors relating to greenhouse gas emissions, biodiversity, water, waste, social and employee, respect for human rights, anti-corruption and anti-bribery matters into account.

For detailed information, please refer to the questions *"How were the indicators for adverse impacts on sustainability factors taken into account?"* and *"How did sustainable investments not cause significant harm to any environmental or social sustainable investment objective?"*

Additionally, principal adverse impacts were considered as part of the Glass Lewis ESG tilted voting policy, whereby votes were casted regarding the environment, energy efficiency, the use of renewable energy sources, enhancing the rights of workers, violation of international human rights standards, gender pay inequity and board diversity.

What were the top investments of this financial product?

As of 31/12/2025:

Security name	Weight (%)	Sector	Currency	Country
PLUG POWER INC	9.11	Industrials	USD	US
LINDE PLC	9.08	Materials	USD	GB
BLOOM ENERGY CORP	8.97	Industrials	USD	US
mitsubishi chemical holdings corp	8.75	Materials	JPY	JP
AIR PRODUCTS AND CHEMICALS INC	8.73	Materials	USD	US
AIR LIQUIDE SA	8.52	Materials	EUR	FR
DOOSAN FUEL CELL CO LTD	8.17	Industrials	KRW	KR
NIPPON SANSO HOLDINGS CORP	8.16	Materials	JPY	JP
BALLARD POWER SYSTEMS INC	6.52	Industrials	USD	CA
ITM POWER PLC	3.74	Industrials	GBP	GB
NEL ASA	3.72	Industrials	NOK	NO
CERES POWER HOLDINGS PLC	3.41	Industrials	GBP	GB
THYSSENKRUPP NUCERA AG & CO KGAA	2.38	Industrials	EUR	DE
SHANGHAI REFIRE GROUP LTD	2.31	Industrials	HKD	CN
JIANGSU GUOFU HYDROGEN ENERGY EQUIPMENT	2.18	Industrials	HKD	CN

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: 2025.

What was the proportion of sustainability-related investments?

Asset allocation describes the share of investments in specific assets.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules. **Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

What was the asset allocation?

The Product invested in direct financial instruments of which 100% was sustainable. All of these sustainable investments were environmentally sustainable.

In which economic sectors were the investments made?

As of 31/12/2025 the assets were allocated to the following sectors:

Sector Weighting	% of Net Assets
Industrials	55.56
Materials	43.24
Consumer Discretionary	1.01
Other/Cash	0.2

The weights may not sum up to 100% due to rounding.

To what extent were sustainable investments with an environmental objective aligned with the EU Taxonomy?

0%. While the Product had a sustainable investment objective within the meaning of Article 9 of the SFDR and invests in sustainable food and agriculture, thereby aiming to enhance the development of sustainable agricultural services and food products, the Product did not intend to make sustainable investments with an environmental objective aligned with the EU Taxonomy during the reporting period. During the reporting period a limited amount of companies has reported on Taxonomy-alignment.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

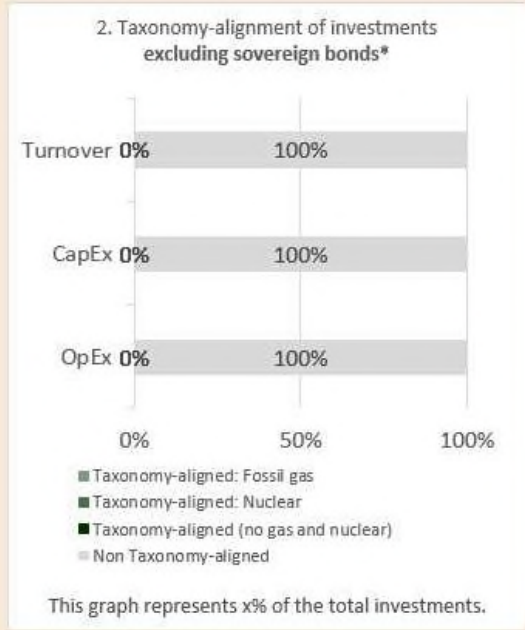

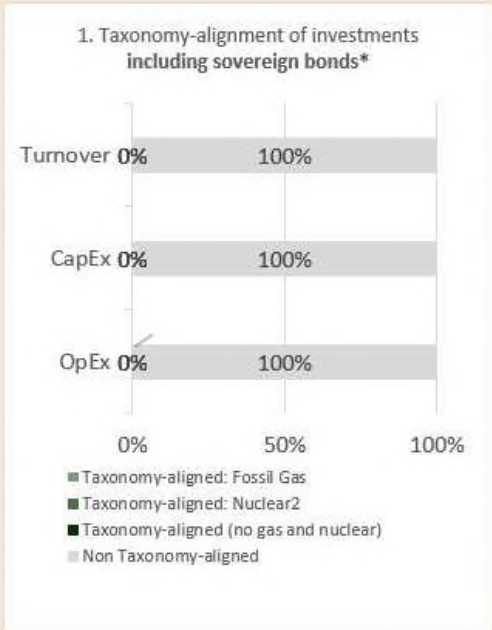

- Yes
- In fossil gas in nuclear energy
- No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy.

are sustainable investments with an environmental objective that do not take into account the criteria for environmentally sustainable economic activities under the EU Taxonomy.

As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

● **What was the share of investments made in transitional and enabling activities?**

The minimum share of investments in transitional and enabling activities was 0%.

● **How did the percentage of investments aligned with the EU Taxonomy compare with previous reference periods?**

0%. The Product did not intend to make sustainable investments with an environmental objective aligned with the EU Taxonomy during the reporting period. During the reporting period a limited amount of companies has reported on Taxonomy-alignment.

What was the share of sustainable investments with an environmental objective that were not aligned with the EU Taxonomy?

100% of the Product's investments was sustainable with an environmental objective that were not aligned with the EU Taxonomy. This were determined based on the (potential) revenue streams of companies related to hydrogen technology and the criteria defined for Norm-based research and Controversial sector involvement screenings to ensure that the companies in the portfolio do no significant harm to other sustainability related objectives. The Product's investments were considered to be sustainable investments with an environmental objective, but were not aligned with the expansive and strict criteria which were defined for hydrogen in the EU Taxonomy.

What was the share of socially sustainable investments?

Not applicable as the Product was not pursuing a social objective.

What investments were included under "not sustainable", what was their purpose and were there any minimum environmental or social safeguards? ere the environmental and/or social characteristics promoted by this financial product met?

Not applicable, all investments were sustainable.

¹Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

What actions have been taken to attain the sustainable investment objective during the reference period?

Companies have been screened for compliance with the Index rules and the Index is rebalanced on a quarterly basis by the Index Provider. The Product replicates the Index based on the Index rules during the reporting period.

Furthermore, the European ESG Committee has performed a review and reported on the alignment of the sustainable investment objective of the Product.

In addition:

- The Glass Lewis ESG voting guidelines applied to this Product. Glass Lewis manages proxy voting, policy implementation, recordkeeping and reporting of voting activities.
- Glass Lewis Europe Limited has been appointed as engagement specialist for the passive equity funds managed by VanEck Asset Management B.V. The engagement provider determines the engagement approach in accordance with its engagement policy and based on its engagements’ priorities.

How did this financial product perform compared to the reference sustainable benchmark?

As a passive investments strategy, the Product has replicated the reference sustainable benchmark in order to be aligned with the sustainable investment objective.

How did the reference benchmark differ from a broad market index?

The reference benchmark differs from a generic broad market index in following ways:

- Thematic investment approach: companies that had significant (>50%) revenue exposure to hydrogen, fuel cells or technologies that were directly connected to the hydrogen economy are eligible for inclusion. In case it was not possible to do so without severely compromising Product’s liquidity, tradability and representativeness, the Product also considers companies with at least part of their revenues from fuel cells or industrial gases projects or projects that had the potential to generate at least part of their revenues from the fuel cell industry or the industrial gases industry. Such companies could potentially enable Hydrogen Economy by either providing crucial supplies or creating infrastructural solutions that could be repurposed for hydrogen-related usage.

- ESG screenings: companies with very severe social norms violations, the ones that had greater than 0% revenue exposure to controversial weapons, or that exceed certain thresholds of revenue exposure to various sectors including but not limited to civilian firearms, tobacco, and energy extractives are not eligible for inclusion.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

- **How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**

The Product invested 100% in line with the reference benchmarks and had for that reason the same score on the sustainability indicators as the benchmarks. The European ESG Committee has analysed and confirmed the alignment of the reference benchmark with the Product's sustainable investment objective.

- **How did this financial product perform compared with the reference benchmark?**

Indicator	Product: VanEck Hydrogen Economy UCITS ETF	Reference benchmark: MVIS® Global Hydrogen Economy ESG Index
The weighted percentage of investee companies' revenues derived from hydrogen/fuel cell projects or industrial gases.	47.81%	47.81%
The percentage of portfolio involved in violations of UN Global Compact, the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles for Business and Human Rights. The target is 0% at rebalancing.	0.00%	0.00%
The percentage of portfolio involved in the fossil fuels industry	16.92%	16.95%
The percentage of portfolio involved in non-renewable energy production	0.00%	0.00%

- **How did this financial product perform compared with the broad market index?**

Indicator	Product: VanEck Hydrogen Economy UCITS ETF	Broad market index: Solactive GBS Global Markets Large & Mid Cap Index

The weighted percentage of investee companies' revenues derived from hydrogen/fuel cell projects or industrial gases.	47.81%	N/A (Data not available for all companies in the index)
The percentage of portfolio involved in violations of UN Global Compact, the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles for Business and Human Rights. The target is 0% at rebalancing.	0.00%	0.22%
The percentage of portfolio involved in the fossil fuels industry	16.92%	9.88%
The percentage of portfolio involved in non-renewable energy production	0.00%	2.35%

Annex 5

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: VanEck New China UCITS ETF

Legal entity identifier: 25490078IX1AAY2DHK87

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?	
Yes	No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy 	<input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective
<input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input checked="" type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The following environmental and social characteristics applied to the Product's investments:

- The Product promoted the reduction of the most negative impacts on society and the environment through:
 - ☞ Reducing exposure to controversies, by using OWL KPIs "Diversity & Rights", "Human Rights", "Management Ethics" and "Disclosure & Accountability" as part of the OWL Analytics consensus ESG score used in the index selection process.
 - ☞ Limiting exposure to carbon risk, by using OWL KPIs "Pollution Prevention" and "Resource Efficiency" as part of the OWL Analytics consensus ESG score used in the index selection process.
- The Glass Lewis ESG policy guidelines was applied, whereby votes were cast on sustainability matters.
- A third-party engagement specialist - Glass Lewis Europe Limited – has been engaged for the passive equity funds managed by VanEck Asset Management B.V. The engagement provider determines the engagement approach in accordance with its engagement policy and based on its engagements' priorities.

The performance of the Product's environmental and social characteristics has been measured with the sustainability indicators included in the next question.

A reference benchmark has been designated for the purpose of attaining the environmental and social characteristics promoted by the financial product. Compared to a non-ESG fund with similar exposure, this Product applies mandatory Environmental and Social factors and limits. These are corresponding to the Principle Adverse Impacts specified below.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

How did the sustainability indicators perform?

During the reporting period, the SFDR precontractual disclosure template was not yet available and applicable for this Product. Therefore, the sustainability indicators mentioned therein were not yet applicable as well.

Consequently, the Product measured the following sustainability indicator:

Indicator	Score
Total GHG Emissions (Scope 1+2+3) per Mio EUR Enterprise Value	911.18

... and compared to previous periods?

Indicator	2025	2024	2023	2022
Total GHG Emissions (Scope 1+2+3) per Mio EUR Enterprise Value	911.18	590.59	382.57	188.75

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

This question and the related questions below were not applicable as the Product did not intend to make sustainable investments during the reporting period.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

Not applicable.

How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable.

The Product considered the following principal adverse impacts on sustainability:

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

1. Greenhouse Gas (GHG Emissions):
 - Part of ESG score screening via OWL KPIs "Pollution Prevention" (including Carbon Gas Pollutant reporting, Emissions Reduction Actions and Policies) and "Resource Efficiency" (including Carbon-based Energy Use, Carbon Based Energy Productivity)
2. Biodiversity
 - Part of ESG score screening via OWL KPI "Resource Efficiency" (Biodiversity Controversies)
3. Water
 - Part of ESG score screening via OWL KPI "Resource Efficiency" (Water Use, Water Efficiency and Water Reduction Performance)
4. Waste
 - Part of ESG score screening via OWL KPIs "Pollution Prevention" (Resource Reduction Policies) and "Resource Efficiency" (including Waste Reduction, Resource Recycling)
5. Social and employee, respect for human rights, anti-corruption and anti-bribery matters
 - ESG score includes ratings for controversial practices that have adverse impacts on society and the environment in line with established expectations for Responsible Business Conduct as set forth in the core normative framework consisting of the Principles of the UN Global Compact, the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles for Business and Human Rights, all of which are embedded in the Sustainable Development Goals.
 - Part of the ESG score screening via OWL KPIs "Diversity & Rights", "Human Rights", "Management Ethics" and "Disclosure & Accountability".

Additionally, principal adverse impacts are considered as part of the Glass Lewis ESG tilted voting policy, whereby votes are casted regard the environment, energy efficiency, the use of renewable energy sources, enhancing the rights of workers, violation of international human rights standards, gender pay inequity and board diversity.

What were the top investments of this financial product?

As of 31/12/2025:

Security name	Weight (%)	Sector	Currency	Country
ZHONGJI INNOLIGHT CO LTD	1.63	Information Technology	CNY	CN
SUNGROW POWER SUPPLY CO LTD	1.38	Industrials	CNY	CN
SHENNAN CIRCUITS CO LTD	1.31	Information Technology	CNY	CN
ATRENEW INC	1.3	Consumer Discretionary	USD	CN
HISENSE VISUAL TECHNOLOGY CO LTD	1.22	Consumer Discretionary	CNY	CN

NEW HOPE DAIRY CO LTD	1.13	Consumer Staples	CNY	CN

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: 2025.

What was the proportion of sustainability-related investments?

The Product has invested in direct financial instruments of which 100% was aligned with the environmental and social characteristics that it promotes on the basis that all of the Index holdings are screened against its exclusion strategy.

What was the asset allocation?

The Product has invested in direct financial instruments of which 100% was aligned with the promoted environmental and social characteristics.

In which economic sectors were the investments made?

As of 31/12/2025 the assets were allocated to the following sectors:

Sector	Weight (%)
Information Technology	18.24
Industrials	4.21
Consumer Discretionary	22.28
Communication Services	10.41
Health Care	21.31
Consumer Staples	19.45
Materials	2.08
Financials	1.91
Other/Cash	0.12

The weights may not sum up to 100% due to rounding.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

0%. The Product did not intend to make sustainable investments with an environmental objective aligned with the EU Taxonomy during the reporting period. During the reporting period a limited amount of companies has reported on Taxonomy-alignment.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

- Yes
- In fossil gas in nuclear energy

Asset allocation describes the share of investments in specific assets.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

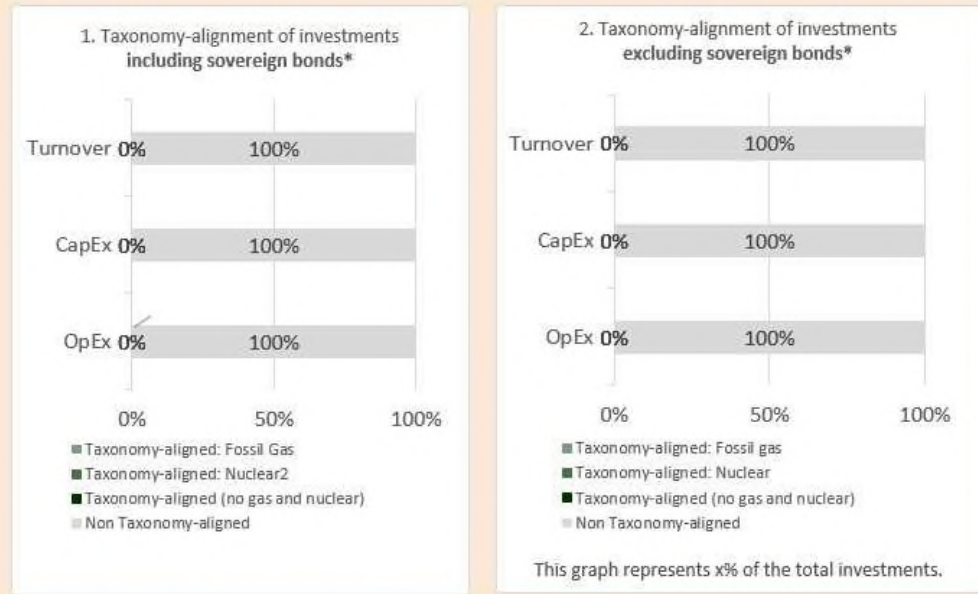

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

are sustainable investments with an environmental objective that **do not**

take into account the criteria for environmentally sustainable economic activities under Regulation (EU) 2020/852.

 No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

 **What was the share of investments made in transitional and enabling activities?**

The minimum share of investments in transitional and enabling activities was 0%.

 **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

0%. The Product did not intend to make sustainable investments with an environmental objective aligned with the EU Taxonomy during the reporting period. During the reporting period a limited amount of companies has reported on Taxonomy-alignment.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable. The Product did not intend to make sustainable investments with an environmental objective not aligned with the EU Taxonomy.

What was the share of socially sustainable investments?

Not applicable. The Product did not intend to make socially sustainable investments.

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

Not applicable, all investments were aligned with the environmental and social characteristics.

¹Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

As a passive investments strategy, during the reporting period the Product has tracked the MarketGrader New China Screened Index. Companies have been screened for compliance with the Index rules and the Index is rebalanced on a semi annual basis by the Index Provider. The Product replicates the Index based on the Index rules.

No breaches of the index have occurred.

Furthermore, the European ESG Committee has performed a review and reported on the alignment of the environmental and social characteristics of the Product.

In addition:

- The Glass Lewis ESG voting guidelines applied to this Product. Glass Lewis manages proxy voting, policy implementation, recordkeeping and reporting of voting activities.

- Glass Lewis Europe Limited has been appointed as engagement specialist for the passive equity funds managed by VanEck Asset Management B.V. The engagement provider determines the engagement approach in accordance with its engagement policy and based on its engagements' priorities.

■ **How does the reference benchmark differ from a broad market index?**

The MarketGrader New China Screened Index differs from a broad market index by offering exposure to the Chinese economy. In particular, the fund invests in targeted sectors that are expected to benefit from trends like ageing population, increasing adoption of technology and a rising upper middle class.

■ **How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**

The product invested 100% in line with the reference benchmarks and had for that reason the same score on the sustainability indicators as the benchmarks. The European ESG Committee has analysed and confirmed the alignment of the reference benchmark with the environmental and social characteristics.

● **How did this financial product perform compared with the reference benchmark?**

Indicator	Product: VanEck New China UCITS ETF	Reference benchmark: MarketGrader New China Screened Index
Total GHG Emissions (Scope 1+2+3) per Mio EUR Enterprise Value	911.18	913.63

● **How did this financial product perform compared with the broad market index?**

Indicator	Product: VanEck New China UCITS ETF	Broad market index: Solactive GBS China Large & Mid Cap Index
Total GHG Emissions (Scope 1+2+3) per Mio EUR Enterprise Value	911.18	690.79

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Annex 6

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: VanEck Space Innovators UCITS ETF

Legal entity identifier: 254900JLBZ0X9ALOJI86

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?	
<input checked="" type="radio"/> <input type="radio"/> Yes	<input checked="" type="radio"/> <input type="radio"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective : ___% <ul style="list-style-type: none"><input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy<input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	<input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments <ul style="list-style-type: none"><input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy<input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy<input type="checkbox"/> with a social objective
<input type="checkbox"/> It made sustainable investments with a social objective : ___%	<input checked="" type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The following environmental and social characteristics applied to the Product's investments:

1. The Product promoted the reduction of the most negative impacts on society and the environment through:
 - ⊕ Minimizing exposure to very severe controversies relating to international standards on responsible business, human rights and labour rights is reduced
 - ⊕ Exposure to controversial business activities relating to tobacco, controversial weapons, energy extractives and civilian firearms.
 - ⊕ Limiting exposure to carbon risk, by excluding companies deriving significant (>5%) revenues from energy extractives, such as thermal coal.
2. The Glass Lewis ESG policy guidelines was applied, whereby votes were cast on sustainability matters.
3. A third-party engagement specialist - Glass Lewis Europe Limited – has been engaged for the passive equity funds managed by VanEck Asset Management B.V. The engagement provider determines the engagement approach in accordance with its engagement policy and based on its engagements' priorities.

A reference benchmark, MarketVector Global Space Industry Screened Index, has been designated for the purpose of attaining the environmental and social characteristics promoted by the financial product.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

● **How did the sustainability indicators perform?**

The sustainability Indicators performed as below:

Indicator	Score
The percentage of portfolio involved in violation of the UN Global Compact, the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles for Business and Human Rights	0.00%
The percentage of portfolio involved in the fossil fuels industry	0.00%
The percentage of portfolio involved in non-renewable energy production	0.00%

■ **... and compared to previous periods?**

Indicator	2025	2024	2023	2022
The percentage of portfolio involved in violations of UN Global Compact, the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles for Business and Human Rights	0.00%	0.00%	0.00%	0.00%
The percentage of portfolio involved in the fossil fuels industry	0.00%	0.00%	0.00%	0.00%
The percentage of portfolio involved in non-renewable energy production	0.00%	0.00%	0.00%	0.00%

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

This question and the corresponding questions below were not applicable as the Product did not intend to make sustainable investments during the reporting period.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

Not applicable.

— How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable.

— Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable.

How did this financial product consider principal adverse impacts on sustainability factors?

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

The Product considered the following principal adverse impacts on sustainability factors:

1. Greenhouse Gas (GHG Emissions):
 - Part of Norm-based research on environmental protection "Failure to mitigate climate change impacts"
 - Fossil Fuel/Coal exclusions - Total Maximum Percentage of Revenues is 5%: This factor provides the maximum percentage of recent-year revenues for issuer's total involvement in coal/fossil fuel, including any exposure in Production, Exploration, Distribution, and Services.
2. Biodiversity
 - Part of Norm-based research on environmental protection "Failure to prevent depletion of biodiversity" and "Failure to prevent deforestation / illegal logging"
3. Water
 - Part of Norm-based research on environmental protection "Failure to prevent depletion of biodiversity", "Failure to prevent water pollution" and "Failure to prevent oil spill"
4. Waste - Part of Norm-based research on environmental protection "Poor waste management", "Poor nuclear safety", "Failure to prevent pollution" and "Failure to mitigate the production / distribution of hazardous substances"
5. Social and employee, respect for human rights, anti-corruption and anti-bribery matters
 - ISS norms based screening covers controversial practices that have adverse impacts on society and the environment in line with established expectations for Responsible Business Conduct as set forth in the core normative framework consisting of the Principles of the UN Global Compact, the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles for Business and Human Rights, all of which are embedded in the Sustainable Development Goals.
 - Part of Norm-based research on Human Rights, including "Failure to conduct human rights due diligence" and "Failure to provide equal pay for work of equal value"
 - Controversial weapons screenings are performed whereby companies with a RED exposure score in anti-personnel mines, biological and chemical weapons, cluster munitions, depleted uranium, incendiary weapons, white phosphorus and nuclear weapons are excluded from the index.

Additionally, principal adverse impacts are considered as part of the Glass Lewis ESG tilted voting policy, whereby casted votes regard the environment, energy efficiency, the use of renewable energy sources, enhancing the rights of workers, violation of international human rights standards, gender pay inequity and board diversity.

What were the top investments of this financial product?

As of 31/12/2025:

Security name	Weight (%)	Sector	Currency	Country
ROCKET LAB CORP	9.29	Industrials	USD	US
PLANET LABS PBC	8.03	Industrials	USD	US
AST SPACEMOBILE INC	7.04	Communication Services	USD	US
ECHOSTAR CORP	7.01	Communication Services	USD	US

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: 2025.

What was the proportion of sustainability-related investments?

The Product has invested in direct financial instruments of which 100% was aligned with the environmental and social characteristics that it promotes on the basis that all of the Index holdings are screened against its exclusion strategy.

What was the asset allocation?

The Product has invested in direct financial instruments of which 100% was aligned with the promoted environmental and social characteristics.

In which economic sectors were the investments made?

As of 31/12/2025 the assets were allocated to the following sectors:

Sector	Weight (%)
Industrials	53.71
Communication Services	31.98
Information Technology	14.3
Other/Cash	0.01

The weights may not sum up to 100% due to rounding.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

0%. The Product did not intend to make sustainable investments with an environmental objective aligned with the EU Taxonomy during the reporting period. During the reporting period a limited amount of companies has reported on Taxonomy-alignment.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

Asset allocation describes the share of investments in specific assets.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules. **Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective. **Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

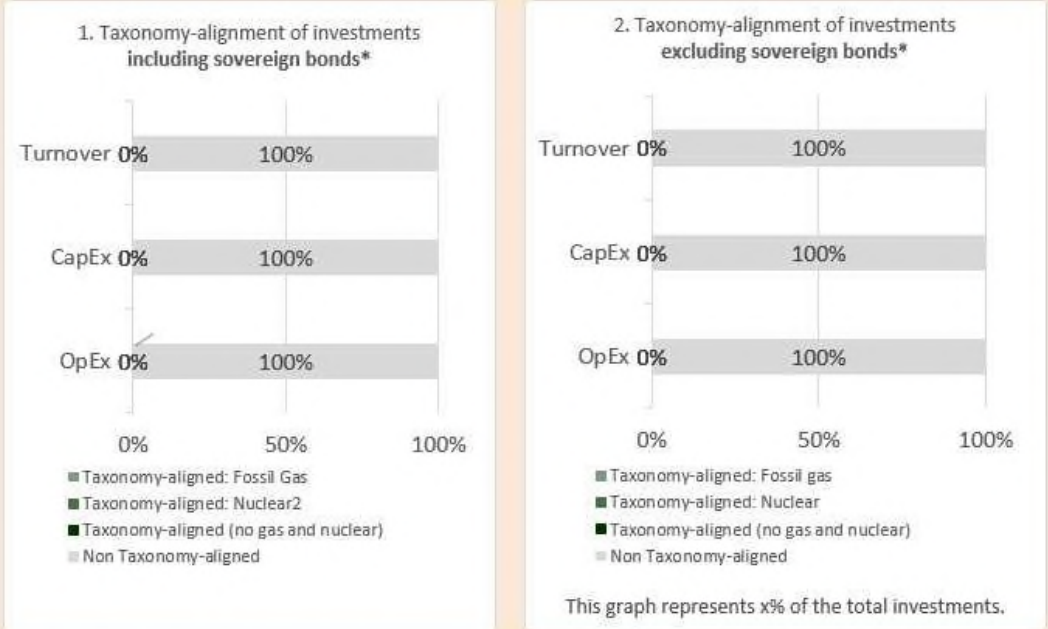

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

are sustainable investments with an environmental objective that do not take into account the criteria for environmentally sustainable economic activities under Regulation (EU) 2020/852.

Yes
 In fossil gas in nuclear energy
 No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

What was the share of investments made in transitional and enabling activities?

The minimum share of investments in transitional and enabling activities was 0%.

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

0%. The Product did not intend to make sustainable investments with an environmental objective aligned with the EU Taxonomy during the reporting period. During the reporting period a limited amount of companies has reported on Taxonomy-alignment.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable. The Product did not intend to make sustainable investments with an environmental objective not aligned with the EU Taxonomy.

What was the share of socially sustainable investments?

Not applicable. The Product did not intend to make socially sustainable investments.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

Not applicable, all investments were aligned with the environmental and social characteristics.

¹Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

As a passive investments strategy, during the reporting period the Product has tracked the MarketVector Global Space Industry Screened Index. Companies have been screened for compliance with the Index rules and the Index is rebalanced on a quarterly basis by the Index Provider. The Product replicated the Index based on the Index rules.

Furthermore, the European ESG Committee has performed a review and reported on the alignment of the the environmental and social characteristics of the Product.

No breaches of the index have occurred.

In addition:

- The Glass Lewis ESG voting guidelines applied to this Product. Glass Lewis manages proxy voting, policy implementation, recordkeeping and reporting of voting activities.

- Glass Lewis Europe Limited has been appointed as engagement specialist for the passive equity funds managed by VanEck Asset Management B.V. The engagement provider determines the engagement approach in accordance with its engagement policy and based on its engagements’ priorities.

How did this financial product perform compared to the reference benchmark?

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

● **How does the reference benchmark differ from a broad market index?**

The index differs from a generic broad market index in following ways:

- Thematic investment approach: companies that generate at least 50% (25% for current components) of their revenues from the following themes:
 - ⊕ Space Exploration (including design of commercial spacecrafts, space tourism, scientific research, or delivery of equipment or cargo to space);
 - ⊕ Rockets and Propulsion Systems (including products and services directly related to or to space vehicle systems or equipment, space payload, or other materials and equipment used to build spacecrafts or other vehicles used in space);
 - ⊕ Satellite Equipment and Communications Solutions (including systems and software for satellite-based communication but excluding Pay-TV and communications service providers);
 - ⊕ Other Satellite Equipment (including satellite equipment, systems or software for areas such as research, earth observation, space imaging or GPS).
- ESG Screening: companies with severe and very severe norms violations, the ones that have greater than 0% revenue exposure to controversial weapons, or that exceed certain thresholds of revenue exposure to various sectors including but not limited to civilian firearms, tobacco, and energy extractives are not eligible for inclusion.

● **How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**

The Product invested 100% in line with the reference benchmark and had for that reason the same score on the sustainability indicators as the reference benchmark. The European ESG Committee has analysed and confirmed the alignment of the reference benchmark with its promoted environmental and social characteristics.

⊕ **How did this financial product perform compared with the reference benchmark?**

Indicator	Product: VanEck Space Innovators UCITS ETF	Reference benchmark: MarketVector Global Space Industry Screened Index
The percentage of portfolio involved in violation of the UN Global Compact, the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles for Business and Human Rights	0.00%	0.00%
The percentage of portfolio involved in the fossil fuels industry	0.00%	0.00%
The percentage of portfolio involved in non-renewable energy product	0.00%	0.00%

⊕ **How did this financial product perform compared with the broad market index?**

--	--	--

Indicator	Product: VanEck Space Innovators UCITS ETF	Broad market index: Solactive GBS Global Markets Large & Mid Cap Index
The percentage of portfolio involved in violation of the UN Global Compact, the OECD Guideline for Multinational Enterprises and the UN Guiding Principles for Business and Human Rights	0.00%	0.22%
The percentage of portfolio involved in the fossil fuels industry	0.00%	9.88%
The percentage of portfolio involved in non-renewable energy production	0.00%	2.35%

Annex 7

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Periodic disclosure for the financial products referred to in Article 9, paragraphs 1 to 4a, of Regulation (EU) 2019/2088 and Article 5, first paragraph, of Regulation (EU) 2020/852

Product name: VanEck Sustainable Future of Food UCITS ETF

Legal entity identifier: 25490018AUJGR6833G82

Sustainable investment objective

Did this financial product have a sustainable investment objective?	
<input checked="" type="radio"/> <input checked="" type="radio"/> <input checked="" type="checkbox"/> Yes	<input type="radio"/> <input type="radio"/> <input type="checkbox"/> No
<input checked="" type="checkbox"/> It made sustainable investments with an environmental objective : 100% <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy 	<input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective
<input type="checkbox"/> It made sustainable investments with a social objective : ___%	<input type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

To what extent was the sustainable investment objective of this financial product met?

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

The sustainable investment objective of the Product during the reference period was to support sustainable Food Production and Development. Therefore, the Product selected companies involved in food and agricultural technology, organic foods, or food companies that displayed high standards in food waste, food safety or environmental impact.

This included companies with at least 50% (25% for current components) of their revenues from the following sub-themes:

- A. Plant-Based or Cultured Meat, Protein or Dairy alternatives;
- B. Vertical or Urban Farming - this includes agricultural companies that grow crops vertically, in greenhouses or specialize in localized farming;
- C. Precision Agriculture - this includes irrigation and smart water grid equipment, greenhouse equipment, or autonomous/robotic farming or agriculture- related equipment but excludes agricultural chemicals and plant seeds;
- D. Food Flavors and Functional Ingredients;
- E. Organic or Health Foods - this includes packaged foods, or agricultural products but excludes meat, poultry, fish or vitamins;
- F. In addition, companies that met certain ESG standards related to food and agriculture sustainability and safety were also included as followed and referred to as sub-theme F. The Index Provider utilizes ESG data provided by ISS. Companies that were eligible under these conditions needed derive at least 50% (25% for current components) of their revenues from agricultural services or agricultural products (limited to fruits, vegetables, grains and dairy), or packaged plant/grain-based or dairy food products.

The Product's total contribution to these sub-themes has been calculated by measuring the net weighted percentages of companies' revenues derived from the sub-themes A until E. Companies satisfying additional ESG criteria and thereby eligible per sub-theme F "Food ESG" were assigned a score of 50%.

The Glass Lewis ESG policy guidelines was applied, whereby votes were cast on sustainability matters.

A third-party engagement specialist - Glass Lewis Europe Limited – has been engaged for the passive equity funds managed by VanEck Asset Management B.V. The engagement provider determines the engagement approach in accordance with its engagement policy and based on its engagements' priorities.

A reference benchmark, MVIS® Global Future of Food ESG Index, has been designated for the purpose of attaining the sustainable investment objective.

To measure the attainment of the Product's sustainable investment objective, the sustainability indicators included in the next question were calculated for the Product.

● **How did the sustainability indicators perform?**

The sustainability indicators performed as below:

Indicator	Score
The weighted percentage of investee companies' revenues derived from contribution to sustainable food production and development	48.88% (Revenues percentages are provided in ranges as following: 0-25%, 25-50% and 50+%. The lower bound of the range is taken to calculate the weighted average revenue percentage. Companies that are included in the Product as per "Food ESG" sub-theme are assigned a score of 50+%.)
The percentage of portfolio involved in violations of UN Global Compact, the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles for Business and Human Rights	0.00%
The percentage of portfolio involved in the fossil fuels industry	0.00%
The percentage of portfolio involved in non-renewable energy production	0.00%

● **... and compared to previous periods?**

Indicator	2025	2024	2023	2022
The weighted percentage of investee companies' revenues derived from contribution to sustainable food production and development	48.88%	49.03%	50.00%	49.37%
The percentage of portfolio involved in violations of UN Global Compact, the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles for Business and Human Rights	0.00%	0.00%	0.00%	0.00%
The percentage of portfolio involved in the fossil fuels industry	0.00%	0.00%	0.00%	0.00%
The percentage of portfolio involved in non-renewable energy production	0.00%	0.00%	0.00%	0.00%

● **How did the sustainable investments not cause significant harm to any sustainable investment objective?**

The Product has not invested in companies which cause significant harm to any other environmental or social sustainable investment objective. The screenings consisted of various components:

1. Controversial sector involvement whereby companies were screened for involvement in:
 - ☞ Controversial weapons: a 0% revenue threshold was applied.
 - ☞ Tobacco, thermal coal, fossil fuels, oil sands, nuclear energy, civilian firearms, military and gambling: a 5% revenue threshold is applied.
2. Norm-Based Research whereby companies are screened for violations of international standards concerning various norms such as human rights, labor rights, environmental risk and bribery.

Companies for which there is no data available on one or more screening components do not constitute a violation of environmental or social objectives on that specific screening component. As of December 2024 rebalancing, no companies which were not covered by the ESG data provider, were included in the Index.

— — — ***How were the indicators for adverse impacts on sustainability factors taken into account?***

Indicators for adverse impacts on sustainability factors were taken into account on the Product's thematic investment policy focusing on sustainable forms of food production, adverse impacts on sustainability factors such as GHG emissions, carbon footprint, GHG intensity are limited and therefore implicitly taken into account.

In addition, the Product considered the following principal adverse impacts on sustainability factors:

- — — Greenhouse Gas (GHG Emissions):
 - — — As part of Norm-based research companies are assessed relating to environmental protection based on the screening on "Failure to mitigate climate change impacts"
 - — — Fossil Fuel/Coal - Total Maximum Percentage of Revenues is 5%: This factor provides the maximum percentage of recent-year revenues for the issuer's total involvement in coal/fossil fuel, including any exposure in Production, Exploration, Distribution, and Services.
 - — — Companies that are eligible for the index inclusion under sub-theme F, must display a positive environmental impact by having at least one score larger than zero, and the other score at least zero, related to the Contribution and Achievement of Sustainable Agriculture and Forestry or Agriculture Climate Change Contribution.
- — — Biodiversity
 - — — Part of Norm-based research on environmental protection "Failure to prevent depletion of biodiversity" and "Failure to prevent deforestation / illegal logging"
- — — Water
 - — — Part of Norm-based research on environmental protection "Failure to prevent depletion of biodiversity", "Failure to prevent water pollution" and "Failure to prevent oil spill"
- — — Waste
 - — — Part of Norm-based research on environmental protection "Poor waste management", "Poor nuclear safety", "Failure to prevent pollution" and "Failure to mitigate the production / distribution of hazardous substances"
 - — — Companies that are eligible for the index inclusion under sub-theme F, must display a positive environmental impact by having a rank of at least 2.5 (on a scale of 1-4) in: A.) Food Waste OR B.) Food Safety and Food Safety Certification Program.
- — — Social and employee, respect for human rights, anti-corruption and anti-bribery matters
 - — — Norm-based screening covers controversial practices that have adverse impacts on society and the environment in line with established expectations for Responsible Business Conduct as set forth in the core normative framework consisting of the Principles of the UN Global Compact, the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles for Business and Human Rights, all of which are embedded in the Sustainable Development Goals.
 - — — Part of Norm-based research on Human Rights, including "Failure to conduct human rights due diligence" and "Failure to provide equal pay for work of equal value"
 - — — Controversial weapons screenings are performed whereby companies with a RED exposure score in anti-personnel mines, biological and chemical weapons, cluster munitions, depleted uranium, incendiary weapons, white phosphorus and nuclear weapons are excluded from the index.
 - — — Companies that are eligible for the index inclusion under sub-theme F, must display a positive environmental impact by having a rank of at least 2.5 (on a scale of 1-4) in: A.) Food Waste OR B.) Food Safety and Food Safety Certification Program.

— — — ***Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:***

Yes, norm-based research was conducted, whereby companies are screened for violations of international standards concerning various norms such as human rights, labor rights, environmental risk and bribery. Norm-based Research framework consists of research on the level of adherence of a company to the Principles of the UN Global Compact, the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles for Business and Human Rights and is embedded in the Sustainable Development Goals.

Violations of these standards were measured by reference to the Case Severity Indicator. The Case Severity Indicator is a measure of the reported risk or impact on society or the environment and takes into account the degree of corporate involvement. The values which refer to severity are indicated in the Normed-based Research Methodology as 'Very Severe', 'Severe', 'Moderate' and 'Potential'. The 'Very Severe' value identified instances where the company is reportedly causing/contributing to critical adverse impact and is excluded from the Index.

Furthermore, the overall Norm-based research Score (“NBSOverallScore”) assigned a 1-10 rating score to an issuer based on the issuer’s link with any violations of international standards. The Index Provider excluded from the investable universe the companies which were assessed with a score of 9 or 10.

How did this financial product consider principal adverse impacts on sustainability factors?

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

This financial product considered principal adverse impacts on sustainability factors as exposure to certain environmental adverse impacts is minimized due to the thematic investment policy of the Product whereby specific emphasis is placed on companies which contribute to the development of sustainable forms of food production. In addition, by means of Norm-based research and Controversial sector involvement screenings, the Product takes the principal adverse impacts on sustainability factors relating to greenhouse gas emissions, biodiversity, water, waste, social and employee, respect for human rights, anti-corruption and anti-bribery matters into account. For detailed information, please refer to the questions “How were the indicators for adverse impacts on sustainability factors taken into account?” and “How did the sustainable investments not cause significant harm to any sustainable investment objective?”

Additionally, principal adverse impacts are considered as part of the Glass Lewis ESG policy guidelines, whereby casted votes regard the environment, energy efficiency, the use of renewable energy sources, enhancing the rights of workers, violation of international human rights standards, gender pay inequity and board diversity.

What were the top investments of this financial product?

As of 31/12/2025:

Security name	Weight (%)	Sector	Currency	Country
INGREDION INC	8.1	Consumer Staples	USD	US
SPROUTS FARMERS MARKET INC	7.9	Consumer Staples	USD	US
SAPUTO INC	4.7	Consumer Staples	CAD	CA
KERRY GROUP PLC	4.69	Consumer Staples	EUR	IE
NOVOZYMES A/S	4.68	Materials	DKK	DK
DANONE SA	4.63	Consumer Staples	EUR	FR
INTERNATIONAL FLAVORS & FRAGRANCES INC	4.63	Materials	USD	US
AAK AB	4.59	Consumer Staples	SEK	SE
BALCHEM CORP	4.56	Materials	USD	US
SENSIENT TECHNOLOGIES CORP	4.46	Materials	USD	US
ARCHER-DANIELS-MIDLAND CO	4.43	Consumer Staples	USD	US
CHINA FEIHE LTD	4.38	Consumer Staples	HKD	CN
GIVAUDAN SA	4.34	Materials	CHF	CH
EMMI AG	4.29	Consumer Staples	CHF	CH
CAL-MAINE FOODS INC	4.16	Consumer Staples	USD	US

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: 2025.

What was the proportion of sustainability-related investments?

Asset allocation describes the share of investments in specific assets.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

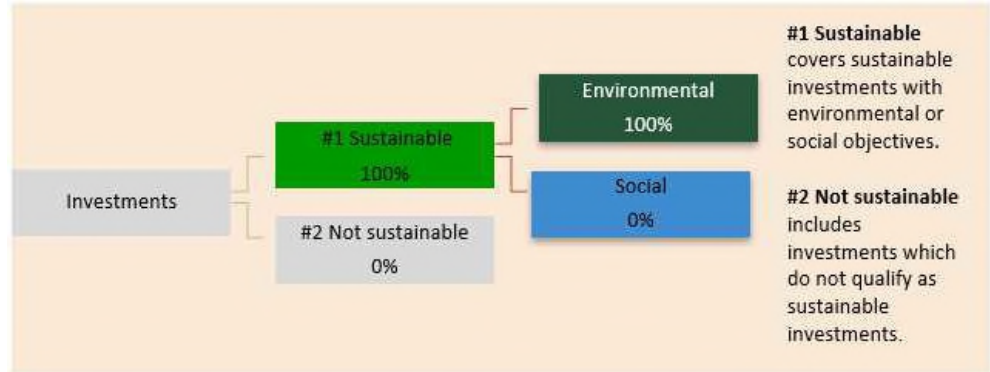

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

● **What was the asset allocation?**

The Product invested in direct financial instruments of which 100% was sustainable. All of these sustainable investments were environmentally sustainable.

● **In which economic sectors were the investments made?**

As of 31/12/2025 the assets were allocated to the following sectors:

<u>Sector Weighting</u>	<u>% of Net Assets</u>
Consumer Staples	69.17
Materials	29.01
Industrials	1.78
Other/Cash	0.03

The weights may not sum up to 100% due to rounding.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

0%. While the Product had a sustainable investment objective within the meaning of Article 9 of the SFDR and invests in sustainable food and agriculture, thereby aiming to enhance the development of sustainable agricultural services and food products, the Product did not intend to make sustainable investments with an environmental objective aligned with the EU Taxonomy during the reporting period. During the reporting period a limited amount of companies has reported on Taxonomy - alignment.

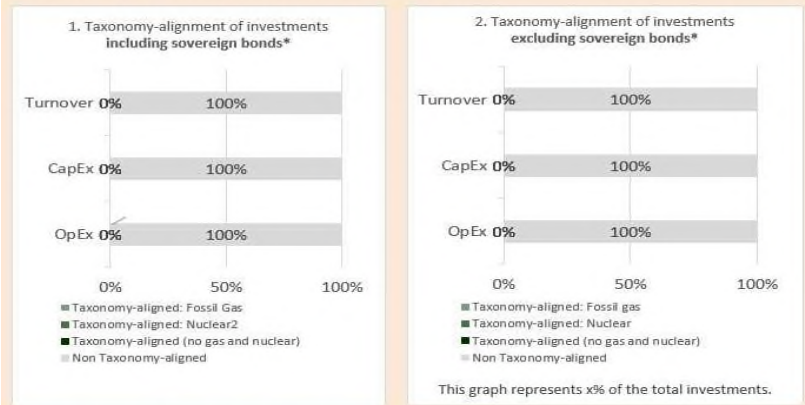

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?**

- Yes
- In fossil gas in nuclear energy
- No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy.

are sustainable investments with an environmental objective that do not take into account the criteria for environmentally sustainable economic activities under the EU Taxonomy.

As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

● **What was the share of investments made in transitional and enabling activities?**

The share of investments in transitional and enabling activities was 0%.

● **How did the percentage of investments aligned with the EU Taxonomy compare with previous reference periods?**

The Product did not intend to make sustainable investments with an environmental objective aligned with the EU Taxonomy during the reporting period. During the reporting period a limited amount of companies has reported on Taxonomy-alignment.

What was the share of sustainable investments with an environmental objective that were not aligned with the EU Taxonomy?

100% of the Product's investments was sustainable with an environmental objective that were not aligned with the EU Taxonomy. This is determined based on the (potential) revenue streams of companies related to sustainable food production and the criteria defined for Norm-based research and Controversial sector involvement screenings to ensure that the companies in the portfolio do no significant harm to other sustainability related objectives. The Product's investments were considered to be sustainable investments with an environmental objective, but were not aligned with the expansive and strict criteria which were defined for sustainable food production in the EU Taxonomy.

What was the share of socially sustainable investments?

The Product did not intend to make socially sustainable investments.

¹Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

Companies have been screened for compliance with the Index rules and the Index has been rebalanced on a quarterly basis by the Index Provider. The Product has replicated the Index based on the Index rules during the reporting period.

Furthermore, the European ESG Committee has performed a review and reported on the alignment of the sustainable investment objective of the Product.

In addition:

- The Glass Lewis ESG voting guidelines applied to this Product. Glass Lewis manages proxy voting, policy implementation, recordkeeping and reporting of voting activities.
- Glass Lewis Europe Limited has been appointed as engagement specialist for the passive equity funds managed by VanEck Asset Management B.V. The engagement provider determines the engagement approach in accordance with its engagement policy and based on its engagements' priorities

How did this financial product perform compared to the reference sustainable benchmark?

- ***As a passive investments strategy, the Product has replicated the reference sustainable benchmark in order to be aligned with the sustainable investment objective.***

- ***How does the reference benchmark differ from a broad market index?***

The reference benchmark differs from the broad market index in the following ways:

- Thematic investment approach: companies that generate at least 50% (25% for current components) of their revenues from agricultural and food technology, organic foods, or food companies that display high standards in food waste, food safety or environmental impact are eligible for inclusion.

- ESG screenings: companies with very severe social norms violations, the ones that have greater than 0% revenue exposure to controversial weapons, or that exceed certain thresholds of revenue exposure to various sectors including but not limited to civilian firearms, tobacco, and energy extractives are not eligible for inclusion.

- ***How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the sustainable investment objective promoted?***

The Product invested 100% in line with the reference benchmarks and had for that reason the same score on the sustainability indicators as the benchmarks. The European ESG Committee has analysed and confirmed the alignment of the reference benchmark with the Product 's sustainable investment objective.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

● **How did this financial product perform compared with the reference benchmark?**

Indicator	Product: VanEck Sustainable Future of Food UCITS ETF	Reference benchmark: MVIS® Global Future of Food ESG Index
The weighted percentage of investee companies' revenues derived from contribution to sustainable food production and development	48.88%	48.88%

Annex 8

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Periodic disclosure for the financial products referred to in Article 9, paragraphs 1 to 4a, of Regulation (EU) 2019/2088 and Article 5, first paragraph, of Regulation (EU) 2020/852

Product name: VanEck Genomics and Healthcare Innovators UCITS ETF

Legal entity identifier: 254900K9GCSPWNLRN078

Sustainable investment objective

Did this financial product have a sustainable investment objective?	
<input checked="" type="radio"/> <input checked="" type="radio"/> <input checked="" type="checkbox"/> Yes	<input checked="" type="radio"/> <input type="radio"/> <input type="checkbox"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective : ___% <ul style="list-style-type: none"><input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy<input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	<input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments <ul style="list-style-type: none"><input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy<input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy<input type="checkbox"/> with a social objective
<input checked="" type="checkbox"/> It made sustainable investments with a social objective : 100%	<input type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

To what extent was the sustainable investment objective of this financial product met?

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

The sustainable investment objective of the Product during the reference period was to invest in companies that enhance and developing products and services that increase the accessibility of healthcare (e-healthcare) and improvement of the quality of life via genomic disease treatment and diagnostics, thereby contributing to social objectives aligned with the Sustainable Development Goals (SDG) goal “Good Health and Well-being”

Therefore, the Product invested in companies which were determined by the Index Provider to generate a significant (>50%, >25% for current components) part of their revenues from the following sub-themes:

- A. Healthcare therapies based on the targeting or modification of genetic makeup of cells or uses mRNA;
- B. Technology platforms that enable the development of genetics-based healthcare therapies;
- C. Laboratory equipment or services used to test, code, or develop genetics-based healthcare therapies;
- D. Software used to facilitate online medical consultations;
- E. E-Commerce pharmacies;
- F. Software for the management of medical practices and/or patient records;
- G. Outpatient medical Internet of Things devices which allow remote monitoring of health indicators such as heart rate and rhythm, or glucose levels.

The Product’s total contribution to these sub-themes has been calculated by measuring the net weighted percentages of companies’ revenues derived from genomics and e-healthcare (sub-themes A till G).

The Glass Lewis ESG policy guidelines was applied, whereby votes were cast on sustainability matters.

A third-party engagement specialist - Glass Lewis Europe Limited – has been engaged for the passive equity funds managed by VanEck Asset Management B.V. The engagement provider determines the engagement approach in accordance with its engagement policy and based on its engagements’ priorities.

A reference benchmark, MVIS® Global Future Healthcare ESG Index, has been designated for the purpose of attaining the sustainable investment objective.

To measure the attainment of the Product’s sustainable investment objective, the sustainability indicators included in the next question were calculated for the Product.

● **How did the sustainability indicators perform?**

The sustainability indicators performed as below:

Indicator	Score
The weighted percentage of investee companies' revenues derived from contribution to genomics and e-Healthcare	50.00 % (Revenues percentages are provided in ranges as following: 0-25%, 25-50% and 50+%. The lower bound of the range is taken to calculate the weighted average revenue percentage.)
The percentage of portfolio involved in violations of UN Global Compact, the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles for Business and Human Rights. The target is 0% at rebalancing.	0.00%
The percentage of portfolio involved in the fossil fuels industry	0.00%
The percentage of portfolio involved in non-renewable energy production	0.00%

● **... and compared to previous periods?**

Indicator	2025	2024	2023	2022
The weighted percentage of investee companies' revenues derived from contribution to genomics and e-Healthcare	50.00%	50.00 %	49.74%	49.59%
The percentage of portfolio involved in violations of UN Global Compact, the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles for Business and Human Rights	0.00%	0.00%	0.00%	0.00%
The percentage of portfolio involved in the fossil fuels industry	0.00%	0.00%	0.00%	0.00%
The percentage of portfolio involved in non-renewable energy production	0.00%	0.00%	0.00%	0.00%

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

To ensure that the Product has not invested in companies which cause significant harm to any other environmental or social sustainable investment objective, screenings were applied in the underlying index construction process. The screenings consist of various components:

1. Controversial sector involvement whereby companies are screened for involvement in:
 - Controversial weapons: a 0% revenue threshold is applied.
 - Tobacco, thermal coal, fossil fuels, oil sands, nuclear energy, civilian firearms, military and gambling: a 5% revenue threshold is applied.
2. Norm-Based Research whereby companies are screened for violations of international standards concerning various norms such as human rights, labor rights, environmental risk and bribery.

Companies for which there is no data available on one or more screening components do not constitute a violation of environmental or social objectives on that specific screening component. As of December 2024 rebalancing, no companies which were not covered by the ESG data provider, were included in the Index.

— — — ***How were the indicators for adverse impacts on sustainability factors taken into account?***

In addition, the Product considered the following principal adverse impacts on sustainability factors:

— — — Greenhouse Gas (GHG Emissions):

- — — Part of Norm-based research on environmental protection "Failure to mitigate climate change impacts", which comprises the Controversy Score used in the selection process. Companies with very severe controversies score were excluded from the selection process.
- — — Fossil Fuel/Coal - Total Maximum Percentage of Revenues is 5%: This factor provides the maximum percentage of recent-year revenues for the issuer's total involvement in coal/fossil fuel, including any exposure in Production, Exploration, Distribution, and Services.

— — — Biodiversity

- — — Part of Norm-based research on environmental protection "Failure to prevent depletion of biodiversity" and "Failure to prevent deforestation / illegal logging", which comprises the Controversy Score used in the selection process. Companies with very severe controversies score were excluded from the selection process.

— — — Water

- — — Part of Norm-based research on environmental protection "Failure to prevent depletion of biodiversity", "Failure to prevent water pollution" and "Failure to prevent oil spill", which comprises the Controversy Score used in the selection process. Companies with very severe controversies score were excluded from the selection process.

— — — Waste

- — — Part of Norm-based research on environmental protection "Poor waste management", "Poor nuclear safety", "Failure to prevent pollution" and "Failure to mitigate the production / distribution of hazardous substances", which comprises the Controversy Score used in the selection process. Companies with very severe controversies score were excluded from the selection process.

— — — Social and employee, respect for human rights, anti-corruption and anti-bribery matters

- — — Norm-based screening covers controversial practices that have adverse impacts on society and the environment in line with established expectations for Responsible Business Conduct as set forth in the core normative framework consisting of the Principles of the UN Global Compact, the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles for Business and Human Rights, all of which are embedded in the Sustainable Development Goals.
- — — Part of Norm-based research on Human Rights, including "Failure to conduct human rights due diligence" and "Failure to provide equal pay for work of equal value", which comprises the Controversy Score used in the selection process. Companies with very severe controversies score were excluded from the selection process.
- — — Controversial weapons screenings are performed whereby companies with a RED exposure score in anti-personnel mines, biological and chemical weapons, cluster munitions, depleted uranium, incendiary weapons, white phosphorus and nuclear weapons are excluded from the index.

Companies for which there is no data available on one or more screening components do not constitute a violation of environmental or social objectives on that specific screening component. In these cases the Index Provider will review the impact and will act on a best efforts basis to ensure data coverage by performing qualitative data research through the review of press releases, reporting and other relevant publicly available information of the respective company. As of December 2024 rebalancing, no companies which were not covered by the ESG data provider, were included in the Index.

— — — ***Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:***

Yes, norm-based research was conducted, whereby companies are screened for violations of international standards concerning various norms such as human rights, labor rights, environmental risk and bribery. Norm-based Research framework consists of research on the level of adherence of a company to the Principles of the UN Global Compact, the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles for Business and Human Rights and is embedded in the Sustainable Development Goals.

Violations of these standards were measured by reference to the Case Severity Indicator. The Case Severity Indicator is a measure of the reported risk or impact on society or the environment and takes into account the degree of corporate involvement. The values which refer to severity are indicated in the Normedbased Research Methodology as 'Very Severe', 'Severe', 'Moderate' and 'Potential'. The 'Very Severe' value identified instances where the company is reportedly causing/contributing to critical adverse impact and is excluded from the Index.

Furthermore, the overall Norm-based research Score ("NBSOverallScore") assigned a 1-10 rating score to an issuer based on the issuer's link with any violations of international standards. The Index Provider excluded from the investable universe the companies which were assessed with a score of 9 or 10.

How did this financial product consider principal adverse impacts on sustainability factors?

This financial product considered principal adverse impacts on sustainability factors by means of Norm-based research and Controversial sector involvement screenings the Product takes the principal adverse impacts on sustainability factors relating to greenhouse gas emissions, biodiversity, water, waste, social and employee, respect for human rights, anti-corruption and anti-bribery matters into account.

For detailed information, please refer to the questions *"How were the indicators for adverse impacts on sustainability factors taken into account?"* and *"How did the sustainable investments not cause significant harm to any sustainable investment objective?"*

Additionally, principal adverse impacts are considered as part of the Glass Lewis ESG policy guidelines, whereby casted votes regard the environment, energy efficiency, the use of renewable energy sources, enhancing the rights of workers, violation of international human rights standards, gender pay inequity and board diversity.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

What were the top investments of this financial product?

As of 31/12/2025:

Security Name	Weight %	Sector	Currency	Country
REGENERON PHARMACEUTICALS INC	8.63	Health Care	USD	US
VERTEX PHARMACEUTICALS INC	8.28	Health Care	USD	US
VEEVA SYSTEMS INC	6.92	Health Care	USD	US
ALNYLAM PHARMACEUTICALS INC	6.49	Health Care	USD	US
NATERA INC	5.98	Health Care	USD	US
DEXCOM INC	5.48	Health Care	USD	US
ILLUMINA INC	4.83	Health Care	USD	US
INSULET CORP	4.39	Health Care	USD	US
EXACT SCIENCES CORP	4.09	Health Care	USD	US
GUARDANT HEALTH INC	3.97	Health Care	USD	US
BIONTECH SE	3.38	Health Care	USD	DE
PRO MEDICUS LTD	2.99	Health Care	AUD	AU
MODERNA INC	2.95	Health Care	USD	US
JD HEALTH INTERNATIONAL INC	2.64	Consumer Staples	HKD	CN
QIAGEN NV	2.36	Health Care	USD	NL

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: 2025.

What was the proportion of sustainability-related investments?

What was the asset allocation?

The Product invested in direct financial instruments of which 100% was sustainable. All of these sustainable investments were socially sustainable.

In which economic sectors were the investments made?

As of 31/12/2025 the assets were allocated to the following sectors:

Sector Weighting	% of Net Assets
Industrials	59.64
Materials	30.53
Utilities	5.09
Consumer Staples	4.54

The weights may not sum up to 100% due to rounding.

To what extent were sustainable investments with an environmental objective aligned with the EU Taxonomy?

0%. Due to the Product's emphasis on social objectives, within the meaning of Article 9 of the SFDR, the Product did not intend to invest in economic activities that contribute to an environmental objective during the reporting period. The investments underlying the Product therefore did not take into account the EU criteria for environmentally sustainable economic activities within the meaning of the Taxonomy Regulation.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

- Yes
 In fossil gas in nuclear energy
 No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

Asset allocation describes the share of investments in specific assets.

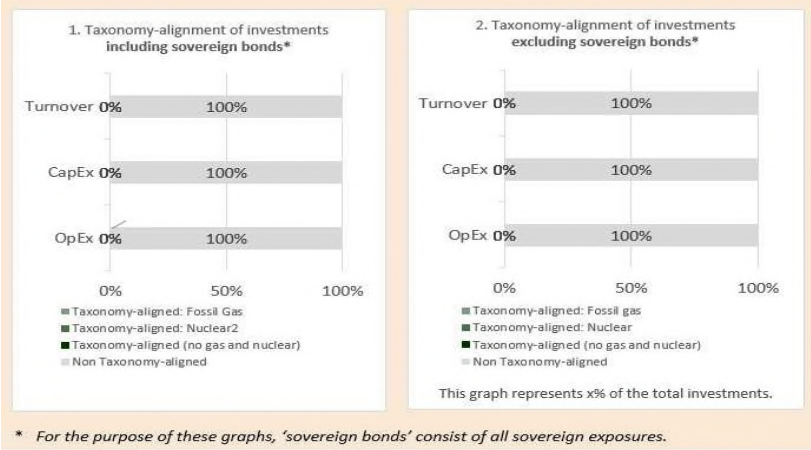

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules. **Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- turnover** reflecting the share of revenue from green activities of investee companies.
- capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- operational expenditure** (OpEx) reflecting green operational activities of investee companies.

are sustainable investments with an environmental objective that do not take into account the criteria for environmentally sustainable economic activities under the EU Taxonomy.

● **What was the share of investments made in transitional and enabling activities?**

The share of investments in transitional and enabling activities was 0%.

● **How did the percentage of investments aligned with the EU Taxonomy compare with previous reference periods?**

The Product did not intend to make sustainable investments with an environmental objective aligned with the EU Taxonomy during the reporting period. During the reporting period a limited amount of companies has reported on Taxonomy-alignment.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable as the Product did not intend to make environmentally sustainable investments.

What was the share of socially sustainable investments?

100% of the Product's investments was sustainable with a social objective. This is determined based on the (potential) revenue streams of companies related to the genomic health care and electronic healthcare industries and the criteria defined for Norm-based research and Controversial sector involvement screenings to ensure that the companies in the portfolio do no significant harm to other sustainability related objectives.

What investments were included under "not sustainable", what was their purpose and were there any minimum environmental or social safeguards? ere the environmental and/or social characteristics promoted by this financial product met?

Not applicable, all investments were sustainable.

¹Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

What actions have been taken to attain the sustainable investment objective during the reference period?

Companies have been screened for compliance with the Index rules and the Index has been rebalanced on a semi-annual basis by the Index Provider. The Product has replicated the Index based on the Index rules during the reporting period.

Furthermore, the European ESG Committee has performed a review and reported on the alignment of the sustainable investment objective of the Product.

In addition:

- The Glass Lewis ESG voting guidelines applied to this Product. Glass Lewis manages proxy voting, policy implementation, recordkeeping and reporting of voting activities.
- Glass Lewis Europe Limited has been appointed as engagement specialist for the passive equity funds managed by VanEck Asset Management B.V. The engagement provider determines the engagement approach in accordance with its engagement policy and based on its engagements' priorities.

How did this financial product perform compared to the reference sustainable benchmark?

As a passive investments strategy, the Product has replicated the reference sustainable benchmark in order to be aligned with the sustainable investment objective.

● ***How did the reference benchmark differ from a broad market index?***

The Index differs from a generic broad market index in following ways:

- Thematic investment approach: only companies that generate at least 50% (25% for current components) of their revenues from the genomic health care and electronic healthcare industries are eligible for inclusion.

- ESG screenings: companies with very severe social norms violations, the ones that have greater than 0% revenue exposure to controversial weapons, or that exceed certain thresholds of revenue exposure to various sectors including but not limited to civilian firearms, tobacco, and energy extractives are not eligible for inclusion.

● ***How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the sustainable investment objective?***

The Product aimed at investing 100% in line with its reference benchmark and will for that reason normally have very similar performance on sustainability indicators as the reference benchmark: MVIS® Global Future Healthcare ESG Index. The European ESG Committee has analysed and confirmed the alignment of the reference benchmark with the Product's sustainable investment goal.

● ***How did this financial product perform compared with the reference benchmark?***

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Indicator	Product: VanEck Genomics and Healthcare Innovators UCITS ETF	Reference benchmark: MVIS® Global Future Healthcare ESG Index
The weighted percentage of investee companies' revenues derived from contribution to genomics and e-Healthcare	50.00%	50.00%
The percentage of portfolio involved in violations of UN Global Compact, the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles for Business and Human Rights	0.00%	0.00%
The percentage of portfolio involved in the fossil fuels industry	0.00%	0.00%
The percentage of portfolio involved in non-renewable energy production	0.00%	0.00%

● **How did this financial product perform compared with the broad market index?**

Indicator	Product: VanEck Genomics and Healthcare Innovators UCITS ETF	Broad market index: Solactive GBS Global Markets Large & Mid Cap Index
The weighted percentage of investee companies' revenues derived from contribution to genomics and e-Healthcare	50.00%	N/A(Data not available for all companies in the index.)
The percentage of portfolio involved in violations of UN Global Compact, the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles for Business and Human Rights	0.00%	0.22%
The percentage of portfolio involved in the fossil fuels industry	0.00%	9.88%
The percentage of portfolio involved in non-renewable energy production	0.00%	2.35%

Annex 9

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Periodic disclosure for the financial products referred to in Article 9, paragraphs 1 to 4a, of Regulation (EU) 2019/2088 and Article 5, first paragraph, of Regulation (EU) 2020/852

Product name: VanEck Circular Economy UCITS ETF

Legal entity identifier: 25490039EAJAQAXY8457

Sustainable investment objective

Did this financial product have a sustainable investment objective?	
<input checked="" type="radio"/> <input checked="" type="radio"/> <input checked="" type="checkbox"/> Yes	<input type="radio"/> <input type="radio"/> <input type="checkbox"/> No
<input checked="" type="checkbox"/> It made sustainable investments with an environmental objective: 100% <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy 	<input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective
<input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

To what extent was the sustainable investment objective of this financial product met?

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

The Product aimed at supporting sustainable production and consumption practices. Therefore, the Product invests in companies active in water purification and treatment products or services, waste-to-energy and biofuels, general waste management services that include recycling services, metal recycling services as well as companies deriving majority of their revenues from products that are made of - or services related to - recycled, repurposed, or reused materials. Companies that meet certain ESG standards related to sustainable water purification, waste management and recycling services are also included. The Product's total contribution to these sub-themes has been calculated by measuring the weighted percentages of companies' revenues derived from aforementioned themes.

The Glass Lewis ESG policy guidelines was applied, whereby votes were cast on sustainability matters.

A third-party engagement specialist - Glass Lewis Europe Limited – has been engaged for the passive equity funds managed by VanEck Asset Management B.V. The engagement provider determines the engagement approach in accordance with its engagement policy and based on its engagements' priorities.

A reference benchmark, MVIS® Global Circular Economy ESG Index, has been designated for the purpose of attaining the sustainable investment objective.

To measure the attainment of the of the sustainable investment objective of this financial product, the sustainability indicators included in the next question were calculated for the Product.

How did the sustainability indicators perform?

The sustainability indicators performed as below:

Indicator	Score
The weighted percentage of investee companies' revenues attributable to circular economy	48.60% (Revenues percentages are provided in ranges as following: 0-25%, 25-50% and 50+%. The lower bound of the range is taken to calculate the weighted average revenue percentage.)
The percentage of portfolio involved in violations of UN Global Compact, the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles for Business and Human Rights. The target is 0% at rebalancing;	0.00%
The percentage of portfolio involved in the fossil fuels industry	0.00%
The percentage of portfolio involved in non-renewable energy production	3.23%

● **... and compared to previous periods?**

Indicator	2025	2024	2023	2022
The weighted percentage of investee companies' revenues attributable to circular economy	48.60%	49.43%	50.00%	50.00%
The percentage of portfolio involved in violations of UN Global Compact, the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles for Business and Human Rights. The target is 0% at rebalancing;	0.00%	0.00%	0.00%	0.00%
The percentage of portfolio involved in the fossil fuels industry	0.00%	0.00%	0.00%	0.00%
The percentage of portfolio involved in non-renewable energy production	3.23%	4.51%	5.12%	0.02%

● **How did the sustainable investments not cause significant harm to any sustainable investment objective?**

To ensure that the companies do not significantly harm any environmental or social sustainable investment objective, screenings were applied in the underlying index construction process. The screenings consist of various components:

1. Controversial sector involvement whereby companies are screened for involvement in:
 - ⊕ Controversial weapons: a 0% revenue threshold is applied.
 - ⊕ Tobacco, thermal coal, fossil fuels, oil sands, nuclear energy, civilian firearms, military and gambling: a 5% revenue threshold is applied.
2. Norm-Based Research whereby companies are screened for violations of international standards concerning various norms such as human rights, labor rights, environmental risk and bribery.

Companies for which there is no data available on one or more screening components do not constitute a violation of environmental or social objectives on that specific screening component. In these cases the Index Provider will review the impact and will act on a best efforts basis to ensure data coverage by performing qualitative data research through the review of press releases, reporting and other relevant publicly available information of the respective company.

— — — **How were the indicators for adverse impacts on sustainability factors taken into account?**

Based on the Product's thematic investment policy focusing on recycling and sustainable production, adverse impacts on sustainability factors such as GHG intensity, Water Emissions and Hazardous Waste Ratio were limited and therefore implicitly taken into account. The Product also considered the following principal adverse impacts on sustainability factors:

- — — Greenhouse Gas (GHG Emissions):
 - — — Part of Norm-based research on environmental protection "Failure to mitigate climate change impacts", which comprises the Controversy Score used in the selection process. Companies with very severe controversies score were excluded from the selection process.
 - — — Fossil Fuel/Coal - Total Maximum Percentage of Revenues is 5%: This factor provides the maximum percentage of recent-year revenues for the issuer's total involvement in coal/fossil fuel, including any exposure in Production, Exploration, Distribution, and Services.
- — — Biodiversity
 - — — Part of Norm-based research on environmental protection "Failure to prevent depletion of biodiversity" and "Failure to prevent deforestation / illegal logging", which comprises the Controversy Score used in the selection process. Companies with very severe controversies score were excluded from the selection process.
- — — Water
 - — — Part of Norm-based research on environmental protection "Failure to prevent depletion of biodiversity", "Failure to prevent water pollution" and "Failure to prevent oil spill", which comprises the Controversy Score used in the selection process. Companies with very severe controversies score were excluded from the selection process.
- — — Waste
 - — — Part of Norm-based research on environmental protection "Poor waste management", "Poor nuclear safety", "Failure to prevent pollution" and "Failure to mitigate the production / distribution of hazardous substances", which comprises the Controversy Score used in the selection process. Companies with very severe controversies score were excluded from the selection process.
- — — Social and employee, respect for human rights, anti-corruption and anti-bribery matters
 - — — Norm-based screening covers controversial practices that have adverse impacts on society and the environment in line with established expectations for Responsible Business Conduct as set forth in the core normative framework consisting of the Principles of the UN Global Compact, the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles for Business and Human Rights, all of which are embedded in the Sustainable Development Goals.
 - — — Part of Norm-based research on Human Rights, including "Failure to conduct human rights due diligence" and "Failure to provide equal pay for work of equal value", which comprises the Controversy Score used in the selection process. Companies with very severe controversies score were excluded from the selection process.
 - — — Controversial weapons screenings are performed whereby companies with a RED exposure score in anti-personnel mines, biological and chemical weapons, cluster munitions, depleted uranium, incendiary weapons, white phosphorus and nuclear weapons are excluded from the index.

Companies for which there is no data available on one or more screening components do not constitute a violation of environmental or social objectives on that specific screening component. As of December 2024 rebalancing, no companies which were not covered by the ESG data provider, were included in the Index.

— — — ***Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:***

Yes, norm-based research was conducted, whereby companies are screened for violations of international standards concerning various norms such as human rights, labor rights, environmental risk and bribery. Norm-based Research framework consists of research on the level of adherence of a company to the Principles of the UN Global Compact, the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles for Business and Human Rights and is embedded in the Sustainable Development Goals.

Violations of these standards were measured by reference to the Case Severity Indicator. The Case Severity Indicator is a measure of the reported risk or impact on society or the environment and takes into account the degree of corporate involvement. The values which refer to severity are indicated in the Normed-based Research Methodology as 'Very Severe', 'Severe', 'Moderate' and 'Potential'. The 'Very Severe' value identified instances where the company is reportedly causing/contributing to critical adverse impact and is excluded from the Index.

Furthermore, the overall Norm-based research Score (“NBSOverallScore”) assigns a 1-10 rating score to an issuer based on the issuer’s link with any violations of international standards. The Index Provider excluded from the investable universe the companies which were assessed with a score of 9 or 10.

How did this financial product consider principal adverse impacts on sustainability factors?

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

Exposure to certain environmental adverse impacts is minimized due to the thematic investment policy of the Product whereby specific emphasis is placed on companies which contribute to the development of sustainable forms of production and consumption. In addition, this financial product considered principal adverse impacts on sustainability factors by means of Norm-based research and Controversial sector involvement screenings the Product takes the principal adverse impacts on sustainability factors relating to greenhouse gas emissions, biodiversity, water, waste, social and employee, respect for human rights, anti-corruption and anti-bribery matters into account.

For detailed information, please refer to the questions “How have the indicators for adverse impacts on sustainability factors been taken into account?” and “How do sustainable investments not cause significant harm to any environmental or social sustainable investment objective?”

Additionally, principal adverse impacts are considered as part of the Glass Lewis ESG policy guidelines, whereby casted votes regard the environment, energy efficiency, the use of renewable energy sources, enhancing the rights of workers, violation of international human rights standards, gender pay inequity and board diversity.

What were the top investments of this financial product?

As of 31/12/2025:

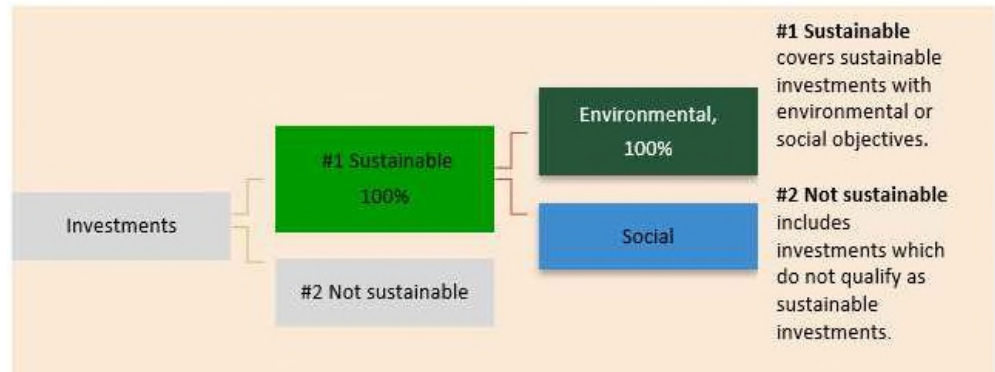

Security name	Weight (%)	Sector	Currency	Country
WASTE MANAGEMENT INC	8.23	Industrials	USD	US
REPUBLIC SERVICES INC	8	Industrials	USD	US
VERALTO CORP	7	Industrials	USD	US
BRAMBLES LTD	6.43	Industrials	AUD	AU
UPM-KYMMENE OYJ	6.13	Materials	EUR	FI
SMURFIT WESTROCK PLC	5.61	Materials	USD	IE
SEVERN TRENT PLC	5.09	Utilities	GBP	GB
DARLING INGREDIENTS INC	4.54	Consumer Staples	USD	US
CASELLA WASTE SYSTEMS INC	4.42	Industrials	USD	US
COMMERCIAL METALS CO	4.39	Materials	USD	US
GFL ENVIRONMENTAL INC	4.26	Industrials	USD	CA
KURITA WATER INDUSTRIES LTD	4.21	Industrials	JPY	JP
UMICORE SA	4.15	Materials	EUR	BE
SONOCO PRODUCTS CO	4	Materials	USD	US
CLEANAWAY WASTE MANAGEMENT LTD	2.96	Industrials	AUD	AU

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: 2025.

What was the asset allocation?

The Product invested in direct financial instruments of which 100% was sustainable. All of these sustainable investments were environmentally sustainable.

In which economic sectors were the investments made?

As of 31/12/2025 the assets were allocated to the following sectors:

Sector Weighting	% of Net Assets
Health Care	95.05
Consumer Staples	4.31
Consumer Discretionary	0.63
Other/Cash	0.01

The weights may not sum up to 100% due to rounding.

To what extent were sustainable investments with an environmental objective aligned with the EU Taxonomy?

While the Product has a sustainable investment objective within the meaning of Article 9 of the SFDR and invests in companies involved in recycling products and services and those enabling enhancement of goods lifecycles, thereby aiming to enhance the development of sustainable recycling solutions and reducing the amount of generated waste, the investments underlying this Product do not take into account the EU criteria for environmentally sustainable economic activities within the meaning of the Taxonomy Regulation. As such, the Product's portfolio alignment with such Taxonomy Regulation was not calculated. It follows that the minimum extent of sustainable investments with an aligned environmental objective aligned with the Taxonomy Regulation is currently 0%.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

- Yes
- In fossil gas in nuclear energy
- No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

Asset allocation describes the share of investments in specific assets.

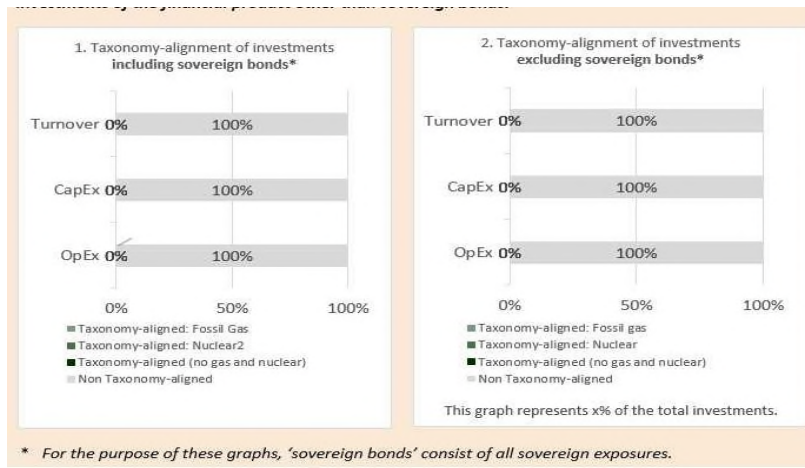

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules. **Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

are sustainable investments with an environmental objective that do not take into account the criteria for environmentally sustainable economic activities under the EU Taxonomy.

● **What was the share of investments made in transitional and enabling activities?**

The share of investments in transitional and enabling activities was 0%.

● **How did the percentage of investments aligned with the EU Taxonomy compare with previous reference periods?**

The Product did not intend to make sustainable investments with an environmental objective aligned with the EU Taxonomy during the reporting period. During the reporting period a limited amount of companies has reported on Taxonomy-alignment.

What was the share of sustainable investments with an environmental objective that were not aligned with the EU Taxonomy?

100% of the Product’s investments is sustainable with an environmental objective that are not aligned with the EU Taxonomy. This is determined based on the (potential) revenue streams of companies related to sustainable production and consumption practices and the criteria defined for Norm-based research and Controversial sector involvement screenings to ensure that the companies in the portfolio do no significant harm to other sustainability related objectives. The Product’s investments are considered to be sustainable investments with an environmental objective, but are not aligned with the expansive and strict criteria which are defined for circular economy in the EU Taxonomy.

What was the share of socially sustainable investments?

Not applicable. The Product did not intend to make socially sustainable investments.

What investments were included under “not sustainable”, what was their purpose and were there any minimum environmental or social safeguards? ere the environmental and/or social characteristics promoted by this financial product met?

Not applicable, all investments were sustainable.

¹Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

What actions have been taken to attain the sustainable investment objective during the reference period?

Companies have been screened for compliance with the Index rules and the Index has been rebalanced on a semi-annual basis by the Index Provider. The Product has replicated the Index based on the Index rules during the reporting period.

Furthermore, the European ESG Committee has performed a review and reported on the alignment of the sustainable investment objective of the Product.

In addition:

- The Glass Lewis ESG voting guidelines applied to this Product. Glass Lewis manages proxy voting, policy implementation, recordkeeping and reporting of voting activities.
- Glass Lewis Europe Limited has been appointed as engagement specialist for the passive equity funds managed by VanEck Asset Management B.V. The engagement provider determines the engagement approach in accordance with its engagement policy and based on its engagements' priorities.

How did this financial product perform compared to the reference sustainable benchmark?

As a passive investments strategy, the Product has replicated the reference sustainable benchmark in order to be aligned with the sustainable investment objective.

● ***How did the reference benchmark differ from a broad market index?***

The Index differs from a generic broad market index in following ways:

- Thematic investment approach: only companies that derive at least 50% (25% for current components) of their revenues from water purification and treatment products or services, waste-to-energy and biofuels, general waste management services that include recycling services, metal recycling services or companies with at least 50% of their revenues (25% for current components) from products that are made of - or services related to - recycled, repurposed, or reused materials. In addition, companies that meet certain ESG standards related to sustainable water purification, waste management and recycling services could also be included are eligible for inclusion.

- ESG screenings: companies with very severe social norms violations, the ones that have greater than 0% revenue exposure to controversial weapons, or that exceed certain thresholds of revenue exposure to various sectors including but not limited to civilian firearms, tobacco, and energy extractives are not eligible for inclusion.

● ***How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the sustainable investment objective?***

The Product invested 100% in line with the reference benchmarks and had for that reason the same score on the sustainability indicators as the benchmarks. The European ESG Committee has analysed and confirmed the alignment of the reference benchmark with the Product's sustainable investment objective.

● ***How did this financial product perform compared with the reference benchmark?***

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Indicator	Product: VanEck Circular Economy UCITS ETF	Reference benchmark: MVIS®Global Circular Economy ESG Index
The weighted percentage of investee companies' revenues attributable to circular economy	48.60%	48.60%
The percentage of portfolio involved in violations of UN Global Compact, the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles for Business and Human Rights	0.00%	0.00%
The percentage of portfolio involved in the fossil fuels industry	0.00%	0.00%
The percentage of portfolio involved in non-renewable energy production	3.23%	3.24%

● ***How did this financial product perform compared with the broad market index?***

Indicator	Product: VanEck Circular Economy UCITS ETF	Broad market index: Solactive GBS Global Markets Large & Mid Cap Index
The weighted percentage of investee companies' revenues attributable to circular economy	48.60%	N/A (Data not available for all companies in the index.)
The percentage of portfolio involved in violations of UN Global Compact, the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles for Business and Human Rights	0.00%	0.22%
The percentage of portfolio involved in the fossil fuels industry	0.00%	9.88%
The percentage of portfolio involved in non-renewable energy production	3.23%	2.35%

Periodic disclosure for the financial products referred to in Article 9, paragraphs 1 to 4a, of Regulation (EU) 2019/2088 and Article 5, first paragraph, of Regulation (EU) 2020/852

Product name: VanEck Medical Robotics and Bionic Engineering UCITS ETF

Legal entity identifier: 254900QPAYF1L0Z4C422

Sustainable investment objective

Did this financial product have a sustainable investment objective?	
<input checked="" type="radio"/> Yes	<input type="radio"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy 	<input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective
<input checked="" type="checkbox"/> It made sustainable investments with a social objective: 100%	<input type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

To what extent was the sustainable investment objective of this financial product met?

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

The sustainable investment objective of the Product during the reference period was to support enhancing and developing products that increase the quality of life by providing goods and services vital to preservation, correction and augmentation of human body functions, thereby contributing to social objectives aligned with the Sustainable Development Goals (SDG) “Good Health and Well-Being” and “Reduced Inequality”.

Therefore, the Product aimed at investing in companies which were determined by the Index Provider to generate a significant (>50%, >25% for current components) part of their revenues from medical implants, prosthesis, or bioprinting and preservation of organs and tissues.

The Product’s total contribution to these sub-themes has been calculated by measuring the net weighted percentages of companies’ revenues derived from the themes named above.

The Glass Lewis ESG policy guidelines was applied, whereby votes were cast on sustainability matters.

A third-party engagement specialist - Glass Lewis Europe Limited – has been engaged for the passive equity funds managed by VanEck Asset Management B.V. The engagement provider determines the engagement approach in accordance with its engagement policy and based on its engagements’ priorities.

A reference benchmark, MVIS® Global Bionic Healthcare ESG Index, has been designated for the purpose of attaining the sustainable investment objective.

To measure the attainment of the Product’s sustainable investment objective, the sustainability indicators included in the next question were calculated for the Product.

How did the sustainability indicators perform?

The sustainability indicators performed as below:

Indicator	Score
The weighted percentage of investee companies' revenues derived from contribution to medical implants, prosthesis, or bioprinting and preservation of organs and tissues	46.43 (Revenues percentages are provided in ranges as following: 0-25%, 25-50% and 50+%. The lower bound of the range is taken to calculate the weighted average revenue percentage.)
The percentage of portfolio involved in violations of UN Global Compact, the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles for Business and Human Rights	0.00%
The percentage of portfolio involved in the fossil fuels industry	0.00%
The percentage of portfolio involved in non-renewable energy production.	0.00%

... and compared to previous periods?

Indicator	2025	2024	2023	2022
The weighted percentage of investee companies' revenues derived from contribution to medical implants, prosthesis, or bioprinting and preservation of organs and tissues	46.43%	46.82 %	50.00 %	50.00 %
The percentage of portfolio involved in violations of UN Global Compact, the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles for Business and Human Rights	0.00%	0.00%	0.00%	0.00%
The percentage of portfolio involved in the fossil fuels industry	0.00%	0.00%	0.00%	0.00%
The percentage of portfolio involved in non-renewable energy production.	0.00%	0.00%	0.00%	0.00%

How did the sustainable investments not cause significant harm to any sustainable investment objective?

The Product has not invested in companies which cause significant harm to any other environmental or social sustainable investment objective. The screenings consist of various components:

- Controversial sector involvement whereby companies are screened for involvement in:
 - △ Controversial weapons: a 0% revenue threshold is applied.
 - △ Tobacco, thermal coal, fossil fuels, oil sands, nuclear energy, civilian firearms, military and gambling: a 5% revenue threshold is applied.
- Norm-Based Research whereby companies are screened for violations of international standards concerning various norms such as human rights, labor rights, environmental risk and bribery.

Companies for which there is no data available on one or more screening components do not constitute a violation of environmental or social objectives on that specific screening component. As of December 2024 rebalancing, no companies which were not covered by the ESG data provider, were included in the Index.

How were the indicators for adverse impacts on sustainability factors taken into account?

Indicators for adverse impacts on sustainability factors were taken into account. The Product considered the following principal adverse impacts on sustainability factors:

- Greenhouse Gas (GHG Emissions):
 - As part of Norm-based research on environmental protection based on the screening on "Failure to mitigate climate change impacts"
 - Fossil Fuel/Coal - Total Maximum Percentage of Revenues is 5%: This factor provides the maximum percentage of recent-year revenues for the issuer's total involvement in coal/fossil fuel, including any exposure in Production, Exploration, Distribution, and Services.
 - Companies that are eligible for the index inclusion under sub-theme F, must display a positive environmental impact by having at least one score larger than zero, and the other score at least zero, related to the Contribution and Achievement of Sustainable Agriculture and Forestry or Agriculture Climate Change Contribution.
- Biodiversity
 - Part of Norm-based research on environmental protection "Failure to prevent depletion of biodiversity" and "Failure to prevent deforestation / illegal logging".
- Water
 - Part of Norm-based research on environmental protection "Failure to prevent depletion of biodiversity", "Failure to prevent water pollution" and "Failure to prevent oil spill".
- Waste
 - Part of Norm-based research on environmental protection "Poor waste management", "Poor nuclear safety", "Failure to prevent pollution" and "Failure to mitigate the production / distribution of hazardous substances"
- Social and employee, respect for human rights, anti-corruption and anti-bribery matters
 - Norm-based screening covers controversial practices that have adverse impacts on society and the environment in line with established expectations for Responsible Business Conduct as set forth in the core normative framework consisting of the Principles of the UN Global Compact, the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles for Business and Human Rights, all of which are embedded in the Sustainable Development Goals.
 - Part of Norm-based research on Human Rights, including "Failure to conduct human rights due diligence" and "Failure to provide equal pay for work of equal value"
 - Controversial weapons screenings are performed whereby companies with a RED exposure score in anti-personnel mines, biological and chemical weapons, cluster munitions, depleted uranium, incendiary weapons, white phosphorus and nuclear weapons are excluded from the index.

----- ***Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:***

Yes, norm-based research was conducted, whereby companies are screened for violations of international standards concerning various norms such as human rights, labor rights, environmental risk and bribery. Norm-based Research framework consists of research on the level of adherence of a company to the Principles of the UN Global Compact, the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles for Business and Human Rights and is embedded in the Sustainable Development Goals.

Violations of these standards were measured by reference to the Case Severity Indicator. The Case Severity Indicator is a measure of the reported risk or impact on society or the environment and takes into account the degree of corporate involvement. The values which refer to severity are indicated in the Normed-based Research Methodology as 'Very Severe', 'Severe', 'Moderate' and 'Potential'. The 'Very Severe' value identified instances where the company is reportedly causing/contributing to critical adverse impact and is excluded from the Index.

Furthermore, the overall Norm-based research Score ("NBSOverallScore") assigned a 1-10 rating score to an issuer based on the issuer's link with any violations of international standards. The Index Provider excluded from the investable universe the companies which were assessed with a score of 9 or 10.

How did this financial product consider principal adverse impacts on sustainability factors?

This financial product considered principal adverse impacts on sustainability factors. By means of Norm-based research and Controversial sector involvement screenings, the Product takes the principal adverse impacts on sustainability factors relating to greenhouse gas emissions, biodiversity, water, waste, social and employee, respect for human rights, anti-corruption and anti-bribery matters into account.

For detailed information, please refer to the questions "How were the indicators for adverse impacts on sustainability factors taken into account?" and "How did the sustainable investments not cause significant harm to any sustainable investment objective?"

Additionally, principal adverse impacts are considered as part of the Glass Lewis ESG policy guidelines, whereby casted votes regard the environment, energy efficiency, the use of renewable energy sources, enhancing the rights of workers, violation of international human rights standards, gender pay inequity and board diversity.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

What were the top investments of this financial product?

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: 2025.

As of 12/31/2025:

INTUITIVE SURGICAL INC	10.28	Health Care	USD	US
STRYKER CORP	10.03	Health Care	USD	US

ALPHATEC HOLDINGS INC	2.54	Health Care	USD	US

What was the asset allocation?

The Product invested in direct financial instruments of which 100% was sustainable. All of these sustainable investments were socially sustainable.

In which economic sectors were the investments made?

As of 31/12/2025 the assets were allocated to the following sectors:

Sector Weighting	% of Net Assets
Health Care	99.67
Other/Cash	0.33

The weights may not sum up to 100% due to rounding.

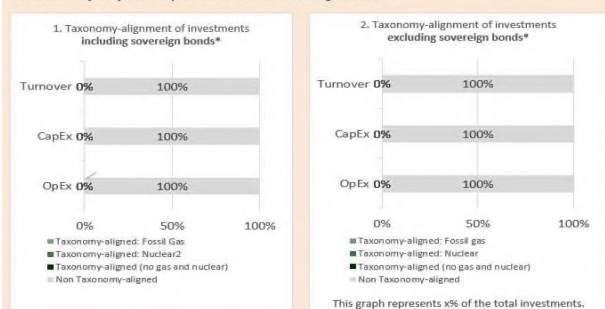

To what extent were sustainable investments with an environmental objective aligned with the EU Taxonomy?

0%. Due to the Product's emphasis on social objectives, within the meaning of Article 9 of the SFDR, the Product did not intend to invest in economic activities that contribute to an environmental objective during the reporting period. The investments underlying the Product therefore did not take into account the EU criteria for environmentally sustainable economic activities within the meaning of the Taxonomy Regulation.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

- Yes
- In fossil gas in nuclear energy
- No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds^{*}, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

What was the share of investments made in transitional and enabling activities?

The share of investments in transitional and enabling activities was 0%.

How did the percentage of investments aligned with the EU Taxonomy compare with previous reference periods?

The Product did not intend to make sustainable investments with an environmental objective aligned with the EU Taxonomy during the reporting period. During the reporting period a limited amount of companies has reported on Taxonomy-alignment.

Asset allocation describes the share of investments in specific assets.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules. **Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective. **Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- turnover** reflecting the share of revenue from green activities of investee companies.
- capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- operational expenditure (OpEx)** reflecting green operational activities of investee companies.

are sustainable investments with an environmental objective that do not take into account the criteria for environmentally sustainable economic activities under the EU Taxonomy.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable as the Product did not intend to make environmentally sustainable investments.

What was the share of socially sustainable investments?

100% of the Product's investments was sustainable with a social objective. This is determined based on the (potential) revenue streams of companies related to the genomic health care and electronic healthcare industries and the criteria defined for Norm-based research and Controversial sector involvement screenings to ensure that the companies in the portfolio do no significant harm to other sustainability related objectives.

What investments were included under "Not Sustainable", what was their purpose and were there any minimum environmental or social safeguards?

Not applicable, all investments were sustainable.

¹Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

What actions have been taken to attain the sustainable investment objective during the reference period?

Companies have been screened for compliance with the Index rules and the Index is rebalanced on a quarterly basis by the Index Provider. The Product replicates the Index based on the Index rules during the reporting period.

Furthermore, the European ESG Committee has performed a review and reported on the alignment of the sustainable investment objective of the Product.

In addition:

- The Glass Lewis ESG voting guidelines applied to this Product. Glass Lewis manages proxy voting, policy implementation, recordkeeping and reporting of voting activities.
- Glass Lewis Europe Limited has been appointed as engagement specialist for the passive equity funds managed by VanEck Asset Management B.V. The engagement provider determines the engagement approach in accordance with its engagement policy and based on its engagements' priorities.

How did this financial product perform compared to the reference sustainable benchmark?

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

- As a passive investments strategy, the Product has replicated the reference sustainable benchmark in order to be aligned with the sustainable investment objective.

- How did the reference benchmark differ from a broad market index?

The reference benchmark differs from the broad market index in the following ways:

- Thematic investment approach: companies that generate at least 50% (25% for current components) of their revenues from the following: Medical, dental or vision-related implants, bioprinting, prosthesis, or preservation of organs and tissue and be listed or traded on the Eligible Markets are eligible for inclusion. This does not include companies involved in implantable or wearable devices or materials used only for cosmetic purposes.

- ESG screenings: companies with very severe social norms violations, the ones that have greater than 0% revenue exposure to controversial weapons, or that exceed certain thresholds of revenue exposure to various sectors including but not limited to civilian firearms, tobacco, and energy extractives are not eligible for inclusion.

- How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

The Product invested 100% in line with the reference benchmarks and had for that reason the same score on the sustainability indicators as the benchmark: MVIS® Global Bionic Healthcare ESG Index. The European ESG Committee has analysed and confirmed the alignment of the reference benchmark with the Product 's sustainable investment objective.

- How did this financial product perform compared with the reference benchmark?

Indicator	Product: VanEck Bionic Engineering UCITS ETF	Reference benchmark: MVIS® Global Bionic Healthcare ESG Index
The weighted percentage of investee companies' revenues derived from contribution to medical implants, prosthesis, or bioprinting and preservation of organs and tissues	46.43%	46.435%
